INTRODUCTION

WELCOME TO WITTENBORG UNIVERSITY OF APPLIED SCIENCES!

I would like to extend a warm welcome to all new students and all returning current students to our institute, and am sure that the new academic year will be even more fruitful and successful than the last academic year.

This year we are pleased to welcome students in both our main campus of Apeldoorn and at our campus in Amsterdam, and for the first time at our new location in Vienna.

With 6 starts a year for most of our programmes, some of you will be reading this at the start entries of September, October and December, however some of you will only have started in February, April or even May. This dynamic approach to education will make your experience a 'real life experience', with students entering and leaving a phase at different times – just as in the real world of work.

If you have just started your Master of Science degree, or a BSC / BA double degree programme with the University of Brighton, you will also be experiencing a unique blend of transnational higher education, that sees the benefits of public and private universities working together to offer top quality degrees in joint taught programmes.

If you have entered into our MBA programme, you will be challenged by a double accredited intensive and rewarding experience. From this year we also plan to offer our MBA students the opportunity to study in Amsterdam.

OUR CONTINUED MISSION STATEMENT IN 2017-2018

Wittenborg University of Applied Sciences sees its role as the education and training of highly qualified, internationally minded, socially responsible and intercultural, critical and independently thinking graduates, who engage in innovative and creative business in companies and organizations around the world, either working for others or in the instigation of business and entrepreneurship.

To achieve this, the university engages in close dialogue with industry, government and NGOs. Wittenborg strives to bring expertise, knowledge and diversity to the local region in which it operates, thereby enhancing the economy, culture and social environment around the university.

Wittenborg's outlook is global and it aims to maintain its independent status whilst being one of the most international and diverse higher education institutions in the Netherlands. The university promotes total equality of students and staff, of cultures and genders and people with disabilities within the institute. Wittenborg promotes a working environment that is fair, and emphasises respect between and within its student and staff body.

The practical applied sciences that are engaged within Wittenborg's programmes enable the University to maintain up to date content within a diverse range of management orientated disciplines and implement curriculum to the highest modern education standards.

As a University of Applied Sciences, Wittenborg sees as important an interdisciplinary approach to higher education, which is reflected in the cross-disciplinary broad management programmes that allow students to develop their knowledge, skills and development through applied research in a manner that is not subject constrictive.

Wittenborg's goal is to continue developing itself into a broad management orientated University of Applied Sciences, with a strong international characteristic. Developing in various professional fields such as Business & Entrepreneurship, Hospitality & Tourism, Arts & Technology, Sport & Health and Education Management.

The university will maintain quality through maintaining a vigorous and transparent accreditation cycle for its programmes, ensuring dialogue with its students and staff through their active involvement of the accreditation and validation processes.

Wittenborg will strive to continue developing new methods of teaching and learning that meet the changing needs of society and technology.

Within its role as a higher education institute the university also supports life-long learning through the development and implementation of up to date and industry driven professional programmes aimed at corporate employees and individuals.

INVITATION TO THE WITTENBORG 30 GALA EVENING 10 NOVEMBER 2017 AT THE CITY HALL

In 2012, Wittenborg celebrated its 25th Anniversary, and at the time launched its ambitions for the coming 10 years. Now, 5 years on, we are preparing to celebrate 'Wittenborg 30' with a series of events, that commenced in the spring of 2017 and will conclude with a Gala Evening to which you are all invited, to be held on the 10th November at the City Hall in Apeldoorn.

The celebrations will conclude with a wonderful intercultural gala evening in November, and students will be involved in the events throughout 2017.

CONTINUING DEVELOPMENT

5 SCHOOLS

Wittenborg offers its programmes and carries out research in 5 different areas, managed through the schools of business, hospitality & tourism, sport & health, arts & technology, and education. Most of you will be following programmes in the School of Business and the School of Hospitality & Tourism, however some students will be following programmes in the developing schools of Health & Sport, Arts & Technology and in Education.

This year will see the launch of the Full Force Sports academy in Apeldoorn, with which Wittenborg is working closely, and which will provide sports training and facilities for all our students, as well as an exciting sports-orientated study facility for our undergraduate sports & business management students.

DOUBLE DEGREES

The additional validation of our BHM and EBA programmes by the University of Brighton, allows us to offer them as double degree programmes and means that they are the first 'triple-accredited' bachelor degree programmes in the Netherlands!

In Amsterdam, Wittenborg will see its EBA double degree bachelor's programme in entrepreneurial business administration, offered by the School of Business, grow further as Phase 2 and Phase 3 modules are now also offered.

Phase 3 is completely joint delivered with the University of Brighton's Business School, bringing a strong UK flavour to the teaching & learning. Graduates will receive both a Wittenborg BA degree and a BSc in Business from the University of Brighton.

Wittenborg's partnership with Study Group in Amsterdam will continue this academic year, allowing us to share the facilities in the spectacular central location of the Up-Building, situated at the water next to the central railway station.

The double degree in International Hospitality Management currently combines the programme IBA in Hospitality Management, accredited by NVAO and FIBAA and the University of Brighton validated BA (Hons) in International Hospitality Management.

VIENNA

Students choosing the EuroBA pathway of the double degree in hospitality management will be offered Vienna as study location for the 2017-2018 semesters. This is part of a further development of Wittenborg programmes at a new Vienna location launched in 2017.

THE MASTER PROGRAMMES – JOINT MSc PROGRAMMES AND THE MBA

This year the Master of Science programmes, in International Hospitality, International Tourism Management and International Event Management are being offered to new students and last year's pre-Master group. These exciting 1 year MSc degree programmes are offered jointly by Wittenborg University of Applied Sciences and the University of Brighton, and are now joined by a new MSc degree, the Master of Science in Sport Business Management.

The MBA programmes, that follow the same block system as the IBA, with 6 entry points, have now been expanded to include new specialisations, in Finance, Technology, Healthcare, Sports Management and Education.

MASTER SCHOLARSHIP FOR WITTENBORG GRADUATES

We are pleased to be able to continue the policy that all Wittenborg's bachelor's graduates, past and present are automatically provided a 3000-euro scholarship towards the fee of the MSc and MBA programmes, whenever you choose to follow them.

RESEARCH

In 2017-2018, Wittenborg will continue investing and participating in specific research projects, both at local, regional and international levels. If you want to be involved in research programmes at Wittenborg please as your Process Tutor to put your ideas and ambitions forward to the Research Centre.

THE NEWSLETTER & NEWS

The Wittenborg University Press (WUP) team is always on the lookout for budding writers who would like to contribute interesting articles or papers to the University news pages on the website and on Wittenborg Online. Interested? Contact the editors at newsletter@wittenborg.eu

THE STUDENT REPRESENTATIVES

The 'Student Reps' is the body of students who have direct talks with us, as directors about everything concerning life at Wittenborg University of Applied Sciences. They are involved in the evaluation of education, teaching staff, support services and staff and are an invaluable resource for the university. Normally 2 students per phase, prep year / pre-master and MSc programmes are invited to become a member of the Student Reps. Interested? Please send an email to studentreps@wittenborg.eu

THE PROGRAMME COMMITTEES

Want to make an impact on your own study programme development? From last year a new body was instigated for each study programme, the so-called Programme Committee. Members include both students and teachers and the committee reviews its programme and submits recommendations to management. Interested? – Contact your Process Tutor.

THE STUDENT ASSOCIATION

We are pleased to announce that in 2017-2018 we will be once again holding elections for the Student Association, (known as SWIFT), and once the committee is in place we will be allocating budget for SWIFT to organise social and cultural events throughout the year.

That leaves us only to wish you all an enjoyable and productive study time with us, here in Apeldoorn,

Good Luck with your studies!

Peter Birdsall, MA.Ed

Director of Education

Chair of the Wittenborg University of Applied Sciences Executive Board

MASTER OF BUSINESS ADMINISTRATION EDUCATION GUIDE

INTRODUCTION TO MASTER OF BUSINESS ADMINISTRATION

WITTENBORG'S EDUCATION PHILOSOPHY

As an institute we believe that whether a student has an academic focus on research or a practical focus on applied science our education should be closely related to the reality of the changing world and society around us, and that the business studies we offer students be linked in every way possible to the real life of business and organisation in an international and often global context.

The development of skills, competencies and knowledge never stops. Wittenborg believes that its Undergraduate students should be introduced to Postgraduate study that can lead to a Master's programme. Its Masters students are also stimulated to develop as far as they can, sowing the seeds for more learning. Learning is a life-long activity that Wittenborg students will appreciate as a highly valuable asset to their careers.

Wittenborg's philosophy is to simulate real life in its approach to education, providing a differentiated programme with traditional knowledge-based teaching combined with a development of skills and competencies leading to a vocation training situation in which students can discover their strengths and weaknesses and build on the former and improve the later.

- Wittenborg students will learn to identify the environment they are in and adapt accordingly.
- Wittenborg students will learn to say what they do, and do what they say.

ENTRY REQUIREMENTS FOR THE MBA

Admission into programmes at Wittenborg is governed by the Graduation & Examination Board that empowers the Student Registrar to admit students based on pre-defined criteria.

In cases where applicants have deviating admissions documents, such as Bachelor degrees that are not listed in Naric or recognised by NUFFIC, the Student Registrar is required to forward the application to the Exam Board for a decision. Using the tools of Nuffic and NARIC diploma verification, diplomas and periods of study are validated in line with the requirements of the Lisbon Convention, through the use of <http://www.enic-naric.net> as is described in the convention and its explanatory report.¹

- Master Students should have the appropriate education qualifications, validated by NUFFIC and NARIC
- a Bachelor degree or equivalent recognised qualification;
 - Applicants are requested to provide an academic reference from their previous education institute;
 - It is not necessary to have obtained a Bachelor degree from the domain of Business Administration, however in their degree students must have completed an academic piece of work (final project or dissertation) that shows a degree of academic writing and research experience.
- MBA students should have at least 3 years professional experience (after undergraduate degree);
 - Applicants are requested to provide a reference from a company or organisation where they have worked;
- Master Students have attained a working level of the English Language equivalent to an IELTS 6.5 band, with a minimum 6 for writing .i.e. "Has generally effective command of the language despite some inaccuracies, inappropriacies and misunderstandings. Can use and understand fairly complex language, particularly in familiar situations."
- Applicants must write a letter of motivation and submit their Curriculum Vitae and 2 letters of reference.
- Students are interviewed by Wittenborg for intention, motivation and aptitude. They must pass this admission interview, which can be carried out in person, or through IT communications, such as video phone.

¹ The Lisbon Recognition Convention, officially the Convention on the Recognition of Qualifications concerning Higher Education in the European Region

- After students have passed the admission interview, and offered have been offered a place at Wittenborg, they are asked to sign a Wittenborg Study Agreement, which details the agreements made between Wittenborg about entry into the programme, and possible preparation courses that are required. The Wittenborg Study Agreement also states that students have read and understood the Education and Examination Guide (EEG)
- Wittenborg is signatory for the national Code of Conduct for international students in the Netherlands, where specifics regarding entry requirements are also re-iterated.
- The application procedure for international students is fully described on the Wittenborg website www.wittenborg.eu. All the required documents and information regarding the fee structure can be found there.

NB: Students entering Wittenborg programmes and signing the Study Agreement are expected to have received and read the EEG (this document).

The Domain Business Administration

"The MBA degree programme is aimed at providing graduates with the skills and competencies to fulfil management positions in the field of business administration, both in the public and private sector. These positions can include management or policy-making positions in large organisations, as well as positions of management in small to medium sized companies (SMEs). An aim is that students are able to critical analyse and evaluate various developments within an organisation so that they can form, create and instigate policies, visions and aims and solutions within that organisation. They should be in a position to analyse the strategic processes and vision of a company or organisation and using this analysis apply and implement tools to innovate, optimise and (re-)structure these processes using an integral approach. From an international perspective the students should learn to analyse the environment they find themselves in and adapt their behaviour and role according to the macro and micro environments they find themselves in."

Programme Profile

"An international business administration professional will develop into a career person who is able to organize, develop products, services and policies, instigate and execute policies, perform under stress, control processes, analyse organisation traits, utilise human resources and plan their management, motivate staff and personnel, manage financial information, use information effectively, plan and organise campaigns, understand internal and external markets, interact with the surroundings, network, manage chains, communicate effectively, show leadership skills, manage meetings, present ideas, sell ideas and products, speak and write at least the English language, participate in company and organisation decision making and understand local and international cultures and the effects these have on the organisation and the individual."

"Business Administrators can operate in financial or technical environments but also management and leadership settings and a combination of these. They must understand the need for leadership and motivating people. They must understand the impact of change and the need for innovation. The Business Administrator will understand the need for good communication skills and have a good understanding of society, economics and sustainability. Understanding the need for stable and solid management within a company, large or small is important. A business person in modern day Europe needs to be able to communicate with people across the continent and across the world, and requires the ability to understand the effects of national and international governments on the business ventures they are involved in."

"An MBA qualified Business Administrator is specifically able to manage a number of complex and integrated business operations within an international or a local setting, at both a tactical and strategic level, using skills and competencies that require a capability of inter-disciplinary thinking. They will show the ability to combine solid research and critical analysis skills to develop an organisation's corporate strategy within its business and cultural domain."

THE MBA FINAL QUALIFICATIONS

The MBA programmes all have 5 core overall qualifications that reflect the following:

1. **Understanding (Body of Knowledge)**
2. **Adoption (Strategic Management Roles)**
3. **Communication (Skills)**
4. **Conduct (Research)**
5. **Continuously develop personal skills (Lifelong learning)**

After completion of the Wittenborg MBA programme, the student is able to:

1. **Understand the MBA body of knowledge and apply its concepts and theories to the current business practice in an international and intercultural context, including:**
 - supporting an effective and efficient human resources policy, supporting and optimizing business relationships and networks
 - conceiving and developing effective marketing strategies and policies and making informed strategic decisions with regard to market research, branding and market penetration
 - supporting the role of accounting principles and principles of corporate finance in the decision making process (including investment opportunities, capital requirements, risk minimization, financial reporting)
 - supporting supply chain and quality management in order to increase efficiency and competitiveness
 - supporting information technology and business automation processes
2. **Adopt appropriate management and leadership roles to strategic policy issues and decision-making processes in an international and intercultural context, including:**
 - making informed strategic decisions with regard to the positioning of the organization within its (local/national/global) business environment
 - distinguishing between formal strategic processes and the needs for change processes
 - being able to manage small to medium sized business, companies in the non-profit sector, or government organisations
 - supporting the concept of corporate sustainability and the transformation process towards an ethical, sustainable business
 - being able to identify and/or create new business opportunities and reduce restrictions in the existing external business environment

- being able to reorganize growing or stagnating organisations depending on environmental factors
 - supporting business innovation and idea generation within the constraints of internal and external influences
- 3. Use communication skills and critical analysis skills in order to improve effectiveness of business processes, including:**
- being aware of cultural differences and diversity in the workplace
 - implementing effective problem-solving, team-work and team-building skills
 - being able to assess others' linguistic communication skills at business and governmental level
 - being able to position, defend, and communicate a company's policies (e.g. on sustainability) to internal and external stakeholders
 - being able to review analytical reports and plans
 - being able to apply various statistical techniques in business decision making and reporting
- 4. Conduct individual and group research in the area of international business or management practice.**
- being able to use and present (in tables and graphs) descriptive statistical data and indicators within the context of business planning and research
 - being able to design a methodologically sound research proposal based on current conceptual models and quantitative & qualitative techniques
- 5. Apply skills for continuous personal development**
- Being able to self-reflect on one's personal and professional development, taking responsibility for the continuous development of his or her knowledge and learning skills, and being able to continue to undertake further studies with a high degree of autonomy

A Graduate's Qualification and Competence Goals

The qualification and competence goals of the MBA are in line with those of a Professional Master degree from a University of Applied Sciences in the Netherlands: through a combination of knowledge gained from text books, scientific research literature, exposure to business practice and the application of understanding and knowledge, students reach a stage at which they can start their (international) careers or continue their studies in the Netherlands or abroad.

“holders of HBO Master’s degrees have obtained the qualifications for the level of independent and/or management level professional practitioner in an occupation or spectrum of occupations, and have reached the level needed to work in a multi-disciplinary environment in which a HBO degree is either required or would be of use.”

In line with the all-round domain specific qualification and competence goals of a Netherlands HBO degree.

Wittenborg Business Administration Graduates will show the following:

- ability to work independently;
- ability to develop or generate new ideas and communicate these and be pro-active;
- ability to think ahead and actively change processes to improve them;
- develop an analytical capability based on experience;
- quickly ascertain the effect of change within organisations;
- ability to quickly prioritise;
- ability to quickly gain an overview of an organisation;
- ability to understand complex situations;
- has a broad understanding of business as well as a deeper understanding of work field specific issues (specialist);
- has good written and spoken presentation skills;
- has the ability to work in autonomous teams and values the input of peers;
- has developed a good understanding of the social – economic environment, and maintains this;
- has the ability to socialise with fellow graduates and academics;
- has the ability to take worthwhile decisions both long-term and short-term based on available facts and existing situations;

Furthermore, an MBA graduate:

- has the ability to lead people and motivate teams;
- has the ability to communicate conclusions;
- is flexible and can cope with uncertain situations;

- shows creativeness and innovation through the ability to introduce new thoughts alongside normal theory;
- shows social competence, through self-reflection, cultural adaptability, and openness to other ways of thinking: is empathic.

A Business Administration programme focuses on the skills and competencies required to operate in an international business working environment, both politically and socially, and both permanent and temporary. The competences and skills should be attuned to a small- to middle-sized business organizations which operate in an international business environment and which may be part of the operations of multi-national organisations. Graduates should be able to work with people and groups in diverse forms of organisations; they can be flat or highly hierarchical, primarily economically, socially or politically orientated.

A graduate will be required to recognize and understand the following processes:

- The development and execution of specific policies of an organisation that will lead to higher levels of optimisation, revenues, growth and sustainability
- The nurturing and maintenance of relationships within and between organisations, networks and chains;
- The management of processes in fulfilment of developed and developing management aims;
- The planning, control and organisation of processes within an organisation;
- The development and adherence to quality control processes;
- The management of products, production processes and chains;
- Wittenborg students will further develop the following domain competencies:
- An understanding of common business practices;
- Understand change and trends in the field of international business;
- Identify the relationship between social developments and requirements and the organisation structure, its financial planning, its operational processes and its human resource management;
- Learn to view internal processes from an integral viewpoint, working together with a range of different specialists;
- Understand the importance of developing networks, chains and relationships;
- Collect, analyse and present information to an organisation, and suggest solutions and optimisations for the organisation;
- Analyse the financial and legal aspects within an organisation in order to offer alternative processes;
- Prepare advice on the internal operation and processes within an organisation;
- Develop, implement and evaluate change management within an organisation;
- Communicate clearly and effectively within an organisation;
- Work independently and be creative;
- Identify diverse business cultures and adapt to them;
- Learn to adapt to the business and national environments in which they find themselves;
- Work under stress, in complex cross-business domain situations;

The business administration curriculum is designed to introduce students to a wide range of business administration activities, placing these in the international context that the students already find themselves in. By the end of the programme, Wittenborg students should have further developed the following broad knowledge areas:

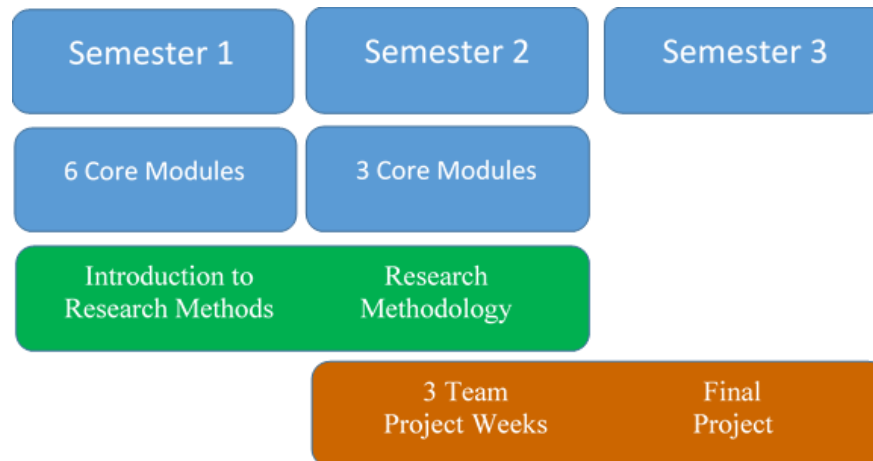

- An understanding of the broad scope of business administration, and the interdisciplinary thinking required in organisations;
- An organisational perspective on (international) business activities within companies and an understanding of the contexts in which these occur;
- An ability to research a problem and present possible solutions;
- An understanding of the financial knowledge requirements of a junior manager within a company, and the ability to put this knowledge into practice;
- An understanding of intercultural issues in business administration;
- Specifically, international business administration students will have acquired the following skills:
 - New language learning skills
 - Language “through-thinking”

To understand their own interpersonal communication skills and how to improve and refine these, including areas such as:

- Negotiation
- Interviewing
- Presentation and public speaking skills
- Meetings
- Teamwork
- Leadership
- Information Technology usage: internet and desktop publishing programmes, usage of an Intranet
- Study skills: reading and learning in a foreign language, note-taking, brain storming, mind mapping, researching a subject in-depth, paper writing, contributing to / keeping a journal

PROGRAMME STRUCTURE

The full-time MBA is structured in three semesters spanning 1 ½ years, with distinct aspects to each semester.

BLOCK SYSTEM – SEMESTER 1 & 2

Semester 1				Semester 2			
Block 1	Block 2	Block 3	Block 4	Block 5	Block 6	Block 7	Block 4
2 Lesson Weeks with a maximum of 2 core modules.			2 Weeks for Retakes and Tutorials	2 Lesson Weeks with a maximum of 2 core or <i>elective</i> modules.			2 Weeks for Retakes and Tutorials
1 Assignment & Literature Review Week Students have a week to work on their assignments and review the literature for their current modules. During this week, guest speakers related to the taught modules will be invited to give seminars. Rescheduled lessons can also be followed in this period.				1 Project Week – Students carry out an interdisciplinary consultancy project assignment, as part of the module “Project Weeks” During this week, guest speakers related to the taught modules will be invited to give seminars, and company visits will be organised for students. Rescheduled lessons can also be followed in this period.			
2 Lesson Weeks with a maximum of 2 core modules.				2 Lesson Weeks with a maximum of 2 core or <i>elective</i> modules.			
1 Closed or open book written examination.				1 Assignment Submission Week, in which students complete their assignments, and can be asked to present if required.			

Semester 1 provides students with 6 of the core MBA subjects, balanced equally over the semester. Each module, given over a six weeks block, is weighted at 5 European Credits. These modules incorporate a number of classic functional business administration areas, which, besides by forms of classical delegation of knowledge, will be grasped by reflective learning, i.e. learning in which students reflect on their prior work experience or, in cases of part time students, on their current work and employment organisation in the light of the materials provided in the various modules. Students must have done all semester 1 modules in order to enter into semester 2 modules.

Reflective learning helps to develop critical thinking, self-awareness and analytical skills. It involves an individual in a reflective process.

During Semester 1, students are given 9 hours of lessons of (an introduction to) Research Methods, which is part of the Final Project. During Semester 1, guest speakers will be invited to give seminars during the third week of each block (Assignment and Literature review weeks)

Semester 2 provides students with at least 1 compulsory modules that build on the core modules from Semester 1. In some of the MBA programmes, one module, Business Statistics is also partially aimed at preparing students for quantitative research in their Final Project. In Semester 2, students currently follow between 2 and 4 modules from a chosen elective MBA "pathway":

- General Management
- Hospitality Management
- Entrepreneurship & Innovation
- Finance
- Health & Social Care
- Education Management
- Sport Business Management

Please see PART 3 for details of the elective modules for each MBA pathway.

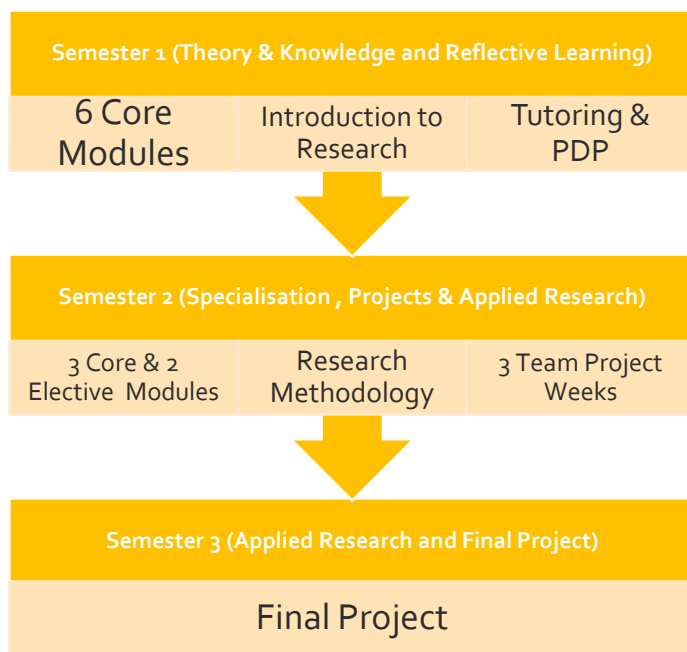

During Semester 2, also follow the Research Methods module in preparation of the Final Project. They will complete Research Methods with the production and submission of a Final Project Proposal.

During Semester 2, students are required to complete 3 team project weeks, each comprising of an interdisciplinary research project focusing on problem solving, instigated in cooperation with companies and organisations in the region. The 3 team project weeks will include company visits and

Semester 1 Core Modules
Human Resource Management
Marketing Management
Management Accounting & Finance
Operations Management
International Management
Information Management

Semester 2 Core Modules that can be taken
Corporate Sustainability
Business Statistics
Strategic Management

guest lectures, designed to give students a connection to the local business community and to assemble information relevant to their problem-solving assignments.

Semester 3 will see students completing their Final Project. The Final Project covers the full semester (Term) of ½ a year, which includes research and editing time. Failed assignments modules from semesters 1 and 2 can be reworked and re-submitted at the start of this semester, according to deadlines set by the programme management.

MODULE PLANNING

Timetabling: teaching will be done using the “block teaching” method. Wittenborg aims to teach as many of its Master modules in teaching blocks of three days.

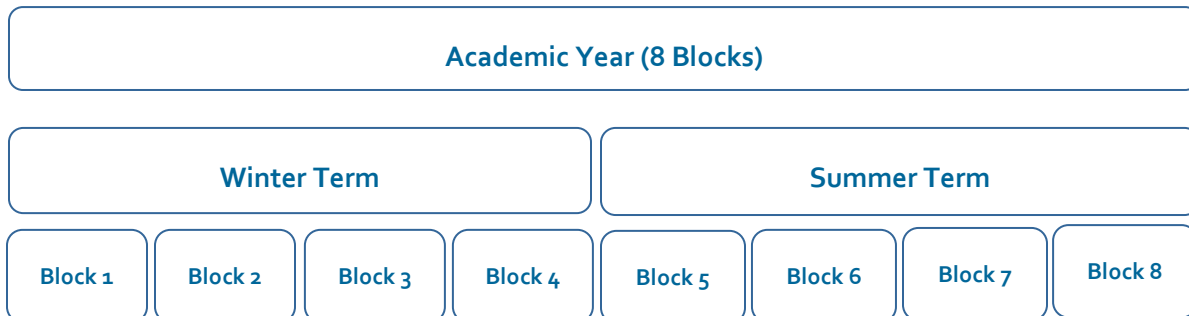

In practice this will mean that the programme will aim to offer a module’s 36 teaching hours in two sessions of 3 days. For instance, in Block 1 of Semester 1, fulltime students could expect the following lesson timetable:

<i>Block</i>	<i>Week</i>	<i>Subject</i>	<i>Days</i>	<i>Hours</i>
	Week 1	Management Accounting & Finance	Wed, Thurs, Fri	18 (6 per day)
	Week 2	Marketing Management	Wed, Thurs, Fri	18 (6 per day)
	Week 3	Management Accounting & Finance	No planned lessons	
	Week 4	Marketing Management	Wed, Thurs, Fri	18 (6 per day)
	Week 5	Assignment & Literature Review	Wed, Thurs, Fri	18 (6 per day)
	Week 6	Written Exam	No planned lessons	

PART-TIME MBA

“The MBA is also offered to students who wish to study part-time in 3 years. This will mean that instead of following 2 modules per block, only 1 module will be taken, and project weeks and research methods will be spread across a whole year. The editing time allowed for the final project will also be extended across 1 year.”

- The Wittenborg courses are planned into two separate semesters known as the Winter Term and the Summer term; each with 3 teaching blocks of 6 weeks. Modules are taught in 1 block, and examined at the end of that block.
- Each semester is comprised of 4 blocks = 3 blocks of 6-weeks (with each block being made up of 4 weeks of lessons, 1 project week and 1 exam week); and 1 block of 2 weeks for missed lessons and full module exams.
- Students can start their studies either at any full 6-weeks block, in the Winter Term or the Summer Term.
- Each block has individual modules and these will be offered once a year.
- Each module has examination or assessment moments, all held on 1 day at the end of the block.
- Each exam has a retake exam, held in blocks 4 or 8. Students are only allowed to register for re-take exams for modules that have been given in that term.

COMPARISON OF FULL TIME VERSUS PART TIME PROGRAMME

Full Time Programme			Part Time Programme		
Period	Duration	Content	Period	Duration	Content
Semester 1 (Winter Term)	Block 1 -4 (½ Year)	6 Modules Introduction to Research Methods	Semester 1 (Winter Term)	Block 1 -4 (½ Year)	3 Modules
Semester 2 (Summer Term)	Block 5 -8 (½ Year)	3 Modules 2 Elective Modules 3 Project Weeks Research Methods	Semester 2 (Summer Term)	Block 5 -8 (½ Year)	3 Modules Introduction to Research Methods
Semester 3 (Winter Term)	Block 1 -4 (½ Year)	Final Project	Semester 1 (Winter Term)	Block 1 -4 (½ Year)	3 Modules 1 Project Week Research Methods
			Semester 2 (Summer Term)	Block 5 -8 (½ Year)	2 Elective Modules 2 Project Weeks Research Methods
			Semester 1 (Winter Term)		
			Semester 2 (Summer Term)		

STARTING A MODULE: DOCUMENTATION

Each module is described in a Module Guide, which clearly states the aims and objectives of the module. On the front cover of the Module Guide students can clearly see how many EC credits are allocated to the module, and as shown in this example, the aims and objectives are clearly stated on the front cover.

When starting the module, the teacher will present students with a Module Guide which is comprised of a collection of documents including:

Module Description

This will tell students exactly what they can expect to learn from the module, and how it will be taught. It records the link between what is taught, the curriculum and the requirements of the accredited bachelor programme. Students can also find the number of ECs allocated to the module.

Module Guide – Lesson Blocks

This document will provide students with an overview of the study components of their module. Each week will show what is to be studied during that period, and even page numbers of books that should be read before the lesson. The module plan will provide students with an insight into what they can expect from a lesson block.

Module Assessment Overview

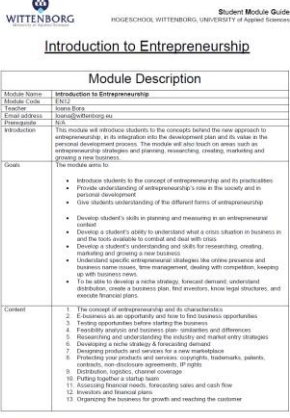

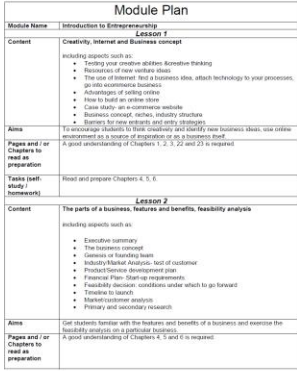

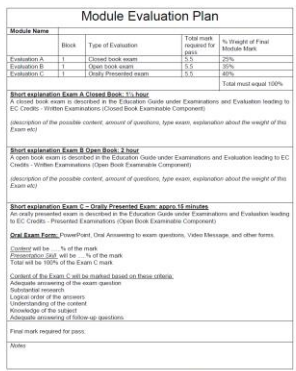

This document will give students a precise overview of how their module will be examined and marked.

Relative documents to the module: Reading material

The module plan also contains any relative reading material, web links, and literature resources that are standard learning tools within the module.

Lesson Plan

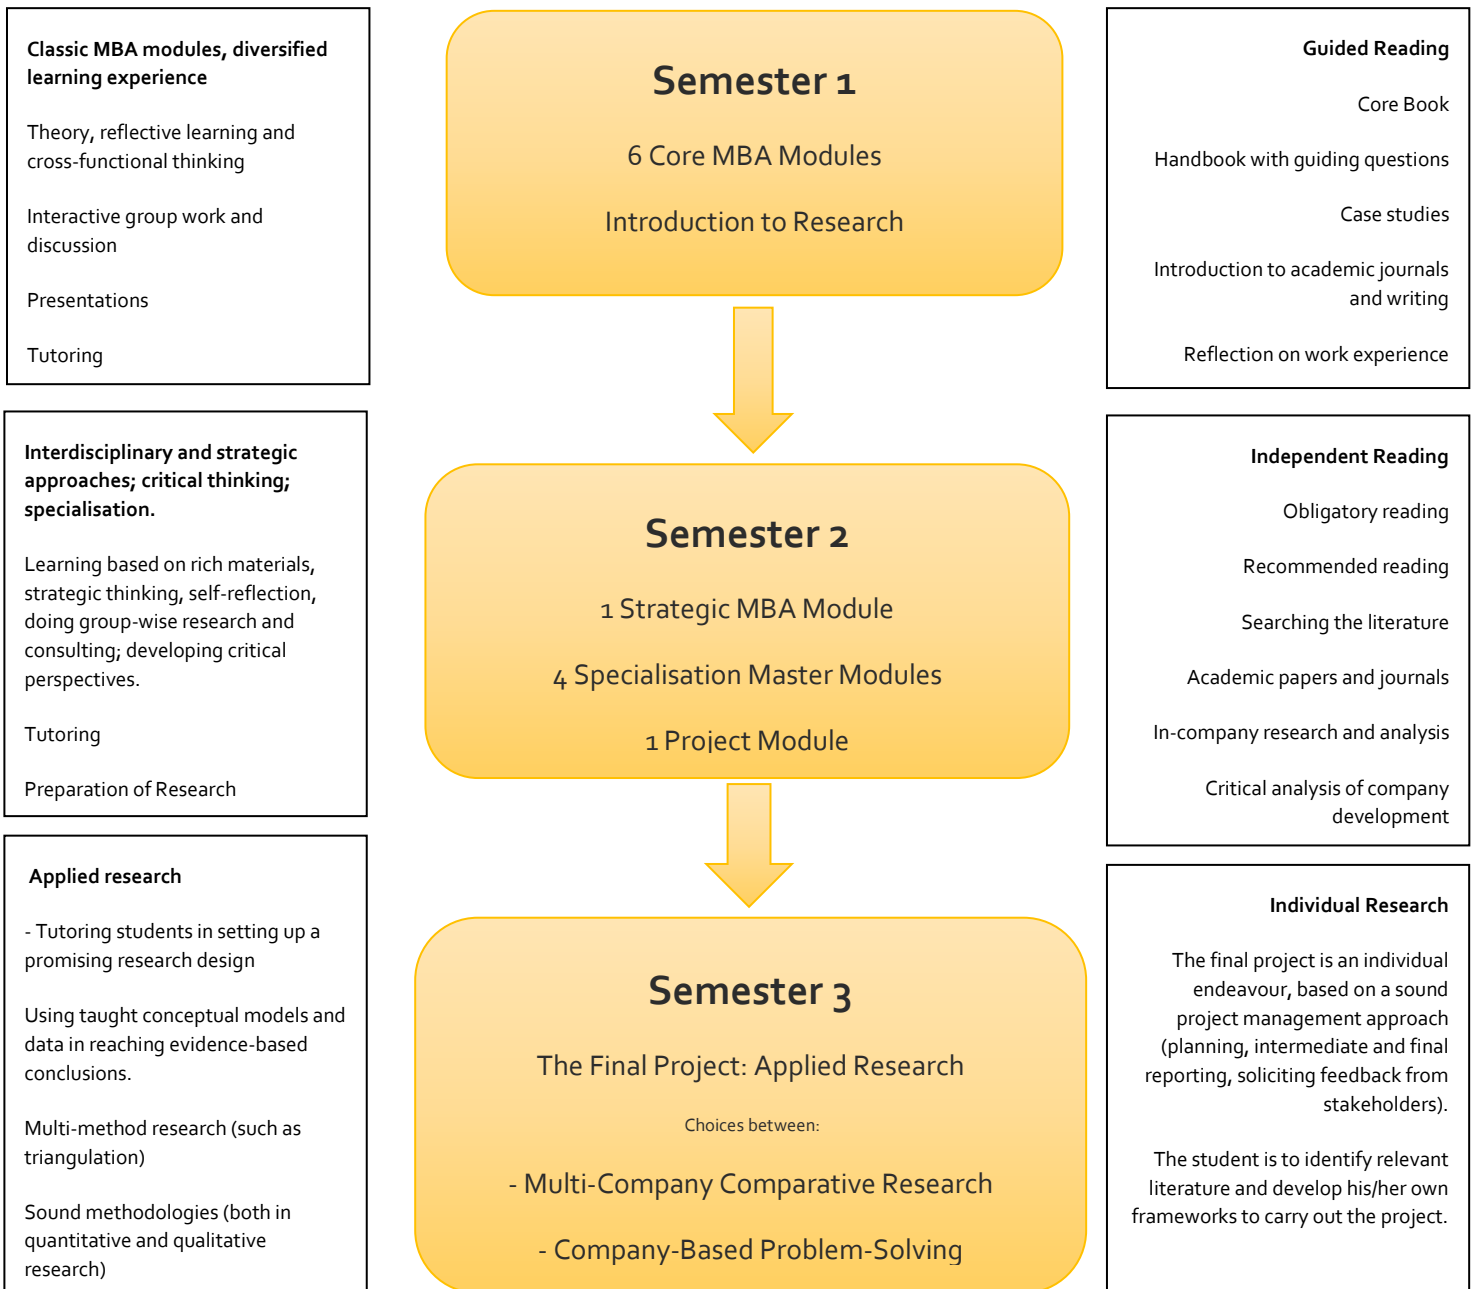

Teachers are required to keep up-to-date lesson plans of each of the lessons / seminars / lectures they give. If required, these lesson plans are archived at the central education administration office for quality control and accreditation purposes only.

DIDACTIC APPROACH & STRUCTURE

The MBA has 2 Semesters, and 516 hours of contact hours in modules comprising of

- 432 lesson hours (12 modules x 6 days x 6 hours)
- 36 contact hours during project weeks (12 x 3 weeks)
- 24 tutoring hours Semesters 1 & 2
- 24 tutoring hours Final Project

STUDENT SUPPORT

Student Support at Wittenborg is described both in the specific programme’s student guide as well as the student charter, in which expectations are explained from both the institute and the student.

In the Education and Examination Guide there is a table mapping who is who at Wittenborg with email addresses are provided for students to use.

There are 2 specific types of student support: Educational and non-Educational and the flowchart below shows how a student issues can be dealt with, and at which level:

Student Support at Wittenborg: where does a student go to?

EDUCATION SUPPORT

As can be seen from the above chart, education support for issues always goes through a student's tutor. Ideally, the tutor will be able to discuss and solve a student's issues without this developing into a complaint. Tutors will not deal directly with non-education issues, although a friendly ear is to be expected. Tutors should ask students to go to the front desk, or their 'Student Rep' with non-education related issues.

MSc students should ideally go through their on-campus Wittenborg tutor first, who will liaise with University of Brighton programme staff, however a student is entitled to approach the University of Brighton Tutor directly who will liaise with the Wittenborg Tutor.

PROCESS TUTOR

Tutors at Wittenborg are part of a team of supervisors who will assist students in understanding their curriculum, their obligations and their rights as a student. They will also be responsible for keeping track of a student's study progress and carry out appraisal talks that result in updated study agreements. All aspects regarding study can be discussed and a student's process tutor must coordinate closely with student administration staff and the registrar, regarding progress.

Each student is assigned a process tutor who will support them throughout their studies.

The bachelor's tutor is generally the same for phases 1 and 2, however may change in phase 3, due to support requirements for work-placement.

The MSc process tutor will generally be the Wittenborg programme coordinator.

The MBA process tutor will generally be the MBA programme coordinator, however for part-time (EMBA) students a different process tutor will be allocated.

Overall, the tutor will play a central role in introducing students to life at an institution such as Wittenborg, from a study perspective, helping students understand the education guides, module guides, student handbooks and timetables.

For MSc students, the student tutor will also liaise with teaching and tutoring staff at the University of Brighton, when required.

The team of tutors will also provide students with general information regarding the facilities at Wittenborg, life in Apeldoorn and Amsterdam, including library facilities, sports facilities, access to organisations and companies, life in the Netherlands, and preparation for 'life after Wittenborg'.

All individual practical issues of administration, including travel, housing, insurance, health matters, etc. should be discussed with relevant student administration staff, with the starting point being the front desk!

STUDENTS WITH DISABILITIES

Students with disabilities will have discussed their individual situation during the admission process, and made agreements on the individual support that can be provided, in line with Dutch law and individual insurance policies. In the Netherlands there is no state insurance for sickness or disability, therefore specialist disability care and support always depends on an individual's insurance package.

Wittenborg will provide a student with clear details of how and when support can be provided and the additional costs to be expected. Wittenborg supports students with dyslexia through individual agreements made with the tutor, for instance regarding time allowed for examinations, or the printing of examinations in a way that eases a student's experience. These arrangements are always made in consultation with the Graduation and Examination Board.

Students with special needs should fill in the form provided by the admissions department, signed by a medical practitioner and handed during admission. This form is what will be handed to the Examination Board with the request.

Disability Support is mentioned in the Student Charter;

Wittenborg is committed to improving provision for students with disabilities.

We aim to offer students:

- clear and accessible information on request regarding the University's policy and service provision for students with disabilities, including charges applicable for specialist services and facilities;
- the opportunity to discuss specific requirements including appropriate presentation of course material, modes of examination and course assessment, prior to admission and throughout the course;
- advice about additional funding and assistance

We expect that students will:

- inform Wittenborg of any specific support requirements arising from a disability prior to admission so that proper consideration may be given;
- inform Wittenborg of any emerging requirements related to a disability;
- inform their course leader within the first six weeks following enrolment of any special requirements for assessments and examinations;
- pay charges for any specialist human support arranged

NON-EDUCATION SUPPORT

Office365 – Student Resources

The most important student support communication tool is the Student Resources page on Office365 SharePoint.

Office365 Sharepoint Link: <https://wittenborg.sharepoint.com/StudentResources>

Here all important documents are published, both in relation to the overall programmes, however also in relation to issues such as student housing and visa and town hall registration. Information on issues such as health and insurance are also initially dealt with here.

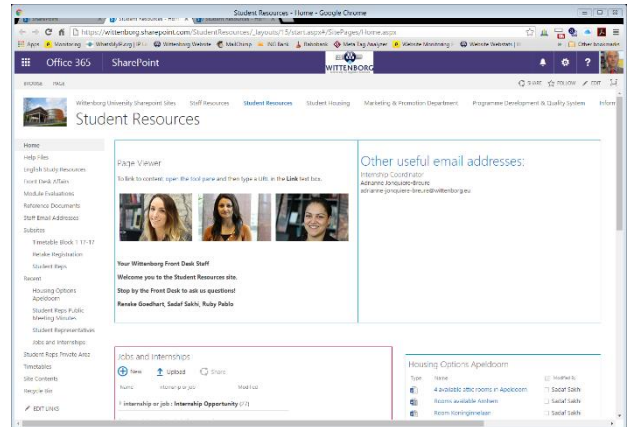

Through the student forums in Office365 and also on the Wittenborg Students Facebook pages, students are kept informed and up to date of developments and asked for feedback.

Facebook Links:

Wittenborg General Facebook Page: <https://www.facebook.com/wittenborg.university.apeldoorn/>

Wittenborg Students and Staff (not public) Facebook Page:
<https://www.facebook.com/groups/526794557413198/>

Student Union SWIFT: <https://www.facebook.com/SWIFTWittenborg/>

FRONT DESK

The Front Desk is managed by the university's reception and administration office and is operated daily during the working week by front-desk staff and internship students. The Front Desk assists students with a whole range of issues, such as the issuing of books, module guides, as well as a range of information issues for example, regarding insurance, banks, medical appointments, city hall registration, employment legalities, etc.

The Front Desk also assists students in the application of visas, stay-permits, employment permits for study related internships, student registration, etc.

Student housing is also coordinated through the Front Desk who liaise between the student and the Student Housing Team, when required.

STUDENT COUNSELLOR

All students have access to a student counsellor, who is responsible to assist students in all matters that are not directly linked with their education programme and progress. There are two student counsellors, one male and one female.

The student counsellor is a confidential one-to-one partner of every student, and will be able to assist students with many issues such as housing problems, attendance problems, and other situations related to the student's wellbeing and welfare.

STUDENT REPRESENTATIVES

Each programme / programme year has at least one student rep, who is part of a group of student representatives who meet with Wittenborg management every 3 weeks to discuss on-going issues and developments related to education, student support and programme development.

The student representatives also reflect on non-education issues such as housing and student welfare. Meetings with the student reps result in actions to be taken, and the results are made available for the student body to consider via a forum (Office365 Group) on the Students Resources pages on Office365.

Link: <https://wittenborg.sharepoint.com/StudentResources/StudentReps>

STUDENT UNION - SWIFT

Wittenborg Student's Union is called **SWIFT** and is run by students for students, and often organizes events in Apeldoorn for Wittenborg students, as well as for students of other schools in the area.

It holds good relations and contact with other international student organisations in the Netherlands, such as the Chinese Students Union and the Vietnamese Students Union, and the International Students Union.

SWIFT is available on Office365, and functions as an organisation that can be mobilised by students to lobby externally, for instance towards local and national government regarding issues such as student housing and study finance.

Student Union SWIFT: <https://www.facebook.com/SWIFTWittenborg/>

EDUCATION SUPPORT - CURRICULUM

At Wittenborg, all students are entitled to follow support modules. These modules provide a student's study in areas in which the student needs extra teaching and learning support. Students can either follow whole modules or just parts of the module for extra support. The modules are offered throughout the year and include:

- IELTS English, Speaking, Reading and Writing (given throughout the year, 36 weeks).
- IT and Office Software Automation (18 weeks) – this module supports students in their developing computer software skills, looking at databases which is useful for statistics, but also excel and word formatting documents.
- Dutch language support lessons (4 hours per week, throughout the year) – this module is aimed at supporting non-Dutch students who might require some basic Dutch to help them in the research or work placement.

PROGRAMME SPECIFIC STUDENT SUPPORT

Teaching

Teaching staff at Wittenborg is a mixture of both experienced teachers (for example in the language school) and lecturers from industry and business (many of the teachers of the business modules and seminars are from the professional field)

Teaching methods vary depending on the type of subject, and the international courses are structured to lead students from a traditional method of learning (theory, learning, exams, lectures) to a modern, business-like way of learning (working in teams, problem solving, working towards a goal, simulations, planning, etc)

Class sizes at Wittenborg remain small, and lecturers can easily be approached. All teachers have email which can be accessed through email by sending an email to givenname.surname@wittenborg.eu (please refer the contact details in the section "Who's where at Wittenborg")

Access your email? : go to <http://office.wittenborg.eu>

ALWAYS USE YOUR WITTENBORG EMAIL!

All teachers and students are required to use their official email with @wittenborg.eu for any official communication.

INTRANET, AN ONLINE COMMUNITY AND E-LEARNING

To stay informed at Wittenborg students and staff will be kept up to date of all news, events and study information through Wittenborg's own information system online. All new news posts will be automatically mailed to all students and staff who have registered their profile on Intranet!

In any modern learning environment on-line information plays an important role. At Wittenborg students and teachers can access course information, modules, web mail, their account information and many other utilities, through the intranet. www.wittenborg-online.com

Login is done by using the Wittenborg user name and password. (See networking, later in this guide for more technical information.) Intranet can be accessed from school and from home, or anywhere in the world! All you have to do is log in!

Wittenborg E-Learning System and Intranet

Wittenborg E-Learning programme is designed for both in-house students and distance learning students. It means that whether students are in Apeldoorn or elsewhere, they can continue their studies, not missing important elements or assignments.

The team at Wittenborg has years of experience in the development of e-learning systems, and relies on adapted open-source solutions for both its internet web-based applications as well as its network environment. This independent IT team works both for the institute as well as for businesses around the world, providing web-based, database and networking solutions for smaller and larger companies and organisations.

Wittenborg's own E-Learning environment:

- is part of a comprehensive online package, which www.wittenborg-online.com includes tele-working/studying, web-mail, online groupware, as well as a fully comprehensive on-line educational learning centre
- is integrated into its intranet, and the entry page provides minute-to-minute news about activities and events in and around the school
- is the Student Administration system, Content Management System (for curriculum) and the grading attendance and timetable system
- allows chat, testing, exams, assignments, news groups, forums, course enrolment, instant marking, progress reports, and much more!
- supports all types of multimedia and document formats to be uploaded

Each course has its own part of intranet and is managed by teachers and a content manager. Teachers can lay out their courses in the formats provided and communicate with students through a whole range of techniques. The course material can be used as an addition to classroom work, as well as a fully functional distance learning module.

Teachers and students can easily keep track of their grades, and can also see this shown in progress charts. The system also has glossaries such as dictionaries and encyclopaedias that are either module bound or system wide, depending on what the teacher making them requires! The system is drawn from a database, therefore easily searchable.

Students are expected to enrol on their courses through intranet, and to keep up to date with changes in the curriculum through this.

Every month new features are added, bugs are resolved and tweaks are implemented. If you are interested to find out more about Wittenborg's intranet, e-learning and networking environment contact us at wittenborgit@wittenborg.eu

Getting started on Intranet!

You can login with your username and password provided by the Administration office. You will then be asked to edit your profile, which happens only one time. After you have logged in for the first time, the Webmaster will add your account to the relevant group, such as teachers, or students. Teachers will be placed in their relevant courses and students will be placed in classes.

365 Office Exchange System

With your student number and password login combination, you can login to the 365 Office Exchange Email and Exchange System.

Timetables in 365 Office Exchange

Course timetables are published online through the 365 Office system. All changes to the timetable will be made through the system and often also published through the student forums on Wittenborg Online.

Assignments online

Intranet is used more and more by Wittenborg teachers to examine students, through interactive tests and exams, web quests, and for students to upload their assignments to.

The intranet enables students and their teachers to keep an accurate record of progress and to communicate with each other about students' studies.

Get a copy of the Wittenborg University of Applied Sciences Network Resources Handbook for guidelines on how to:

- Login to networks
- Use the resources available on Moodle (Intranet / Wittenborg Online)
- Use the Email and Exchange System (Wittenborg Email)

INFORMATION ON LIBRARY & BOOK RELATED ISSUES

PLANNING AND ORDERING

Careful planning of the book orders and the book stock is made. Quantities of books are ordered periodically and warehoused to match the current needs. As the books stock is in direct relation to the number of the new arriving and package paid students, the planning is based on that information provided by the Student Administration.

INVENTORY

Inventory of the book stock is made regularly (normally two times a year or more often if necessary). A stock file is kept, updated and used as basis for the planning of the new orders. Personal student's book form is kept and filed away for references and to keep track of the books given away.

The book titles are also regularly inventoried for new editions or popular titles. Old editions' stock is listed and communicated to the supplier, who arranges the back orders and their replacements. This process is coordinated by the supplier.

REFERENCE BOOKS AND INSPECTION COPIES

Education department keeps a copy of each book listed and used at Wittenborg. Teachers can use these copies for their reference. Inspection copies are normally requested and sent to Wittenborg.

LIBRARY

The library facility of Wittenborg is available on the 1st Floor of the Wittenborg Tower. The Library facilities will be available for students 3 days a week, when the library manager is available. Students have free access to it and they can borrow books and use the space for quiet reading. Please visit the Front Desk for further assistance.

BOOK LOAN SCHEME

In order to ensure the availability and quality condition of required textbooks for all students, Wittenborg University of Applied Sciences stipulates the following conditions for Book Rental:

- Books may be collected and returned at the Front Desk
- Books will be available through Signup Lists each block or by appointment through Front Desk.
- All books from the previous block (except Language/PDP/Support modules) must be returned in order to receive books for the next block
- It is your responsibility to return your copy number of the book you loaned; returns of the wrong copy number will not be accepted
- You may not write in the books with pen, pencil or marker.
- The books must be returned in good condition during exam week.
- If you collect your books after the first week of a block, you are no longer guaranteed a copy.

- Books must be returned no later than 2 weeks after the end of the block in which they were borrowed. Students with unreturned books after the return deadline will be subject to the following late fees and replacement fines:

Late Fees	Replacement Fines – per lost book
1-3 Late books: €50	€50 for books with a market value of new book of €1 to €49.99
4-6 Late books: €100	€100 for books with a market value of new book of €50 to €99.99
7+ Late books: €150	€150 for books with a market value of new book of €100+

- Replacement Fines will be applicable if you hand in a book in poor, written-in or unusable condition.
- If you lose a book, it is your responsibility to report it before the deadline in order to avoid the administrative fine (you are still responsible for the replacement fine)
- If you need to keep a book for your graduation project, it is your responsibility to report this to the Front Desk before the return deadline; failure to do so will result in fines.
- All books from a previous programme (e.g. English Preparation) must be returned before beginning a new programme.
- All books must be returned prior to graduation/de-registration. Unreturned books will result in deductions from your deposit.
- It is your responsibility to ensure that you have returned all books before the new block starts.

PLANNING / TIMETABLE – BACHELOR'S

Standard bachelor's module activities (seminars and lectures) have a duration of approximately 2 hours and 45 minutes.

Lectures and seminars are often scheduled with the following starting points:

- 8.30 a.m. for the morning session
- 11.20 a.m. for the midday session
- 14.20 a.m. for the afternoon session

Coffee / tea breaks, and lunch/dinner breaks can be scheduled at the discretion of the teacher based on the planning of their lesson / lecture / workshop content.

Note: Evening classes, although unusual are possible.

PLANNING / TIMETABLE – MASTER'S

Full-time students attend lectures and workshops on three days per week:

- MSc / MA – from October to May
- MBA – following the 6 block system

The modules are delivered intensively over consecutive days in the so-called 'block format', which means that each module has 6 days of teaching split into two blocks of 3 days.

Sessions generally start at the following times, *however*, as many lecturers are flying in from abroad, times may vary due to availability and travel times.

- MSc classes - start 10.20 / finish 17.00
- MBA classes – start 11.20 / finish 17.00

Therefore students are kindly requested to check their online timetables at all times.

<https://timetable.wittenborg.eu>

Coffee / tea breaks, and lunch/dinner breaks can be scheduled at the discretion of the teacher based on the planning of their lesson / lecture / workshop content.

Note: Evening classes and classes on Saturday Sunday, although unusual, are possible.

CAMPUS BUILDING OPENING TIMES

APELDOORN CAMPUS

The Aventus Building opening times

Open 07:00 (AM) - 22.00 (PM) Monday, Tuesday and Thursday

Open 07:00 (AM) - 18.00 (PM) Wednesday and Friday

The Spoorstraat Building opening times

Open 08:00 (AM) - 17.30* (PM) Monday - Friday

Amsterdam Campus (UP Building) opening times

Open 08:00 (AM) - 22.00** (PM) Monday - Friday

Vienna EWS Campus opening times:

Open 09:00 (AM) - 17.00 (PM) Monday - Friday

*Or until the last lesson has finished.

** Technically the building is open 24/7

NB: In Apeldoorn, during holidays the Aventus & Spoorstraat buildings may have different opening times. In Vienna, building opening times are also effected by (national) holidays. The Amsterdam location is generally always accessible, except on enforced public holidays such as Christmas.

Students and staff are requested to pay attention to announcements and messages on screens and in WUAS Office365 email groups and forums regarding changes in opening times of the campuses / buildings.

OFFICE OPENING TIMES

WUAS administration departments (front desk and student administration) are generally available at the following times and days:

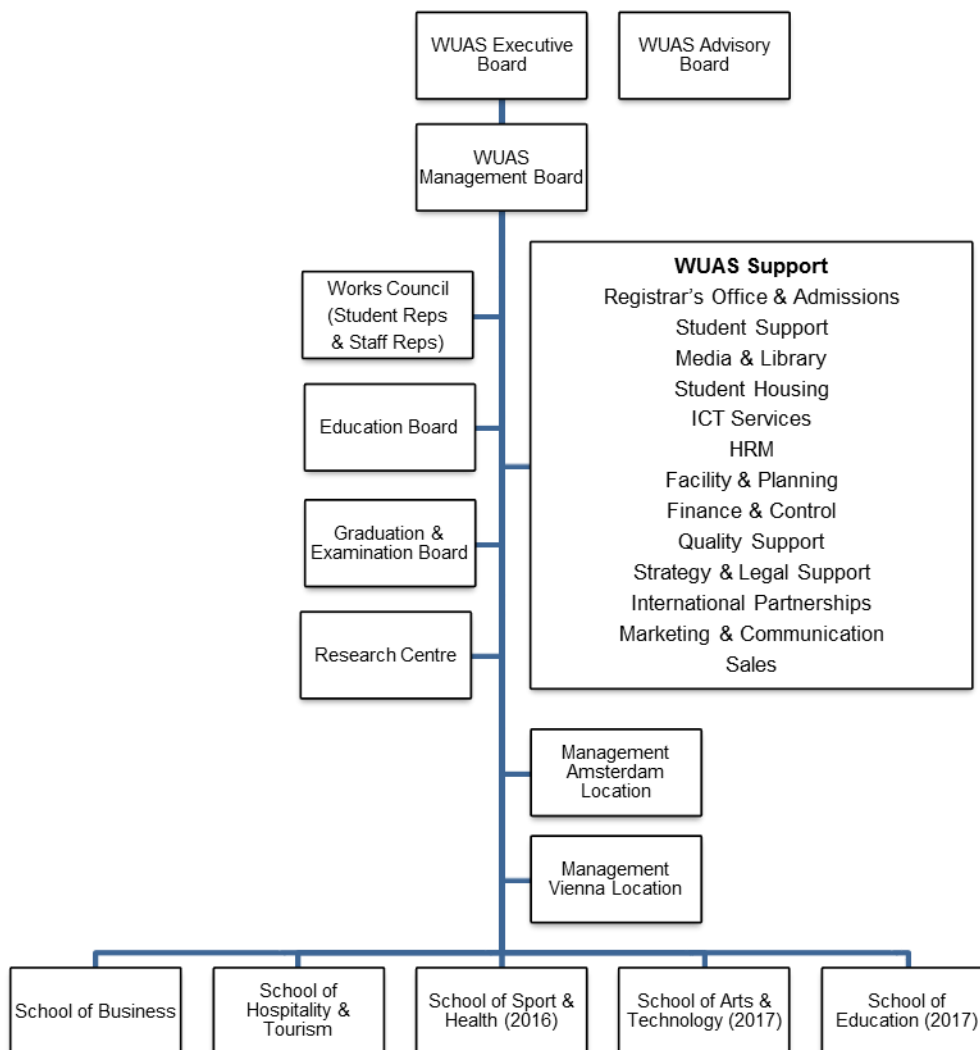

Open 08:00 (AM) Monday – Friday, closed on public holidays

Closed 17:00 (PM) Monday – Friday, closed on public holidays

CONTACT: WHO IS WHERE AT WITTENBORG

For an overview of the departments and organisation at Wittenborg, see chart: overleaf.

HOW TO CONTACT THE EDUCATION DEPARTMENT:

- Education department office open daily for short questions; please make an appointment for other issues
- Education Administrator available daily
- Work placement coordinator available 3 days a week
- Class tutor: weekly classes
- Lecturers working room open to students daily
- All Lecturers available through email

HOW TO CONTACT THE ADMINISTRATION AND SUPPORT OFFICES

- Front desk open daily
- Administration Office open daily for short questions; please make an appointment for other issues
- Email to individual support staff

TASKS AND RESPONSIBILITIES OF THE ADMINISTRATION OFFICE

The Administration Office takes care of our international students' welfare. For new students this means registering with all the necessary offices, such as the city hall, the Immigration Office, and the health administration.

During the course of a student's study period at Wittenborg, the Administration Office will maintain student records and all the administration related.

MAIN RESPONSIBILITIES OF THE STUDENT ADMINISTRATION OFFICE:

- Take care of (international) students' welfare
- Keep students informed of up-dated information on policies and regulations through intranet
- Maintain documentation of each (international) student
- Advise students of their legal rights, legal status

More information can always be found on the Wittenborg Web site: <http://www.wittenborg.eu> as well as on Intranet: www.wittenborg-online.com Always feel free to contact the Support Offices or front desk staff for help or further information.

NB: All issues and questions regarding non-academic issues should be made to the Administration Office

MANAGEMENT TEAM

The Wittenborg University of Applied Sciences management team is led by its Executive Board Members Peter Birdsall and Maggie Feng. (Stichting Wittenborg University Executive)

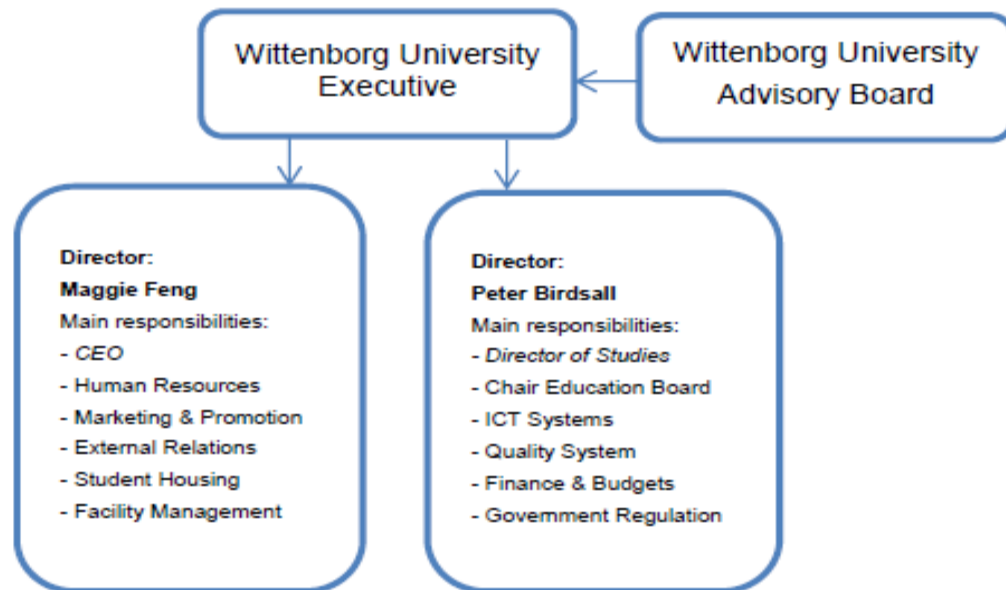

Wittenborg's organisation is a top down, flat-level structure that allows staff and students to interact with each other and directly with management, however enables the Education Board and the Graduation and Examination Board to operate within their functions ensuring that the quality systems in place are maintained.

The Wittenborg University of Applied Sciences Advisory Board is a trust consisting of 4 members that advises management and oversees the performance and ambitions of the University from a strategic and overall business and management viewpoint. External advisory systems are described below.

THE STICHTING WITTENBORG UNIVERSITY EXECUTIVE

The Stichting Wittenborg University Executive (the Executive) is the trust that forms the management of Wittenborg University of Applied Sciences. Its members are Peter Birdsall, MA.E.d and Maggie Feng, MSc who are also the directors of the institute. The Executive reports to the Advisory Board (below).

Below is an overview of how the responsibilities at Board level are divided in the Stichting Wittenborg Executive.

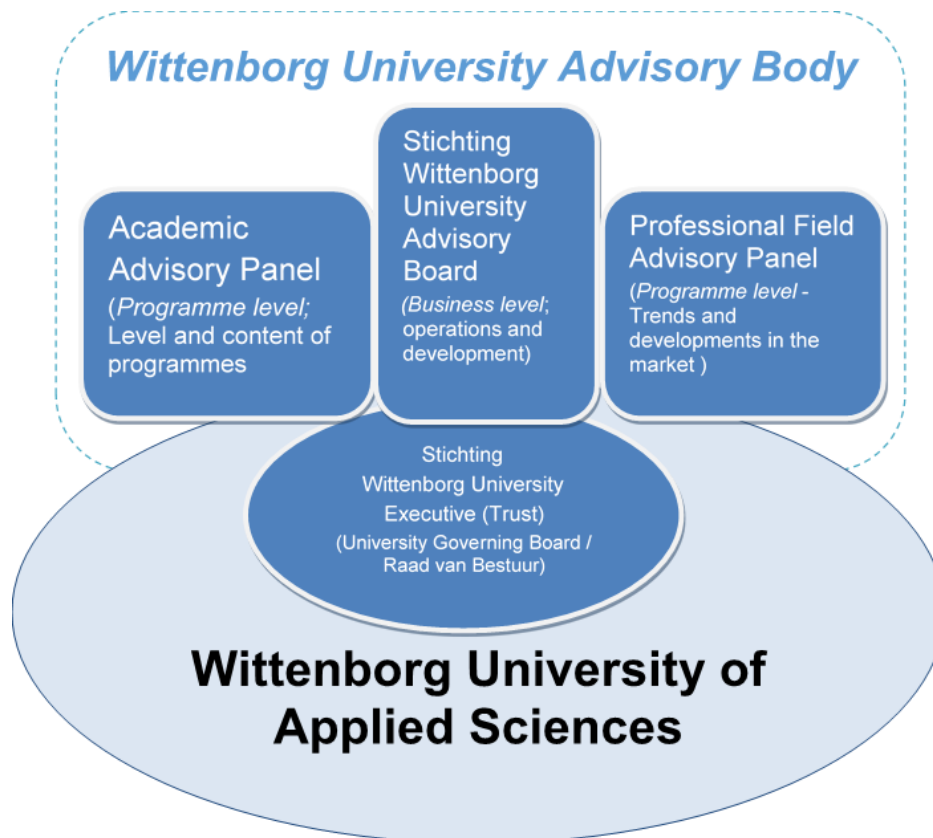

THE STICHTING WITTENBORG UNIVERSITY ADVISORY BOARD

The Advisory Board, is in effect the body that formally oversees the governance of Wittenborg University of Applied Sciences, and advises on the programmes it develops and offers. The Advisory Board has a separate legal status from the Executive and is an independent Trust that oversees the development and continuity of the institution. It currently has 4 members, who represent local business, employers, and government. The Advisory Board plays an important role in advising the institute on the development of new programmes, including this MBA, also introducing external parties in an advisory role when required. In cases of a change in top management at Wittenborg, the Executive can actually be appointed by the Stichting Wittenborg University Advisory Board.

Members of the Advisory Board

- Mr Ruud Dost, Red Stone Management (Chair)
- Mr Bernd R.C. de Roo, Partner at CIFRE Accountants & Tax Lawyers
- Mr Jack Pieterse, Managing Director LLC Benelux at Smurfit Kappa Zedek, also representative of VNO-NCW, regional Employer’s Association
- Mr Harry Stoffels, formally of the Municipality of Apeldoorn (Gemeente)

WITTENBORG UNIVERSITY OF APPLIED SCIENCES ADVISORY BODIES

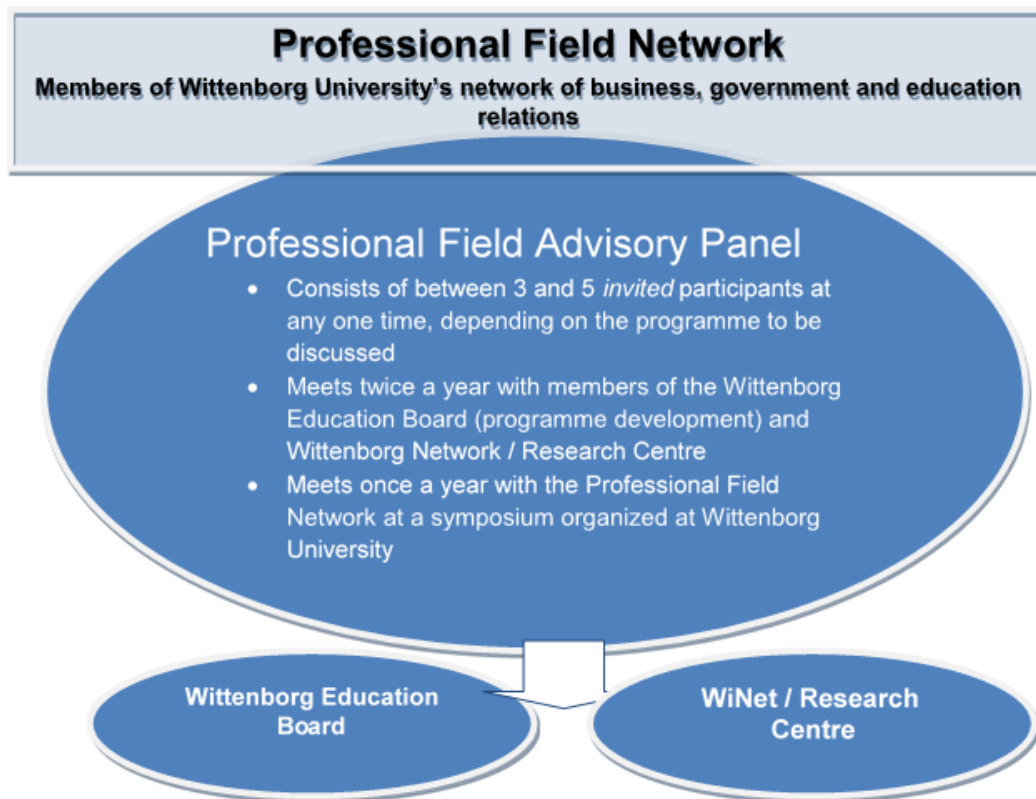

THE PROFESSIONAL FIELD ADVISORY PANEL

The Professional Field Advisory Panel should be able to:

- advise on trends and developments in the business world and markets;
- keep Wittenborg up to date with the training and education requirements of employers;
- comments on Wittenborg programme developments;
- helps raise Wittenborg's profile in the local, national and international business community;
- advise on training and development opportunities within the professional field;
- discuss related subsidy and funding opportunities;
- discuss possible research and consultancy activities;

The Professional Field Advisory Panel is structured in a way that does not lose the flexibility and dynamics of the methods Wittenborg has always used in the past, i.e Wittenborg wishes to retain its large network of "advisors" ranging from guest lecturers to work placement supervisors, to relations in government and semi government organisations and large corporations. It has therefore structured the Panel in the following way

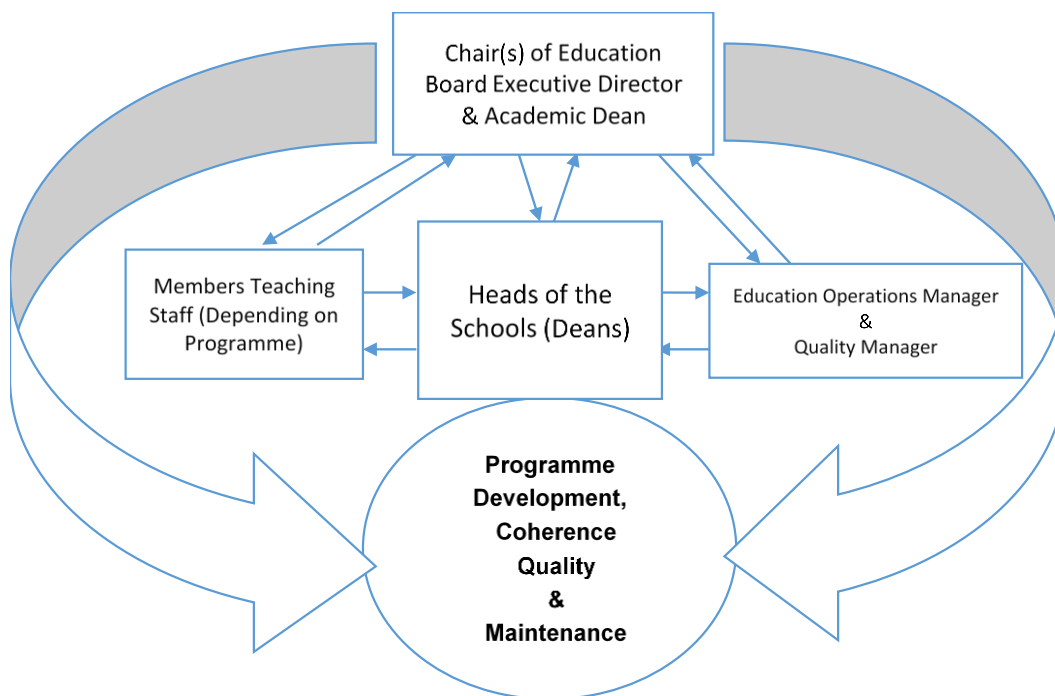

WITTENBORG EDUCATION BOARD

WUAS' programmes are developed and monitored by the Education Board, on the one hand to be compared to a research and development department of an organisation, and on the other hand to a programme management team within a higher education institute.

The Board is comprised of key WUAS staff, concerned with the development and deployment of the programmes, including the Executive Director of Education, the Academic Dean, the two Programme Coordinators (postgraduate and undergraduate), the Education Operations Manager & Quality System Manager, and various members of the teaching staff, depending on the programmes being discussed/developed. The aims of the Education Board are:

1. To develop and have accredited new Bachelor and Master degree programmes.
2. To maintain and re-develop all current Bachelor and Master degree programmes.
3. To review feedback from students, teachers, (work placement) companies, business networks and WUAS' alumni and take action on results.

The chart below shows the structure of the Education Board:

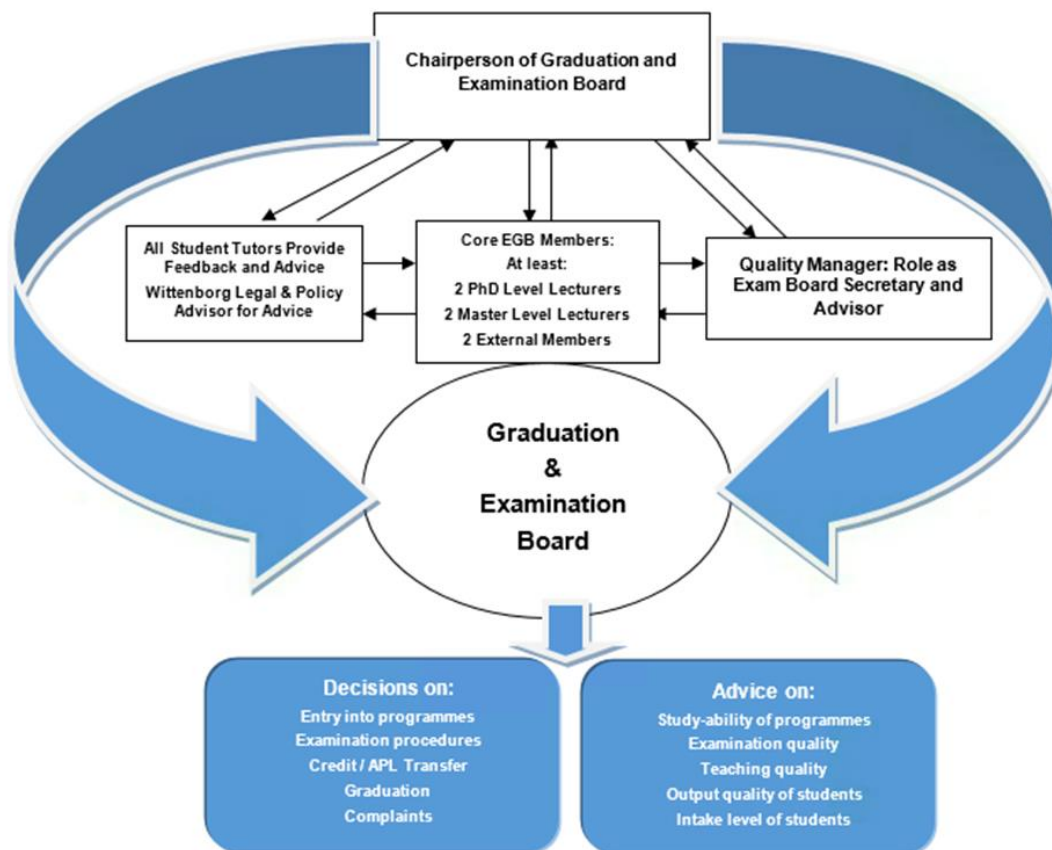

The Education Board is responsible for aligning its programmes with the professional field and requirements of the market, and interacts with the 'outside world' through its contact with the advisory bodies and the professional field.

The Education Board is also responsible for the maintenance and implementation of the national and international quality control and accreditation cycle, and for ensuring that Wittenborg programmes receive the necessary accreditation from organisations such as the Netherlands Accreditation Organisation (www.nvao.nl), and the Netherlands Association for the Promotion of International Education (www.nuffic.nl) together with other European and worldwide accreditation organisations.

WITTENBORG GRADUATION AND EXAMINATION BOARD

As a compact institute, Wittenborg has one central Graduation and Examination Board (Exam Board), which ensures and oversees the allocation of EC Credits to students for passed modules, as well as administering the marking of the final graduation assignment. Students who wish to apply for recognition of previous study, and credit transfer should do so through the Exam Board, using a form called "Transfer of Study Credits" which can be downloaded from Student Resources on Intranet or picked up from the Front Desk. Students entering from abroad should have been provided this form with their application details. The Graduation and Examination Board can be contacted by making an appointment through the Examination pages of Intranet.

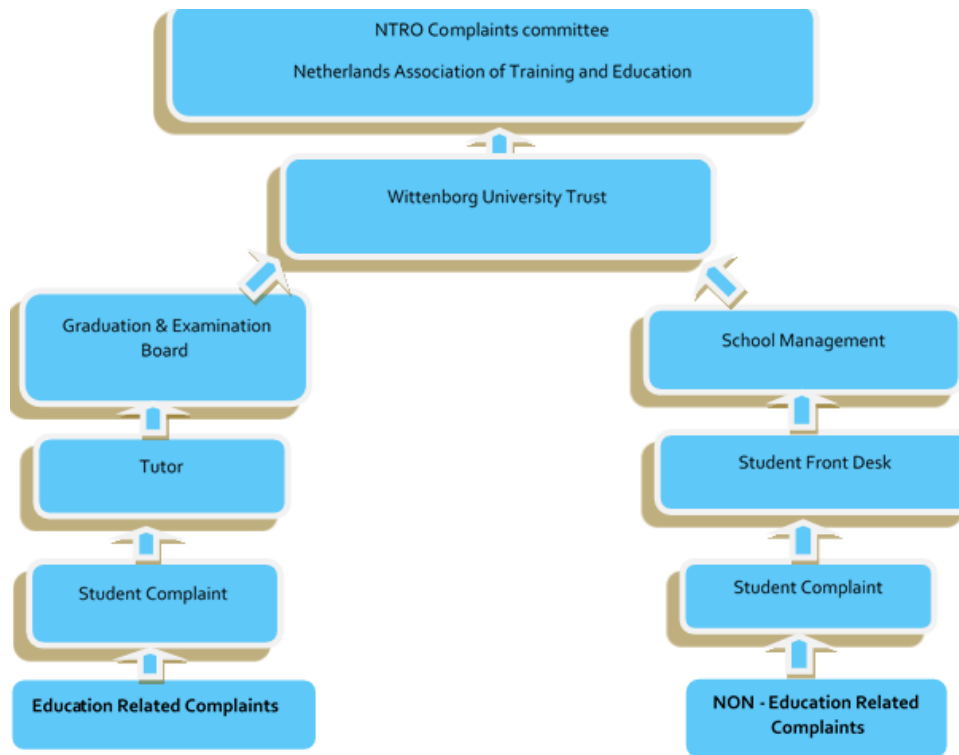

GRADUATION & EXAMINATION BOARD RESPONSIBILITIES

- To monitor the quality of examinations in respect of whether they meet the programme objectives, required competences as outlined in the relevant module guide and the educational standards and philosophy of Wittenborg, as described in the EEG;
- To ensure examinations and evaluation leading to EC Credits (study credits) are carried out in accordance with the Education and Examination Guide (EEG);
- To evaluate attendance and participation in relation to assessment, plus rules and regulation as proscribed by the relevant authorizes in the Netherlands;
- Ensure that in all examinations, assessments, work placements and projects the papers and instructions have a level of English that is clear, jargon free and understandable;
- To oversee the testing and assessment processes and the quality of testing and assessment in line with the aims and objectives (Final Qualifications) of the programmes;
- Confirm the grades and evaluation of all examinations, projects, work placement, assessments and the final year graduation dissertation and for all years and subjects in Wittenborg programmes;
- Adjudicate on infringement or irregularities in relation to the Education and Examination Guide; decide the appropriate changes and or sanctions and rule on appeals from students in respect of their examinations, assessments and work placement grades or any other aspects of the examination procedure, in line with the complaints procedure;
- Confirm that all graduation students have met the entire necessary requirement enabling the given student to receive their degree;
- To confirm decisions in respect of advanced placement, request for placement, credit transfers and internal promotion of and from students; furthermore, assessing and adjudication on the authenticity of educational certificates, degrees and diplomas;
- To evaluate the examination process in respect of the principles of quality assurance ensuring continuous improvement and innovation in respect of all the various forms of assessment;

The Wittenborg Executive publishes a Graduation & Examination Board Regulations for its programmes¹, (Part 6 of the Education and Examination Guide). The Exam Board, as a key institutional body, ensures correct application of these, under Dutch Law and under agreements as part of external validations and accreditations, such as with the University of Brighton. Currently, the Exam Board comprises of Wittenborg teachers, tutors and staff members, who are either fully employed or external consultants who teach Wittenborg modules, as well as 2 external members who work at other Dutch HEI's. The Exam Board's role in complaints procedure: It is intended that the board meet at least once every education block (6 times a year). More frequent meetings can be held on request, and in the dealing of complaints. Wittenborg's complaints procedure is described in the following diagram.

¹ Note: The joint MSc programmes fall under the University of Brighton's GEAR – Graduation, Education & Assessment Regulations of the University of Brighton.

COMPLAINTS (AND ENQUIRIES) PROCEDURE

The informal and formal procedures below are for asking questions about:

- Finance
- Payment/refunds
- Residence Card
- Work
- Registration of Leaving
- Complaint

NB: Education and Examination issues (use formal complaints procedure directly)

Informal Complaints and Enquiries Procedure (Non Education Issues)

1. Students should present complaints to the Front Desk or email them to info@wittenborg.eu and also office2@wittenborg.eu .
2. Students will receive an answer regarding their complaint within 3 working days during normal lesson weeks.
3. If this answer is not satisfactory: student should make an appointment at Front Desk. See the Formal Complaints Procedure.

FORMAL COMPLAINTS PROCEDURE

1. The student should register the complaint at the Front Desk, by completing a complaints form and handing it in. The Front Desk provides a copy of the complaint to the applicable department manager.
2. The student will receive an answer from the relevant manager within a week. The manager shall inform Front Desk about the decision.
3. If the student is not in agreement with the decision, the matter can be taken to the Board of Management.
4. Student will receive an official reply/answer from the Board of Management within a week.
5. In all cases the Front Desk will be informed about the decision.

BOARD OF APPEAL FOR GRADUATION AND EXAMINATIONS

Complaints and appeals regarding disputes in examination results should always first be submitted in writing to the Chairperson of the Graduation and Examination Board. The Board will reply within 1 week. If the result given by the Graduation and Examination Board remains unsatisfactory for the student, a student can submit an appeal to the Board of Management, in writing. Within 1 week the Board of Management will inform the student of the time and place of the appeal hearing.

The Board of Appeal consists of

- 1 Member of the Board of Management
- Chairperson of the Graduation and Examination Board
- 1 Member of the Student Union (appointed by the Chairperson of the Student Union)
- 1 independent representative of the professional field, who will act as Chairperson of the Board of Appeal

The student concerned will be requested to present their case to the Board of Appeal. The Board of Appeal will provide its definitive decision with 1 week of the appeal sitting.

THE WITTENBORG TRUST

In cases where students are not satisfied with the decision of the Board of Appeal, a complaint can be submitted to the Wittenborg Trust. The Trust will assess the case and make a final decision on the basis of a review of the documentation and the procedures taken within the above described process.

NRTO

In cases where students are not satisfied with the decision of the Wittenborg Trust, a complaint can be submitted to the Commission for Disputes (Geschillencommissie Particuliere Onderwijsinstellingen) of the NRTO, of which Wittenborg is a member. Contact: tel. 030 – 267 37 78, and website www.nrto.nl

ACCREDITATION OF HIGHER EDUCATION IN THE NETHERLANDS

HIGHER EDUCATION SYSTEM IN THE NETHERLANDS: WITTENBORG'S STATUS IN HISTORY

Wittenborg was established on the 21st September 1987, in Deventer, The Netherlands.

In the Netherlands there is a two tier system of traditional "old" Universities and polytechnic's (HBO) known in English as Universities of Professional Education, much comparable to the UK system before changes that led to "University status" for all institutions. From 2002 a new system has been introduced which will path the way to a harmonizing of this two tier structure. Also, there is a division between Higher education institutions, in the way that they are funded by the government, and both "old" and "new" Universities have state funded and state independent institutions.

Wittenborg is an Independent State University of Applied Sciences (aangewezen). This means that although its students receive government funds, the institution does not. Universities such as Wittenborg are required by law to follow the stringent accreditation procedures as described below. Until 2008, Hogescholen were known officially as Universities of Professional Education. In July 2008 this was changed to Universities of Applied Sciences. Below, there is a copy of Wittenborg's certification as an independent State University of Professional Education (Aangewezen Hogeschool), from the CFI, the administrative department of the Ministry of Education. Wittenborg's degrees are recognised in every country that recognises the Dutch Ministry of Education's accreditation and degree structure.

BACHELOR – MASTER (EUROPEAN AGREEMENTS)

In September 2002 a bachelor-master's structure was introduced in higher education. At the same time a system of accreditation was introduced to guarantee the quality of the bachelor and master programmes. A programme will be accredited either as academic or higher professional. Bachelor- and master programmes will have to be accredited separately.

The universities have converted most of their traditional "one-cycle" programmes to bachelor and master programmes. For the time being, "one-cycle" programmes may continue. Studies in medicine and dentistry have not yet made changes.

The traditional programmes at the universities of professional education (UPE's) are converted into bachelor programmes. UPE's can present their master programmes for accreditation as from the summer 2003. Herewith these master programmes (mainly business programmes) will be recognized by law. Furthermore, new master programmes will be offered in especially the field of education, architecture, health and fine arts.

The main characteristics of the Dutch bachelor-master system are as follows

- Bachelor degrees require 180 (“EC”) credits in academic research degree education and 240 credits in higher applied sciences degree education. The status of the degree is set at the time of accreditation.
- The primary aim of the applied sciences bachelor’s degree is to move on to the labour market. The academic bachelors’ primary aim is to follow a master programme. However, an academic bachelor can also opt for entering the labour market, and applied sciences bachelor graduates can opt to study Master programmes.
- Master’s degrees in academic education require 120 credits in engineering, in agricultural disciplines, in life sciences, in natural sciences and in dentistry; 180 credits in medicine; a minimum of 60 credits in other subjects. Master’s degrees in higher professional education require a minimum of 60 credits.
- Access to academic master’s programmes is based on entrance requirements determined by the institutions. In general students are admitted to master’s programmes on the basis of their having completed a relevant bachelor’s programme. In fact, the law specifies that every academic bachelor programme should give entrance to at least one academic master’s programme. In those cases, where the master’s programme doesn’t correspond to the bachelor’s programme, admission may be selective.
- Graduates have the option to choose between the bachelor/master degree and the old Dutch titles. The master’s degree titles are MSc, MA, MBA and the bachelor’s titles range from BA, BSc to BBA and other variants. The old Dutch titles (doctorandus, meester of ingenieur for academic programmes and ingenieur, baccalaureus for programmes in higher professional education) thus continue to exist.
- Access to doctoral programmes is determined by the institutions; in general a master’s degree is required for admission to doctoral programmes.
- Student aid and funding mechanisms for institutions are adapted to the bachelor’s-master’s structure.

NVAO ACCREDITATION

In 2002 the Netherlands Flemish Accreditation Organisation (NVAO) was established by law, to guarantee the quality of the bachelor and the master programmes. Dutch accreditation is based on peer review of programmes. Flanders participates as an observer in the Board and a treaty will be

developed to formally ensure that the accreditation organisation works for both the Netherlands and the Flemish community of Belgium.

Internationalization of quality assurance is furthered by several actions. First a Bachelor and a Master must satisfy international standards. The general descriptors, as developed by the joined quality initiative, are used as the example. Second, peer review implies the participation international peers. Finally, the peer review does not have to be organised by a Dutch organisation, but may also be organised by a foreign quality assessment/accreditation organisation.

A translated copy of Wittenborg’s Certificate of Recognition from the Netherlands Ministry of Education and a copy of an English language confirmation of Wittenborg’s status as a State Recognised Independent University of Applied Sciences can be downloaded from the Wittenborg web site www.wittenborg.eu

Wittenborg’s IBA bachelor programmes and its MBA programmes are accredited by the NVAO (www.nvaio.net)

Translated copies of the accreditation status of programmes can be downloaded from the site of the NVAO or Wittenborg’s website.

VALIDATION BY THE UNIVERSITY OF BRIGHTON

University of Brighton

Wittenborg offers a number of programmes validated by the University of Brighton and jointly taught as double degree programmes. The UK validation allows students to receive a UK degree award alongside the Dutch degree. Below is an overview of the programmes currently offered jointly with the University of Brighton:

- Double degree: BA (Hons) in International Hospitality Management / IBA Hospitality Management
- Double degree: BSc in Business / IBA Entrepreneurship & Small Business, accredited by FIBAA as Entrepreneurial Business Administration.
- Master of Science in International Event Management
- Master of Science in International Hospitality Management
- Master of Science in International Tourism Management
- Master of Science in Sport Business & Management

FIBAA ACCREDITATION

Wittenborg University of Applied Sciences' bachelors of International Business Administration programmes are accredited by the Swiss-German Accreditation Agency, Foundation International Business Administration Accreditation (FIBAA). The MBA programmes are also accredited by FIBAA.

Since the launch of the Bologna Process, along with the transition to Bachelor's and Master's programmes and the growing independence available to Higher Education Institutions (HEIs) in designing their degree programmes, the call for the HEIs to establish and advance sound and transparent quality assurance systems has grown continuously.

THE QUALITY SEAL
IN HIGHER EDUCATION

When the Accreditation System was established in Germany, FIBAA was founded in 1994 and hence became one of the first agencies to be accredited by the German Accreditation Council. Since 2002, it has been entitled to award the Seal of the Accreditation Council for degree programmes in Germany. The accreditation of degree programmes is an internationally-established quality assurance process in the higher education sector. It serves to maintain fundamental standards in terms of the contextual and structural design of educational offerings, to secure the comparability of various study offerings at national and international level, and to facilitate the international recognition of academic achievements and degrees.

FIBAA is recognised as a quality assurance agency not only in Germany, but also in Austria, the Netherlands and Switzerland.

Germany – Accreditation by the German Accreditation Council

FIBAA has been authorised by the German Accreditation Council to perform Programme and System Accreditations in Germany and to award its Seal to state and state-recognised private universities. (For further

information: www.akkreditierungsrat.de)

Switzerland – Recognition by the Federal Department of Economics Affairs FDEA

Schweizerische Eidgenossenschaft
Confédération suisse
Confederazione Svizzera
Confederaziun svizra

Eidgenössisches Volkswirtschaftsdepartement EVD
Bundesamt für Berufsbildung und Technologie BBT
Fachhochschulen

In 2008, the FDEA recognised FIBAA at national level and confirmed that the federal, legislative requirements and European standards have been met for Accreditation Agencies. This means that FIBAA is entitled, on its behalf, to verify accreditation requests submitted by Swiss Universities of Applied Sciences. (For further information www.evd.admin.ch)

Netherlands – Recognition by the Nederlands Vlaamse Accreditatie Organisatie (NVAO)

FIBAA staff members, including the Head of Programme Accreditation / Certification Procedures, and FIBAA project managers are recognised panel secretaries of NVAO accreditation procedures. FIBAA has been now entitled

to perform external programme evaluations at Dutch higher education institutions. NVAO recognise

the evaluation report produced by FIBAA as a basis for its accreditation decisions. (For further information: www.nvao.net)

EUROPE-WIDE – FULL MEMBERSHIP IN EUROPEAN ASSOCIATION FOR QUALITY ASSURANCE IN HIGHER EDUCATION (ENQA)

ENQA is a European network responsible for disseminating knowledge, information, good practices and innovations in the field of quality assurance in higher education. ENQA is the European umbrella organisation of the quality assurance and accreditation agencies, and is an official consultant to the Bologna

Conference of the ministers responsible for higher education. FIBAA has been a full member since 2002. (For further Information: www.enqa.eu)

Europe-Wide-Listed in the European Quality Assurance Register for Higher Education (EQAR)

EQAR, established in summer 2008, is the central registry of accreditation agencies in Europe. These stand out through their resolute implementation of "European Standards and Guidelines" (ESG) in quality assurance and have successfully passed

an external evaluation process. FIBAA has been listed as an accreditation agency in this registry since April 2009. (For further information: www.eqar.eu)

MASTER OF BUSINESS ADMINISTRATION ASSESSMENT METHODS

The assessment methods used in the MBA modules are geared towards showing that students have achieved the aims and objectives of the modules. The assessment methods are described in the module guides and the projects, reports, essays and papers of each module lead to an overall and comprehensive portfolio of work that demonstrates a student's understanding of the various elements of the modules and the interlinking of these. *There is a clear development in assessment types from the more functional-based reflective learning dominant in Semester 1 towards the more integrative approaches of the modules in Semester 2.'*

In the modules of **Semester 1**, a student's understanding of corporate realities based on own learning and work experience plays an important role in his study and in his assessment, through reflection. An example from the module Human Resource Management:

"Introduction to the Module Handbook / Module Guide of Human Resource Management"

The Module Handbook Human Resource Management is to be used by students as a guide to the study of this MBA module and consists of three parts:

- *The Broad Perspective*
- *Instruments, Tools & Methods*
- *Inter-module Integration*

The section "Broad Perspective" aims at presenting a broad perspective on the subject.

The section "Instruments, Tools & Methods" aims at presenting various methods, tools or approaches which you are expected to be informed of as part of the module (being one of the specialized areas of business administration and management).

The part "Inter-module Integration" aims at furthering a wider understanding of the subject matter by discussing certain issues in coherence with other issues rather than considering them in isolation.

Each part distinguishes a number of module-based activities:

- *Reflective Learning Questions*
- *Class Group Activities*

Reflecting Learning Questions

For each part, special Reflective Learning Questions have been formulated. You yourself have to answer these questions. Some of these questions could be used during the class discussions. This exercise will support you in successfully writing your module assignment.

Class group Activities

Class Group Activities give a central place to the exchange of thoughts between you and the other students. The common goal is to acquire new insights into the areas that the module addresses, to better understand certain problems which you identified during your initial reading and study activities and to develop new ideas as to how you can solve complex issues in future and current organizational settings. .

ASSESSMENT OF MODULES IN SEMESTER 1

The assessment for all 6 modules in semester 1 will be done through the completion of a sat examination (a closed-book written exam) which is primarily based on the handbook. That is, the student can be confident that if he/she studies the handbook (answers the questions) carefully, a sufficient mark can be obtained. The exam questions can be:

- questions that are literally in the handbook (primary objective: testing knowledge)
- questions that are derived from questions in the handbook (but are not identical to questions in the handbook) (primary objective: testing understanding)
- brief company-based cases with questions to be answered by the student (primary objective: testing an ability to apply learnt concepts correctly)

ASSESSMENT OF MODULES IN SEMESTER 2

The assessment for modules in Semester 2 will consist of an assignment in 2 parts, both should be uploaded through Wittenborg Online using Turnitin. Part 1 will generally be a group assignment and part 2 will be an individual paper. There will be no closed book written examination for semester 2 modules. Each assignment will count for 50% of the final mark."

In Semester 2, Assessment clearly reflects the modules' integrative nature combined with academic rigour, as can be seen from this example from the module "Critical Perspectives in Hospitality Management".

The assessment for this module will be in two parts:

Assessment 1: *Individual paper discussing a social issue relating to hospitality (2500 words) – This assignment has 50% weighting and covers learning outcomes 1 and 2 of the module.*

Select a topic that either relates to a relevant hospitality encounter or a particular social issue that impacts on the hospitality industry, research and critically appraise appropriate literature and write a 2500 word paper on the selected topic.

Assessment criteria:

You will be assessed on:

- *Presenting a clear and concise overview of a range of literature addressing the topic.*
- *Quality and application of research*
- *Critical analysis the literature reviewed*
- *Coherency of summary of the key aspects of your analysis.*
- *Demonstrating an ability to engage in full professional and academic communication in written work*

NB: All elements of the assessment criteria are equally weighted

Individual paper - Guidelines

When preparing the discussion the following are suggested as areas for consideration:

- *Brief overview of the selected topic and how it relates to past/ current thinking how influential was it/ is it?*
- *What are the main arguments, theories and how significant are these*
- *Any debates/ divergent opinions expressed*
- *Critical analysis based upon your reading of relevant authors. For example, if you wish to agree/ disagree with aspects of the literature, you need to consider how you will support/ justify your views.*
- *Any other points you feel are relevant.*

Assessment 2: – *This assignment is an individual report, it has 50% weighting and covers objectives 3 and 4 of the module*

Write a 2500 word report on the impact of the business environment on a hospitality business of your choice.

Select a business with which you are familiar or that you would like to research. Then by applying the 'systems thinking' approach that has been developed during this module identify and critically evaluate the influence of the various business 'environments' that impact upon your business and discuss the types of responses the business might make.

Assessment criteria

- *selection of a suitable business operation*
- *depth of knowledge and understanding of relevant business 'environments'*
- *application of critical analysis and synthesis of impacts of these environments*
- *innovative and creative approach to analysis and evaluation of material*
- *viability of practical recommendations for responses made by the operation*
- *demonstrate an ability to engage in full professional and academic communication in presentation of report*

You may add, as appendices, copies or extracts from reports, articles, website pages, company reports etc. to support your report.

Assessment guidelines

The student will be expected to address the criteria for assessment (see above example). Specifically, the answer, having identified a suitable business, should identify relevant business environments (e.g. macro and micro economic) discussing how these are relevant. The answer should then proceed onto a detailed discussion of the impacts of the identified environments (e.g. the impact of restrictive alcohol licensing legislation). Finally, the answer should indicate how the business will react (or has reacted) to the impact of these environments.

The answer is expected to provide sound, up-to-date and relevant information derived from suitable sources in order to provide the basis for an effective analysis of the impact of the business environments upon the selected business.

Assessment presentation requirements

1. All written assessments are to be submitted by the set deadlines.
2. Assessments must be submitted using the special front sheets available in the assessment section on Wittenborg Online / Student Central.
3. Assessments must be submitted by e-submission through **Turnitin** in the module area on Wittenborg Online / Student Central.
4. Assessments are to be word processed in an appropriate 12pt font and double line spaced.
5. Referencing must be in the standard Harvard format.
6. Please note that there are marks awarded for following correct presentation and submission requirements.

EXAMINATIONS AND ASSESSMENT LEADING TO EC CREDITS AT WITTENBORG

For Regulations of Exams at Wittenborg please see the latest Wittenborg Graduation and Examination Board Regulations. Below the different types of examination used at Wittenborg are described. Each module must choose from one exam type.

EXAM TYPES AT WITTENBORG

1. Written Examination
2. Assignment / Report / Essay
3. Project Work
4. Language Test (Reading, Writing, Listening & Speaking)
5. PDP Portfolio
6. Participation
7. Oral Presentation / Oral Interview

NB: Academic Papers from Seminars are part of the Exam type allocated to that module. i.e. if a module with a Written Examination has a seminar paper, then that paper is counted towards 1 Question in the Written Exam. In the case of PDP the paper forms part of the Portfolio. *If a Seminar cannot be given, then Question 1 is replaced in the exam with a normal question.*

Also

- Exam types 1, 4, and 7 are examined during the planned exam weeks
- Exam types 2, 3, and 5 will require an oral defence through a presentation or oral assessment, planned in the exam week .

Written Examinations under exam conditions:

Closed Book Examinable Component

These examinations are traditional exams, where students are asked to answer a number of questions or analysis situations and cases in text form, without any study aids such as notes or text books. Students are only allowed to enter the examination room with a pencil, pen and eraser. They should also bring their passport or identity card. All coats and bags should not be brought into the examination room.

Written Examinations should be 3 hours unless otherwise indicated by the lecturer. Students should leave the examination room if they finish before the end of the prescribed time.

Exams are marked on a scale of 1 – 10.

Results for examinations will be posted on Intranet within two weeks after the examination.

Open Book Examinable Component

These examinations are held for subjects that are tested through case study analysis, where students are normally required to write opinions of certain described situations or cases, using their text books as reference. Marks are given for both the analytical approach of the student, and the way in which a student refers to information in the prescribed text book (shows that they have read and understood the text book, and can use this information to underpin their arguments in the exam). Students are allowed to bring their course text books into the examination room, as well as a pencil, pen and eraser. All coats and bags should not be brought into the examination room. The examinations supervisor is entitled to check a student's text books for enclosed separate notes, which are prohibited. Indicators and short notes in the book itself are permitted.

Written Examinations should be 3 hours unless otherwise indicated by the lecturer. Students should leave the examination room if they finish before the end of the prescribed time.

Exams are marked on a scale of 1 – 10.

Results for examinations will be posted on Intranet within two weeks after the examination.

Oral Presentation / Oral Interview

These examinations are given in a form of oral communication, where students are given a prescribed amount of time in which to present a particular subject, and/or answer verbal questions over the subject. Students (either individual or in pair) are allowed to use any materials or equipment that is available to them in order to make their presentation a professional and interesting one, if the oral exam is in the form of a formal presentation. Some Oral Exams are restricted to the form of PowerPoint presentation, which is regarded as essential in business presentations, and will enhance a student's presentation skills also.

Duration of oral presentations should be 15 to 20 minutes long.

Oral Exams are marked on a scale of 1 – 10.

Exams are marked on a scale of 1 – 10.

Results for examinations will be counted as part of the final module exam result as stated in the Module Assessment Plan, which is part of the Module Guide.

Results for examinations will be posted on Intranet within two weeks after the examination.

Assignment / Report / Essay

Assignment – Business Plans / Marketing Plans

Modules can be completed with the production of a plan (Such as a Business Plan). Plans can be completed individually or in groups, with a maximum of 3 students working together. This plan is related to the module. For instance, the module Marketing Plan is to be completed by the production of a compact Marketing plan paper. This plan should be seen as a plan of approach rather than a definite final plan. It is a simulation, based on either a small company to be set up, or an existing company or organisation, or even a department within a company.

The plan should be no longer than 3000 words, and there should be no appendices that are not directly related to the plan. (A copy of parts of a related plan, from another module, is permitted.)

Plans are to be handed in on the Monday (deadline 12 noon) of the final examination week of the module (Week 5 of either Block 3 or 6)

Failed plans can be resubmitted at a date set by the course tutor, but not later than 1 full term after the original plan was submitted, without a student being required to retake the full module. Students must have completed all the specific module plans before they submit the Business Plan.

Reports, Essays & Papers

Some modules include the submission of a paper. All papers should adhere to the style and paper-writing criteria as published in the Graduation / Final Project Handbook (see later in this EEG)

This paper is to show a number of things, including:

- A student's knowledge of the text books related to their course.
- A student's research capabilities.
- A student's ability to compare ideas, using quotes and references from text books, information on the internet, and journals and magazines.
- A student's English language presentation and (academic) writing ability.

Project Work

Projects and cases are seen as an integrated part of the course and the marking of these can also depend on a student's progress during the course. Projects and cases are completed with the production of a file, based on the requirements of the lecturer for that particular course. Unless otherwise required by the course lecturer, a project or case study should not be longer than 5000 words of own text, with referrals in the text to material and cases studied and researched. Their project or case should not be more than 10 pages of appendices.

Projects and Cases are marked simply as Pass / Fail. Criteria for marking are:

- Shown knowledge of the subject (eg: 25%)
- Interesting information (eg: 25%)

- Reference to research (eg: 25%)
- Presentation (eg: 25%)

Failed projects / cases can be resubmitted at a date set by the course tutor, but not later than 1 full term after the original project / case was submitted, without a student being required to retake the full module.

Final Dissertation

See the Graduation Final Project Handbook for details.

Work Placement Journals

See PDP and Work Placement Module Guide for details.

Re-take Exam weeks and Complete Module Exams

At the end of both terms there is a small 2 week, “4th” and “8th” block in which lessons and modules that may have not taken place for some reason are “fitted in”. In this period the “Complete Module Exams” are also offered for students who are eligible to take a “retake” exam for a module from the preceding blocks.

Note: re-take exam weeks offer exams from the 3 blocks up to the immediately preceding block. i.e In block 4, retakes are offered for blocks 7, 1 and 2 and in block 8 retakes are offered for blocks 3, 5 and 6 results for Block 4 and Block 8 retake weeks are sometimes delayed due to teaching staff holidays commencing immediately after these exam weeks. Students should ensure good communication with their tutors regarding mark publishing deadlines for re-take exams, in cases where results are required for progression.

DIVERSITY OF TEACHING METHODS

Throughout the IBA programme a balance of teaching and learning methods are used, including

Teaching

- Classroom lecturing
- Case study discussions
- Feedback and presentation sessions
- Interviews and debates
- Video and film
- Company visits
- Discussion sessions
- Research Papers
- Coaching and tutoring
- Work experience tutoring
- Dissertation coaching

Learning

- Compulsory reading
- Recommended reading
- Internet research
- Library research
- Classroom lectures – notes, listening, review of videos / recordings
- Case study learning in class, in project groups
- Preparing and presenting
- Discussions with peer students, with business people
- Surveys and questionnaires
- Feedback on film – reflection
- Reflective writing – for example project weeks, work experience
- Visiting companies
- Speaking to entrepreneurs
- Helping business people with projects
- Organising events
- Starting companies
- Desk research
- In-Company research
- Dissertation writing

CASE STUDIES AND PRACTICAL PROJECTS

As explained previously, case studies are often used in the programme, and more so from Phase 2 modules onwards. There are three forms of Case Study used at Wittenborg. One of these has been specially introduced for Wittenborg students (WiNet).

- **Text book case studies:** These are up to date cases that are included in the required or the recommended literature. Lecturers are encouraged to use these case studies in their lessons and together with the Education Board, literature is chosen that contains up to date case studies.
- **Case studies from the teacher's own environment:** often teachers of business have excellent examples of business cases from their own experience or close business environment. Teachers are encouraged to share these with students and build lesson components around them. When teachers are employed or invited to give guest lectures and modules, the Education Board assesses potential candidates partially on the basis of their business background and experience.

DESCRIPTION OF PROJECT WEEKS

Project Weeks occur in Semester 2 and are part of the **Project Module**. During a project, students will be formed into groups and given a project topic during an introduction session at which the project teacher, often accompanied by a representative from the company or organisation that has helped to instigate the project. All students complete the same project in teams with the following aims and objectives:

- Students will form project teams with a clear role division.
- Students will evaluate themselves within the team, on the basis of described roles, such as those of Mintzberg
- Students will produce a final report, in the form of a proposal, that can be presented to external investors
- Students will be able to present their final report, in a clear and organised pitch.

Team Building – Personal Skills Evaluation

The week before the project is officially launched, students are requested to complete a personal skills evaluation form, based on a simple skills evaluation system devised by the University of Kent (UK). Completion of the skills evaluation form will be considered by the tutors as formal registration for the project week, and the results will be used during the group formation stage.

Formulating Project Teams (Groups)

Teams and roles of the members are formulated prior to the official start of the project.

- Project teachers will form teams of at least 4 members
- Project teachers will designate the team leader for each group
- Team leaders will be given the skills evaluation results of each team member
- Leaders will allocate each team member a specific role, based on their understanding of the results of the skills evaluation.

Roles and Responsibilities

The team leader:

- takes overall responsibility of the project;
- makes sure members are working according to the task division and cooperating with each other;
- checks the progress of the team members;
- reports to project teacher at least once during the project;
- requests more meeting moments during problem or crises moments;
- is judged on the basis of their overall leadership performance.

Secretary:

- takes responsibility of the groups meetings;
- delivers meeting agenda prior to the meeting;
- produces meeting notes and action lists at the end of each meeting;
- is responsible of internal communication and final reporting;
- ensures that all findings, results, and other necessary supporting documents are present in the final academic report and appendixes.

Researcher:

- responsible for data collection;
- implements data analysis processes and provides factual evidence to support group decisions;
- ensures the use of desk research, however also implements field research.

Financial Officer:

- ensures financial feasibility of the project
- presents financial aspects within the final report

What is expected to be submitted for Assessment?

The Final Report will consist of:

An outline of the proposed plan / advice / product with argumentation supported by financial feasibility, marketing, logistics, organisation and aesthetics, as required, as well as social and political reasoning if needed. The report must be no longer than 12000 words / 30 pages, excluding appendixes. The Introduction and the Conclusion **MUST** be written by the group leader. The following criteria should be contained in the report:

- Outline of proposed plan (Executive Summary);
- Problem definition, benchmarking and marketing research
- Research approach:
 - Logistical feasibility
 - Marketing feasibility
 - Financial feasibility
- Outline of return of investment prognosis
- Conclusion and closing recommendations

Together with the report the following documents will be submitted:

- Group Activity and Process Plan in excel format by Secretary
- Meeting Agenda and Notes completed by Secretary
- Group Leader's meeting agendas and meeting reports for other members

Also;

- A maximum one (1) page First Brainstorming Session Feedback for each team member that reflects on:
 - Roles, Tasks and Responsibility Division;
 - performance of other team members and group effectiveness

- Time Sheet; showing the exact time spent per person to show activities carried out in relation to this project

Assessment

Students will be assessed individually. This project week will be marked with a final mark of Pass or Fail.

An assessment will be given for both group and individual aspects of the project and both aspects must be awarded a “*sufficient*” or above.

Aspects to be evaluated:

- The Final Report
- Individual Project Reflection Report plus Time Sheet
 - Personal level performance and self-reflection on personal development and personal contribution towards the group project
 - Performance of other Team Members and Group Effectiveness

The assessment scale used for this project is as follows:

- Excellent, good, sufficient, poor, very poor

Evaluations will be explained in a short and concise feedback by the project teachers

- Group Evaluation will be given to the group as a whole
- Individual evaluation will be given to the individual team member

Notes:

An individual student can pass this project week if they score a ranking of sufficient of both aspects

For this project week: a project report marked as “fail” can be re-submitted within 1 month of the Final Assessment.

For specific details of each project, please see the specific Project Week Module Guide as it is published on Wittenborg-Online.

ASSESSMENT AND CREDITS - EUROPEAN CREDITS (ECS)

WHAT are European Credits?

European Credit provides an instrument to create transparency, to build bridges between institutions and to widen the choices available to students. The system makes it easier for institutions to recognise the learning achievements of students through the use of commonly understood measurements -- credits and grades -- and it also provides a means to interpret national systems of higher education. The European Credit system is based on three core elements: **information** (on study programmes and student achievement), **mutual agreement** (between the partner institutions and the student) and the use of European Credits (to indicate student workload). European Credits (ECs) are a numerical value (between 1 and 60) allocated to course units to describe the **student workload** required to complete them. They reflect the **quantity** of work each course unit requires in relation to the total quantity of work necessary to complete a full year of academic study at the institution that is, lectures, practical work, seminars, tutorials, fieldwork, private study -- in the library or at home -- and examinations or other assessment activities. European Credit is thus based on a **full student workload** and not limited to contact hours only.

- **One** European Credit equals between **25 and 28 hours** of student workload. The total European Credits for passing a normal (four year of education) study year are 60 EC. Wittenborg offers full Bachelor programme of study for three years therefore the workload in European Credit are increased to 80 credits per study year.
- European Credits are a **relative** rather than an absolute measure of student workload. They only specify how much of a year's workload a course unit represents at the institution or department allocating the credits.
- In European Credits, 60 credits represent the workload of a normal undergraduate academic year of study and normally 30 credits for a term. A postgraduate academic year of a full 12 months may have 90 credits.
- European Credits ensure that the programme will be reasonable in terms of workload.

Example: *In order to complete successfully the 'Principles of Marketing' subject and gain the 5 European Credits assign to it the student has to spend 140 hours in workload for this subject. These 140 hours comprise of 24 contact hours/lectures and 116 hours in practical work, seminars, tutorials, fieldwork, examinations, and preparation time, etc.*

GRADING SYSTEM IN THE NETHERLANDS

Dutch grades range from 1 (very poor) to 10 (outstanding); a 6 is a pass. It should be noted that 9s and 10s are rarely given. On final lists, grades are normally rounded off (above 0.5 is rounded up and below 0.5 is rounded down, thus a 5.5 equals a 6 equals a pass, whereas a 5.4 equals a fail.) However, on exams and course work, it is customary to get a grade that has not been rounded off. The Dutch grading system is listed in the table below.

<u>Grade</u>	<u>Description</u>
10	Outstanding
9	Very good
8	Good
7	Very satisfactory
6	Satisfactory
5.5 – 6.0	(minimum requirement for a pass)
5	Fail
4	Unsatisfactory
3	Very unsatisfactory
2	Poor
1	Very Poor

The ECTS grading system for credit transfer

In cases where credits are transferred between countries (mainly in student exchanges) ECTS grades can be used. It is good practice to add an ECTS grade, in particular in case of credit transfer. The ECTS grading scale ranks the students on a statistical basis.

Therefore, statistical data on student performance is a prerequisite for applying the ECTS grading system. Grades are assigned among students with a pass grade as follows:

A best 10%	B next 25%	C next 30%	D next 25%	E next 10%
------------	------------	------------	------------	------------

A distinction is made between the grades FX and F that are used for unsuccessful students. FX means: "fail - some more work required to pass" and F means: "fail – considerable further work required". The inclusion of failure rates in the Transcript of Records is optional.

Marking Systems

Marks are given on a scale 1 – 10 (Dutch) and/or A, B, C, D or F (Anglo Saxon).

All modules require a pass mark. For more details, see the Examination and Assessment section.

A	100.00%	85.00%
B	84.99%	75.00%
C	74.99%	60.00%
D	59.99%	55.00%
E	54.99%	40.00%
F	39.99%	25.00%
FX	24.99%	0.00%

PLAGIARISM CHECK – HOW DO I AVOID PLAGIARISING?

Academic honesty is a fundamental value of **academic integrity**, and at WUAS we take this value seriously and expect you to do the same. It is a principle that ensures the freedom of exchanging ideas, as formulated by the International Center for Academic Integrity (1999: 4): "Academic integrity is a commitment, even in the face of adversity, to five fundamental values: honesty, trust, fairness, respect and responsibility. From these values flow principles of behaviour that enable academic communities to translate ideals into action." Academic dishonesty, such as plagiarism, is a damaging act: it is stealing someone's work and achievement, and therefore it is not tolerated at our institution in any form or circumstance.

We have constructed for you the document below to clarify the importance of recognising plagiarism and to understand how to deal with it and how to avoid it. Since there are also other forms of unacceptable academic practices, it is vital to be able to distinguish among them. Hereby, we also aim to avoid unintentional offences, which, nevertheless, may have serious consequences.

We strongly believe that it is our responsibility to promote and preserve academic honesty. We strive to ensure that each student's graduation is honestly earned and that his/her degree preserves credibility and value.

Today, with all the available interwoven sources and webpages, avoiding plagiarism seems a rather complex task, and preserving the principles of honesty and responsibility may be daunting, but you need not be intimidated. In case of any concerns or questions regarding this topic, please contact your personal tutor at the university.

We hope your experience at WUAS will be enjoyable and instructive, and full of originality!

ACADEMIC MISCONDUCT

The Wittenborg University of Applied Sciences statement of ethics specifies the reasons to preserve academic honour and integrity by repudiating all forms of academic and intellectual dishonesty (see EEG, Part 11):

1. To treat others with respect and dignity
2. To respect the rights and property of others
3. To act with concern for the safety and well-being of all our associates

During Induction Week, students are informed about academic misconduct and about plagiarism in particular. Plagiarism is a serious academic offence. Whether intentional or unintentional, plagiarism is a form of cheating in which a person gains or seeks to gain an unfair academic advantage. It includes the use of another author's words verbatim, summarising or paraphrasing another person's argument or line of thinking, or use of a particularly apt phrase without proper attribution.

When working with ideas and concepts that are not familiar to you, the temptation for some students to lift words or sections of text from other sources is great. Write in your own words, because using the words or ideas of others without a reference (either using quotation marks and/or sourcing the author(s)) will lead to accusations of plagiarism (see detailed explanations below). Tutors are generally familiar with the differences between the writing styles of students and experienced authors.

The generation of false primary data is also a serious academic offence. Students should keep all primary data derived from surveys and interviews (whether in paper, electronic or taped form) as you may be required to produce this as evidence in the event of a challenge to the veracity of your results. The school may run random checks among all students with regard to their primary data.

DEFINITION OF ACADEMIC MISCONDUCT

Academic misconduct includes the following and any other forms of **academic dishonesty**:

- i. Cheating – Using or attempting to use crib sheets, electronic sources, stolen exams, unauthorised study aids in an academic assignment, or copying or colluding with a fellow student in an effort to improve one's grade.
- ii. Fabrication – Falsifying, inventing, or misstating any data, information, or citation in an academic assignment, field experience, academic credentials, job application or placement file.
- iii. Plagiarism – Using the works (i.e. words, images, other materials) of another person as one's own without proper citation in any academic assignment. This includes submission (in whole or in part) of any work purchased or downloaded from a website or an Internet paper clearing house.
- iv. Facilitating Academic Dishonesty – Assisting or attempting to assist any person to commit any act of academic misconduct, such as allowing someone to copy a paper or test answers.

PLAGIARISM AS ONE KIND OF ACADEMIC MISCONDUCT

'What does plagiarism mean?' In order to understand the implications of plagiarism, first look at the origin of the word itself. The word plagiarism has been adopted from the Latin word 'plagiarius' which means 'kidnapper, seducer, plunderer', according to the Online Etymological Dictionary. Stealing someone else's work and signing it as your own is like 'kidnapping', an actual crime.

A definition by Hexham (2013: 2): *'Plagiarism is the deliberate attempt to deceive the reader through the appropriation and representation as one's own the work and words of others. Academic plagiarism occurs when a writer repeatedly uses more than four words from a printed source without the use of quotation marks and a precise reference to the original source in a work presented as the author's own research and scholarship. Continuous paraphrasing without serious interaction with another person's views, by way of argument or the addition of new material and insights, is a form of plagiarism in academic work.'*

WHY DOES IT MATTER?

The following examples of academic dishonesty and plagiarism are formulated in the 'Plagiarism and how to avoid it' student notes by the University of Brighton, a partner institution of Wittenborg (2015: 2):

1. *A medical researcher falsifies the results of a new anti-cancer drug to make his discovery seem more important.*
2. *A writer submits an idea for a series to a television company, who turn it down. A few months later, they broadcast an almost identical program. She never receives any acknowledgment or payment.*
3. *A historian publishes a book claiming that the Holocaust never took place. He makes lots of detailed assertions backed up by anonymous quotations but does not give any sources for this information.*
4. *A minority of students at a particular university are acquiring essays via the Internet, and the university authorities have failed to stop the practice. This has led to a decline in the university's reputation, and all their graduates (even genuinely first-class students) are now finding it hard to get a job.*
5. *A design student loses the portfolio containing all her sketches for her final project, and has to start again from scratch. At the final degree show, she finds that many of her original ideas have been used in another student's work.*

Some of the above examples may not have the same weight when it comes to their severity, however, these examples do make it clear that plagiarism and academic dishonesty are to be treated and regarded as acts of crime. Therefore, Wittenborg University of Applied Sciences has defined its rules and penalties.

WHAT ARE THE RULES?

REFERENCING YOUR SOURCES

(EEG Part 8: Graduation Assignment & Final Project Handbook - Bachelor)

References refer the reader to the source of specific information, ideas, quotes, figures, tables that you have used in your dissertation. **All sources listed in your bibliography** must be cited at least once somewhere in the main text of your dissertation; in other words, do not 'pad' your bibliography with sources not clearly used. These must be included whenever you use anything drawn from other sources. It is looked upon very seriously if you do not reference your sources. **Quoting a reference** helps to support the point you want to make. It indicates the basis for your opinions and clearly shows how you have reached these opinions. Useful phrases include: 'according to Smith (2007), many managers believe service quality...', 'research has revealed the importance of... (Jones 1985, Peters 1997)', or 'many academics (Jones 1997, Smith 2007, Zikmund 2009) debate the influence of globalisation...'

Clearly, accurate referencing is mandatory for **all** written assignments using sources. Throughout your studies, you will be required to demonstrate your ability to work properly with sources in preparation for your final graduation assignment, your dissertation.

THE HARVARD SYSTEM

The authors' surnames are given in the text, together with the year of the work to which you are referring, and, where appropriate, the page numbers (always included for direct quotes).

For example:

Many academics (Cooper et al. 1993, Ryan 2004, Smith 1996) explain the benefits and costs that can be expected from tourism development. Ryan (2004) identified that tourism is an obvious source of foreign exchange and particularly useful for developing countries to earn hard currencies such as dollars, euros and sterling. Jones (2002: 323) identified that in Sri Lanka "tourism is a significant contributor to the overall economy, worth 17.6% of the GDP in 2001". Smith (2007: 42) emphasised the potential of tourism to earn foreign exchange:

Commodity trade, which is the principal foreign earner for most developing countries has not provided a revenue growth to match the increase in the imports bill. Import substitution and local processing can provide a means of saving or earning but many countries run the risk of limited domestic markets or restricted access to foreign markets...

Negative impacts of tourism can include:

The emphasis on the economics of tourism, especially its benefits, reflect the widespread belief among agency personnel that tourism can yield rapid and considerable returns on investments and be a positive force in remedying economic problems (Jones 2002: 13).

Jones (1979), as cited in Smith (1995: 88), mentioned tourism has many other benefits as well. The National Trust (2010) and IEG (2009) are two organisations that have compiled statistics on the economic impacts of tourism related to specific events. However, Johnson (2008: 34) stated the “National Trust is a primary example of an organisation that systematically undervalues the economic spending of its visitors by 5-10%.” Despite this, the National Trust is well aware of the importance of visitor spending (interview with Jane Smith of the National Trust, 2010).

Notes: For direct quotes used, always cite the page number e.g. Smith (1995: 42).

References to personal communications/interviews that you have carried out appear parenthetically as detailed above, e.g. (interview with the Minister of Tourism in 2010). No further details are included in the bibliography, as you are referring to your own primary research results (underpinned by the discussion of your research methods).

Direct quotes of more than 40 words should be indented on a separate line from the main text (as in the examples above – notice the lack of “quotation marks”). **Quotes of less than 40 words** should be incorporated into the text differentiated by double “quotation” marks (as above with Johnson).

Web pages cited should only be the author/copyright of the article or website (do not put in long web addresses within the text). Then in the bibliography, put in full web address as part of reference citation.

Bibliography examples (alphabetically ordered by surname or name of author (including organisations, if not a person). Do not separate bibliography under ‘books’, then ‘journals’, then ‘newspapers’. All citations go under one list, alphabetically ordered. When we say alphabetically ordered it does NOT mean you change the order of the names of the authors as written in the source (e.g. Saunders, M., Lewis, P. and Thornhill, A. (2009) *Research Methods for Business Students*. 5th edition. Harlow: Prentice Hall – DOES NOT BECOME Lewis, P. Saunders, M...or reference as Lewis et al 2009 in text, it is always Saunders et al, because this is the way the book is cited). You can underline the title of the book or you can use italics, but choose and pick one style and **be consistent**.

WHERE DO YOU CROSS THE LINE?

Pecorari (2003: 317) noted that the literary critic Samuel Johnson is said to have responded to the author of a piece of writing with: “Your work is both good and original. Unfortunately, the parts which are good are not original, and the parts which are original are not good.”

Plagiarism can have different forms, when students willingly or unwillingly use the original material (written or verbal), data or idea of an author without any acknowledgement or fail to apply correct referencing. According to the *Harvard Guide to Using Sources*, these are:

- Verbatim plagiarism
- Mosaic plagiarism
- Inadequate paraphrasing
- Uncited quotation
- Uncited paraphrasing

Below are illustrated the different types of plagiarism with examples and explanations.

Please, read the explanations carefully because you will be held accountable for any violations.

Consider the following original passage of Ernst's (2016) paper:

'China has reached a level of development where catching up through an investment-driven "Global Factory" model is no longer sufficient to create long-term economic growth and prosperity. Serious constraints on environmental, human and financial resources imply that economic growth based on scale expansion is running out of steam.'

Ernst (2016), 'From Catching Up to Forging Ahead in Advanced Manufacturing-Reflections on China's Future of Jobs, *Innovation and Economic Growth Series, No. 6*, March 2016

Version 1. Nowadays, China has reached a level of development where catching up through an investment-driven "Global Factory" model is no longer sufficient to create long-term economic growth and prosperity. Severe constraints on environmental, human and financial resources result that economic growth based on scale expansion is running out of steam.

Explanation 1: Version 1 is an obvious example of plagiarism, only minor word changes have been made, but the paragraph has been copy-pasted from the original document and without acknowledgement. This is an example of verbatim plagiarism.

Version 2: Nowadays, China has reached a level of development where catching up through an investment-driven "Global Factory" model is no longer sufficient to create long-term economic growth and prosperity. Serious constraints on environmental, human and financial resources imply that economic growth based on scale expansion is running out of steam (Ernst, 2016: 2).

Explanation 2: Text version 2 is also a plagiarism case. Although the source has been acknowledged, the information taken from the original text is a direct copy, and therefore it should be treated as a direct quotation and put within quotation marks. This is an example of uncited quotation.

Version 3: There are serious environmental constraints in China, but also human and financial resources imply that economic growth based on scale expansion is running out of steam. This illustrates that China has reached a level of development where catching up through a “Global Factory” model is no longer sufficient to create prosperity (Ernst, 2016: 2).

Explanation 3: The sentences above were slightly re-arranged, but the original phrases have been copied and not paraphrased, therefore version 3 is also plagiarism. It is important to remember that rearranging and paraphrasing are different acts, whereby paraphrasing entails that the student reformulates an author’s ideas in their own words. This is an example of inadequate paraphrasing or mosaic plagiarism (which also applies if the sentences combine parts of sentences coming from several sources and presented in the above manner).

Version 4: Modern economies face growing pressure of environmental, human and financial constraints. The People’s Republic of China is no exception as these constraints form a heavy pressure on its growth expansion that is mainly relying on economies of scale. The country has arrived at a crossroads where, its investment-driven growth model is no longer sustainable.

Explanation 4: In version 4 we can observe that the sentences have been sufficiently reformulated, the writer understands the topic and uses information of the original source effectively. Unfortunately, this is still a plagiarism case as the acknowledgement of the author of the original idea has been omitted. This is a clear example of uncited paraphrasing.

Version 5: Modern economies face growing pressure of environmental, human and financial constraints. The People’s Republic of China is no exception, as these constraints form a heavy pressure on its growth expansion that is mainly relying on economies of scale. The country has arrived at a crossroads where its investment-driven growth model is no longer sustainable (Ernst, 2016: 2).

Reference list:

Ernst (2016), 'From Catching Up to Forging Ahead in Advanced Manufacturing-Reflections on China's Future of Jobs, *Innovation and Economic Growth Series, No. 6*, March 2016

Explanation 5: Version 5 is not plagiarism, since the writer showed a good understanding of the topic and in order to use the information, he/she has paraphrased the original sentences and noted the source of the ideas.

OTHER KINDS OF ACADEMIC MISCONDUCT

Self-plagiarism: re-using assignments or large portions from documents already assessed (in the same class or in other classes with other instructors).

Example of self-plagiarism: Nelly has to begin her graduation assignment. Her topic has similar elements from an earlier report she had to write for the assessment of another module. She decides to introduce that report as her third chapter, since it is her work.

Unauthorised material: using someone's idea without permission.

Example of unauthorised material: Emmett decides to start writing his report. As he enters the computer room and takes a seat, he notices a few printed pages forgotten on the desk by another student. He looks at this paper and realises that it is someone's homework for the same report, so he changes a few aspects and hands it in as his own original work.

Collusion: 'group work'

Example of collusion: The class received homework that must be written individually, and each person is to make their own short research. Tom and Josh divide the task among themselves and share the findings with each other, eventually submitting two individual papers with very similar content, but they claim they have written it on their own.

Fabricated data or manipulated/dishonest results

Example of fabricated data: Arno has collected the survey answers from eighty respondents. During the analysis, he notices that some of the respondents did not answer a certain question, so he decides to put in some random answers in the empty spaces.

"Bought" works, misrepresentation or rewriting by externals (ghosting)

Example of misrepresentation: Andrea has a tight schedule, since she is working and studying at the same time. Under this pressure, she decides to contact a friend who has completed the module some time ago, and since she knows that the teacher has been recently changed she asks for the work of her friend, which she will sign as her own and hand it in.

Example of ghost-writing: Peter is worried about getting all the work for his final project done. He has heard of companies offering theses on all kinds of topics. He gets in touch with them, explains the topic and gets assurances that he will have the delivered thesis in time. He has to transmit a certain amount of money and receives the thesis ready for submission. His name is on the cover page.

WITTENBORG PLAGIARISM CHECK VIA TURNITIN

All students will be required to submit their written reports/assignments/exams through the **Turnitin plagiarism software**; this is considered part of the formal submission requirements.

Turnitin is used by the school to detect cases of plagiarism. The software compares the writing used within any document to other sources, for example, websites on the Internet, journal articles, books, and other student work from other universities. Turnitin gives students the option to check the similarity score of their submission; they can then revise their work (if necessary) and re-upload the document before the deadline.

Further details of the Turnitin submission process are provided during Wittenborg's Induction Week.

You are advised to check Wittenborg online 'Guide to Turnitin' on how the software works and how you are mandated to use it. Also accessible via the link below:

<http://www.wittenborg.eu/guide-turnitin.htm>

You can also visit the official site of Turnitin, where you can access the latest updated manuals

Acceptable similarity score for all Turnitin submissions = 20% MAX

At Wittenborg, up to 20% similarity is acceptable for all submissions through Turnitin. Above 20% but no more than 30% similarity must be motivated/justified by the student to be accepted for assessment. The 20% similarity does not automatically imply the submission is plagiarism-free as there could also be cases of plagiarism with less than 20% similarity. The submission must be properly referenced as per university referencing style (see above).

PROCEDURES FOR INVESTIGATING & DEALING WITH ACADEMIC MISCONDUCT

The examiner decides whether academic misconduct has taken place and may make a series of recommendations, including a clear fail. Any academic dishonesty may be referred to the Examination Board.

For all details on procedures, please see the Education and Examination Guide (EEG), Part 11 "The Student Code of Behaviour".

PENALTIES

Penalties at Wittenborg University of Applied Sciences for practicing plagiarism include but are not limited to:

- Official warning
- Reduction of the grade and/or a required re-doing of an assignment (on a completely different topic)
- Decision that during a period of one year at most, the student is denied the right to take one or more specific (partial) tests or examinations
- Dismissal

Furthermore, severe and/or repeated plagiarism can lead to the failure of the educational degree. For further details, please see the information on "Penalties and Professional Practice" extracted from the "Graduation and Examination Board Regulations" of WUAS (in the EEG).

STUDENTS' RIGHT OF APPEAL

The rights a student has if they feel a decision has been incorrect are spelled out in the "Graduation and Examination Board Regulations" of WUAS (in the EEG), in particular, article 17.

GRADUATION AND EXAMINATION BOARD REGULATIONS

Article 1. Applicability of the regulations

These Graduation and Examination Board Regulations apply to the education, assessments and examinations of all programmes at the Wittenborg University of Applied Sciences, that fall under the jurisdiction of this Graduation and Examination Board. The programmes are arranged for full time as well as part time students within Wittenborg University of Applied Sciences.

Section 1.01 The programmes are:

- IBA Bachelor International Business Administration, with all specialisations
- HBA Bachelor of Hospitality Business Administration, with all specialisations
- EBA Bachelor of Entrepreneurial Business Administration, with all specialisations
- MBA Master of Business Administration, with all specialisations
- MSc Master of Science in International Tourism Management
- MSc Master of Science in International Hospitality Management
- MSc Master of Science in International Event Management

Section 1.02 Part of these Regulations is also the General Assessment Policy document hereto attached.

Article 2. Dutch Higher Education Act and Code of Conduct

The Graduation and Examination Regulations are in line with the following Dutch Higher Education Act and Code of Conduct

The Act: the Higher Education and Scientific Research Act (Statute book 1992, 593; WHW, Wet op het Hoger Onderwijs en Wetenschappelijk Onderwijs, hereafter: The Act);

The Code: the National Code of Conduct for International Higher Education in the Netherlands (hereafter: The Code).

Article 3. Definitions of concepts

In these regulations following concepts are defined:

Section 3.01 The Board: the Board of Management of Wittenborg, University of Applied Sciences (hereafter: The Board);

Section 3.02 The School: Wittenborg, University of Applied Sciences (hereafter: Wittenborg or The Institute);

Section 3.03 The candidate: any student, or student with partial enrolment, registered with The Institute to follow Wittenborg courses and/or take part in tests or examinations of the programmes;

- Section 3.04 Graduation and Examination Board:** the board, established on the basis of article 7.12 paragraph 1 of The Act; composition and tasks of the board have been drawn up in the Article 14 and Article 15 of these Regulations (hereafter: Exam Board);
- Section 3.05 Academic year:** the period of time as indicated by The Act, that is the period of 1st September up to and including 31st August of the next year;
- Section 3.06 Preliminary period:** the preliminary phase of a programme, as indicated in article 7.8 of The Act, to be concluded by the preliminary examination (known as completion of Year 1 Modules);
- Section 3.07 Principal period:** the part of a programme following the preliminary period, to be concluded by the final examination (known as completion of Year 2 to Year 4 Modules);
- Section 3.08 The examination:** the combination of educational units set by the Exam Board according to Article 8 of these Regulations, of which the tests should be taken successfully by the candidate in order to acquire credits;
- Section 3.09 Admittance inquiry:** an inquiry as meant in article 7.29 of The Act;
- Section 3.10 Day:** Monday to Saturday;
- Section 3.11 European credits:** the study load of each programme is determined in credits. The study load of a year is 60 credits, which equals 1.680 hours of study (hereafter: credits);
- Section 3.12 The Code:** Code of Conduct International Student in Dutch Higher Education.

Article 4. Objective of the programmes

The degree programmes of Wittenborg University of Applied Sciences aim to ensure graduates have acquired such knowledge, skills and understanding of the professional field, to allow a graduate to exercise that knowledge independently in the professional work field, conforming to the national and international attainment targets and qualifications. Detailed aims and objectives are outlined in the programme-specific Education & Examination Guides (EEG).

Article 5. Admission to Bachelor programmes

- Section 5.01** Enrolment within the Bachelor programmes requires possession of a diploma, that is equivalent to 'pre-university education' (VWO, Voorbereidend Wetenschappelijk Onderwijs), 'general secondary education' (HAVO, Hoger Algemeen Voortgezet Onderwijs) or 'secondary vocational education level 4' (MBO, Middelbaar Beroeps Onderwijs).

- Section 5.02** The owner of a certificate of a successfully concluded preliminary or final examination at an institution of higher education, whether or not handed out in the Netherlands, is exempted by the Exam Board from the requirements as mentioned in Section 5.01 of these Regulations.
- Section 5.03** The owner of a certificate, whether or not handed out in the Netherlands, which is regarded by the Dutch Ministry of Education at least equal to one of the diplomas mentioned in Section 5.01 of these Regulations, is exempted by the Exam Board from the requirements mentioned in Section 5.01 of these Regulations.
- Section 5.04** The owner of a diploma, whether or not handed out in the Netherlands, not included in the Ministry's arrangement as mentioned in paragraph 1c of article 7.2.2. of the Act, can be exempted by the Exam Board from the requirements if the diploma in the Exam Board's opinion, is at least equal to one of the diplomas mentioned under Section 5.01 of these Regulations.
- Section 5.05** The Exam Board will include in its opinion any advice given by NUFFIC (Netherlands University Foundation for International Cooperation), relating to the possible equivalence of diplomas.
- (a) Prior education requirements for university education, as meant in the Code, including minimum language proficiency levels, are deemed to have been satisfied after assessment of the relevant deficiency courses offered by the Institute.
 - (b) Deficiency courses as meant in (a) above include any remedial English course deemed necessary by the Institute.
 - (c) The student cannot be admitted to the second year/phase as long as any deficiency course mentioned under (a) has not been successfully completed.

Article 6. Admission to Master programmes

The admission requirements (criteria) for the Master programmes are as follows:

- (a) a Bachelor degree or equivalent recognised qualification: applicants are requested to provide an academic reference from their previous education institute;
- (b) 2 years professional experience (after undergraduate degree) for MSc; 3 years professional experience for MBA: applicants are requested to provide a reference from a company or organisation where they have worked;
- (c) English language level equivalent to IELTS 6.5 overall, 6.0 in writing.

Article 7. Admittance inquiry

The requirements made at an admittance inquiry, as meant in article 7.29 of The Act, have been included, if applicable in the 'Arrangement Admittance for Students 21 years and Older' (Education and Examination Guides).

Article 8. Contents of the programme and related tests and examinations.

Section 8.01 In more detailed arrangement, the Exam Board determines on time each year:

- (a) from which educational units (modules) the programmes exist and which (partial) tests are included in the preliminary and final examination;
- (b) the study load of the programme and the educational units;
- (c) whether the (partial) tests will have to be taken orally, in written form or in any other way, whereas the Exam Board on request of the candidate, may allow for a test to be taken in a way other than indicated;
- (d) in what way judgment of a test is acquired from the judgment of related partial tests and when a test has been successfully concluded;
- (e) the organisation of practical exercises;
- (f) the order in which, the periods of time within, and the number of times in the academic year that students are offered an opportunity to take part in tests and examinations;
- (g) the minimum requirement of 220 credits for Bachelor programmes, 40 credits for MSc and 60 credits for MBA for students to be allowed to do the graduation presentation.
- (h) that a successful conclusion of tests is a condition for admittance to certain other tests;
- (i) the obligation to take part in practical exercises in view of admittance to take part in the related test, subject to the Exam Board's authority to grant exemption from that obligation, whether or not enforcing alternative demands;
- (j) duration of (partial) tests;
- (k) if any and which aids may be used during (partial) tests;
- (l) the procedure for registration for (partial) tests;
- (m) the number and order of tests as well as the moments at which they can be taken.

Section 8.02 Some programmes offer each student the possibility to take part in 'specialisation modules freely to be chosen' as part of the examination regulations of a programme

with a maximum study load of 60 credits for Bachelor programmes and with a maximum study load of 10 credits for Master programmes.

Section 8.03 The choice of specialisation is to be mentioned on the diploma (degree certificate) and requires students to continue their chosen specialisation in the Work Experience Module and the Graduation Dissertation Modules for the Bachelor programmes and the Final Project for Master students.

Section 8.04 Major changes such as new modules, or any curriculum change after review that affects more than 10% of the programme, will have to be approved by the Exam Board and implemented per following academic year.

Article 9. Facilities for taking and retaking tests and examinations

Section 9.01 At least twice a year, candidates are offered the possibility to take (partial) examinations. The Institute can set further regulations regarding the signing up for participation in (partial) examinations. The Institute makes sure that these kinds of rules are known in time.

Section 9.02 Candidates are offered the possibility to retake examinations at least once a year:

- (a) Block 4 retake examinations will repeat the examinations of the full module examinations of Blocks 7, 1 & 2;
- (b) Block 8 retake examinations will repeat the examinations of the full module examinations of Blocks 3, 5 & 6.

Section 9.03 If a candidate takes a test more than once, the result of the last taken test is in force, unless a previous result should be higher. Per module, the maximum retakes allowed is 4. In special cases (at the student's written request) the Exam Board may decide otherwise.

Section 9.04 The period of validity of a successfully concluded partial test is four years, except for the Exam Board or examiner's authority to reduce this period of validity.

Section 9.05 Possession of a certificate or other proof of passing of the preliminary examination (if any exists) of the programme is demanded in order to register for courses and for taking (partial) tests of the second phase (Education and Examination Guides).

Section 9.06 The Exam Board may grant admittance, on request of the registered student to take one or more (partial) tests of the final examination, even before he/she has successfully concluded the preliminary examination of the programme. The Exam Board lays down in writing to which (partial) tests the candidate has been admitted.

- Section 9.07** The student, exempted from completion of examinations that form part of the preliminary period under article 7.31a of The Act, is given entrance to one or more components of the final examinations.
- Section 9.08** Retake (partial) examinations will be limited to a maximum of 4 modules in a retake block, if the student was absent in any of the regular block examinations.
- Section 9.09** If a student misses an examination without any valid reason, his/her registration for the following retake examinations will be limited to a maximum of 3 modules.
- Section 9.10** Retakes for Exam types 2, 3, and 5 do not include presentations or oral assessment; the original assessment of the presentations is carried over to the relevant retake exam.
- Section 9.11** Seminar papers cannot be retaken.

Article 10. Oral tests

- Section 10.01** There will be no more than two students participating at an oral test, unless the Exam Board has ruled otherwise.
- Section 10.02** Oral tests are public, unless the Exam Board or the examiner concerned has ruled otherwise in a specific case, or if the candidate is opposed to it.
- Section 10.03** Oral presentations that are part of exam type 2, 3, and 5 cannot be retaken (see section 8.14). This can be overruled by the Exam Board e.g. in cases where a student has been given provisions under article 17.

Article 11. Determining and publishing of test results

- Section 11.01** The examiner determines the result of a (partial) oral test on the day of that examination and issues the candidate with a written declaration to that effect.
- Section 11.02** The examiner determines the result of a written (partial) test within maximal ten (counts for written examinations) or twenty working days (counts for essays, reports and project work) after the day it was taken and supplies the administration of The Institute with a signed declaration in view of handing out the written declaration on the result to the candidate. A written statement regarding the results of the (partial) test is given out to the candidate within 30 days after the day it was taken.
- Section 11.03** With reference to tests to be taken other than orally or written, the Exam Board determines in advance in what way and within which period of time the candidate will receive a written confirmation about the result.

Section 11.04 On a written statement about the result of a (partial) test, the student's attention is also drawn to the right of perusal, mentioned in Article 20 of these Regulations, as well as to the possibility of appeal with The Board of Appeal for Exams.

Article 12. Assessment and announcement of examination results; passing; not passing; passing with distinction

Section 12.01 The Exam Board determines in a meeting, in a given period, which candidates have successfully passed examinations and the Exam Board affirms the students' credits.

Section 12.02 An examination has been successfully concluded when the candidate has met the demands mentioned in Section 12.03 for Bachelor programme students and in Section 12.04 for Master programme students.

A candidate has passed the preliminary examination, if any (Year 1 Modules of Phase 1) when the tests of all educational units were taken successfully, and all modules have been passed. A student is required to pass all modules with a final mark of 6.0. However, 1 module may be left at a final mark of 5.5, in order for all 60 credits for Year 1 modules to be awarded.

Section 12.03 A Bachelor candidate has passed the final examination (Graduation) when he has met the following demands:

- (a) for all tests of the educational units of the Phase 1 Modules at least 6 as a final mark, except for 1 module for which a 5.5 as a final mark may be obtained, or an indication of pass;
- (b) for all tests of the educational units of the Phase 2 Modules at least 6 as a final mark, except for 1 module for which a 5.5 as a final mark may be obtained, or an indication of pass;
- (c) (If applicable) the test of the module 'practical period' may be completed with the indication of pass;
- (d) for all tests of the Phase 3 Modules at least 6 as a final mark, except for 1 module for which a 5.5 as a final mark may be obtained, or an indication of pass;
- (e) under (a), (b) and (d), marks of 5.5 and upwards will be rounded up to a final mark of 6. A mark of 5.1 and higher can, in exceptional cases determined by the Exam Board, be rounded up to a final mark of 5.5. The final mark of a test can be rounded up.

Section 12.04 A Master candidate has passed the final examination (Graduation) when he has met the following demands:

- (a) for all tests of the educational units of Year 1 Modules at least 6 as a final mark, except for 1 module for which a 5.5 as a final mark may be obtained, or an indication of pass;
- (b) for all tests of the educational units of Year 2 Modules (Final Project) at least 6 as a final mark;
- (c) under (a), marks of 5.5 and upwards will be rounded up to a final mark of 6. A mark of 5.1 and higher can, in exceptional cases determined by the Exam Board, be rounded up to a final mark of 5.5. The final mark of a test can be rounded up.

Section 12.05 The candidate will be informed of the result within 5 working days after the meeting mentioned under Section 12.01 of these Regulations.

Section 12.06 A testimony will be given out to candidates who passed the preliminary or final examination, if any, as mentioned in article 7.11 paragraph 1 of The Act. The name of the programme is mentioned on the testimony, and the parts the examination consisted of, and when appropriate, which qualification is connected with it, observing article 7.6 first paragraph, of The Act.

Section 12.07 On the list of marks belonging to the Graduation Year / Final Year:

- (a) "**With honours**" is written, when the candidate has:
 - (i) for the educational units of each year (with exemption of the educational unit Graduation Assignment Module for Bachelor students and for the Final Project for Master students) at least an average of 8.0 and higher;
 - (ii) for the average of the Graduation Assignment for Bachelor students and for the Final Project for Master students at least 8.0 as a final mark.
- (b) "**With distinction**" is written, when the candidate has:
 - (i) for the educational units of each year (with exemption of the educational unit Graduation Assignment Module for Bachelor students and the Final Project for Master students) an average lower than 8.0 and higher than 7.0;
 - (ii) for the average of the Graduation Assignment for Bachelor students and for the Final Project for Master students at least 7.0 as a final mark.
- (c) "**with credit**" is written, when the candidate has:
 - (i) for the educational units of each year (with exemption of the educational unit Graduation Assignment Module for Bachelor students and the Final Project for Master students) an average lower than 7.0 and higher than 6.0;

- (ii) for the average of the Graduation Assignment for Bachelor students and for the Final Project for Master students at least 6.0 as a final mark.
- (d) "**With pass**" is written, when the candidate has:
 - (i) for the educational units of each year (with exemption of the educational unit Graduation Assignment Module for Bachelor students and the Final Project for Master students) an average lower than 6.0 and higher than 5.5;
 - (ii) for the average of the Graduation Assignment for Bachelor students at least 5.5 as a final mark and for the Final Project for Master students at least 6.0 as a final mark.

Section 12.08 The student who has passed one or more tests and to whom no diploma or certificate can be handed out, will receive a statement on his/her request, to be issued by the Exam Board, in which at any rate the tests are mentioned that he has concluded successfully.

Article 13. Study progress and study supervision

Section 13.01 The Board arranges for such registration of study results, that all candidates will receive at least once per term a survey of their personal results, related to the education and examination programme of the Institute.

Section 13.02 The Board arranges for study supervision for candidates registered with the programme.

Section 13.03 Students are issued with a written advice at the end of each academic year, together with a transcript of credits.

Section 13.04 The number of credits required for progression from one study phase / year to another are described in the Education and Examination Guides.

Section 13.05 If for the candidate a rejection is incorporated in the advice, the student has the right of appeal to the Exam Board (See section 15.01).

Section 13.06 If a student misses an exam or deadline due to specific extenuating circumstances (illness, hospitalisation, bereavement, etc) the student must submit a written request for extension to the Exam Board before the last Thursday of the teaching block. Requests must be accompanied by evidence (doctor's note, etc).

Article 14. Composition of the Graduation & Examination Board; Modus Operandi

Section 14.01 The Board appoints the Chairperson and the members of the Graduation & Examination Board (Exam Board). Members normally serve for one academic year, but this can be extended to a maximum of three years. The Chairperson lays down in writing which members of the Exam Board will act as deputy Chairperson, Secretary and deputy Secretary. The Exam Board reports to The Board.

- Section 14.02** Members of the Exam Board are employees charged with education in the programme and have extensive experience in teaching in higher education equivalent to a Postgraduate Certificate in Learning & Teaching. Membership of members who do not possess these qualifications shall be deemed ex-officio and without the right to vote.
- Section 14.03** Membership of the Exam Board ends automatically if the employee concerned is no longer at the Institute (except for externals, see 13.04 below).
- Section 14.04** Membership will include at least one external, who is independent from the Institute. External members can also be appointed as Chairperson or deputy Chairperson.
- Section 14.05** The Board guarantees that there is a diversity of expertise among the appointed members of the Exam Board (e.g. discipline/subject-related, assessment methodologies and procedures, laws and regulations, international expertise).
- Section 14.06** The Exam Board meets every block. Meetings are off-line and face-to-face, but meetings of any sub-committee installed by the Exam Board may also take place through online or video communication.
- Section 14.07** A minimum of four members is required (including Chair or deputy Chair) to make decisions. All meetings are documented in minutes by the Exam Board Secretary.
- Section 14.08** Exam Board meetings are closed and its minutes confidential. All information about students and instructors will be treated with utmost confidentiality.
- Section 14.09** The Exam Board decides by a simple majority of votes. In case of a tie, the Chair or deputy Chair has the casting vote.
- Section 14.10** The Exam Board may decide to confer some of its authority, if necessary with certain constraints and conditions, on the Chairperson, provided that this is not in conflict with the law or these regulations (Chair's action).
- Section 14.11** The Exam Board may be assisted by others, such as advisors or other tutors, only if agreed by a majority of the board. The role of non-appointed staff is temporary, purely consultative, and they have no vote.
- Section 14.12** The Chairperson of the Exam Board sends regular reports, with a minimum of once per academic year, on the workings of the Exam Board to The Board.

Article 15. Tasks of the Exam Board

- Section 15.01** The Exam Board is in charge of arranging (partial) tests and examinations and specifying results.
- Section 15.02** The Exam Board takes care of the organisation of (partial) tests and examinations and of good procedures during (partial) tests and examinations.

- Section 15.03** The dates and times for taking (partial) tests are set on time by or on behalf of the Exam Board.
- Section 15.04** The Exam Board rules within 10 working days whether a programme of educational units (modules), composed by an individual student at a previous institution will be approved (transfer credits). Such a request shall be submitted in written form, not more than one month after enrolment in a particular academic year and should be related to the educational units to be studied in that year. The Exam Board will adhere to the national attainment targets mentioned in Article 4 of these Regulations in forming the decision. See also Section 14.09.
- Section 15.05** The Exam Board appoints examiners who are in charge of taking (partial) tests. Only staff members in charge of education in the educational unit concerned can be appointed examiner, as well as experts from outside The Institute. The examiners give the Exam Board the information they ask for. Examiners shall always hold an academic qualification of at least Master level (used to be Section 23.07). Examiners must also have experience or qualifications in pedagogy or didactics equivalent to that of Dutch universities' BKO standard.
- Section 15.06** The Exam Board can give guidelines and directives to the examiners concerning the judgement of the candidate related to determining the result of the test.
- Section 15.07** The Chairperson of the Exam Board sends regular reports on the workings of the Exam Board to The Board at least once a year.
- Section 15.08** The Exam Board accepts all examiners of institutions contributing to the programmes and joint degree programmes through Wittenborg's institutional articulation agreements as approved examiners. Similarly, the Exam Board accepts all credits obtained by students through such articulation agreements as official transfer credits in the programmes.
- Section 15.09** The Exam Board mandates the Registrar with the decisions and administration of transfer credits according to standard ECTS guidelines (ECTS User's Guide, May 2015).
- Section 15.10** Upon successful completion of all degree requirements (Bachelor 240 EC, MSc 60 EC, MBA 90 EC) including the final thesis or dissertation phase, and after verification thereof by the administration, the Exam Board shall award the relevant (Dutch) Wittenborg diplomas or certificates and corresponding European diploma supplements to graduating students.
- Section 15.11** By awarding the diplomas or certificates mentioned in Section 14.08 above, the Exam Board confers the corresponding degrees to graduates as evidence of final graduation, conform the Act.

Article 16. Academic Complaints and Irregularities

- Section 16.01** Students have a right to question any academic decision by Wittenborg lecturers and examiners in writing to the Exam Board as ultimate resort. Such a request shall be submitted in written form, not more than one month after the decision was made. The complaint or request will be discussed in the first scheduled Exam Board meeting, and a decision communicated to the student within 10 working days after that meeting.
- Section 16.02** If a complaint involves a member of the Exam Board, the member in question will not take part in the deliberations or decisions concerning this complaint.
- Section 16.03** Exam Board decisions are considered to be final. For Appeals, see Article 17.
- Section 16.04** In case of fraud, plagiarism, self-plagiarism or any other irregularity or academic dishonesty by a candidate, the Exam Board may decide on any disciplinary action they deem appropriate and justified, including (but not limited to) an official warning, a reduction of the grade, or the decision that during a period of one year at most, this candidate is denied the right to take one or more specific (partial) test or examinations at The Institute.
- Section 16.05** If a case of fraud or any other irregularity should be discovered not until after the examination, the Exam Board can deny the candidate the certificate or diploma, or may rule that the candidate concerned can only receive the certificate or diploma after taking a new test in the educational units, in a manner to be indicated by the Exam Board.
- Section 16.06** Before deciding in accordance with Section 16.04 or Section 16.05 of these Regulations respectively, the Chairperson of the Exam Board or his/her designee can decide to hear the candidate. The Chairperson or the Secretary of the Exam Board informs the candidate straightaway of the decision, if possible personally and in any case in writing.
- Section 16.07** When the Chairperson of the Exam Board or the Exam Board takes a decision as mentioned in Section 16.01 or Section 16.05 of these Regulations respectively, the Chairperson of the Exam Board sends a copy of this decision to The Board.
- Section 16.08** At the discretion of the Exam Board, a policy of leniency can be introduced under particular circumstances.
- Section 16.09** In cases of serious violations of academic honesty, such as repeated cases of wilful deceit, the Exam Board may advise the Board to dismiss or temporarily dismiss the student. The Exam Board itself does not decide on expulsion or dismissal, whether temporary or permanent.
- Section 16.10** All complaints/appeals of a non-academic nature are not within the charge of the Exam Board and will be referred to the Board.

Article 17. Appeal

Section 17.01 A student who feels that an incorrect decision has been made by the Exam Board related to his/her examination, test or partial test, or related to a judgement or treatment while taking an examination or a partial examination, can appeal to the Board of Appeal for Graduation and Examinations of the Institute.

Section 17.02 Also, if a candidate contests a decision with regard to evaluation or with regard to dealings of supervisors during examinations, that candidate can appeal to the above mentioned Appeal Board. See the Complaints Procedure in the Education and Examination Guides.

Article 18. Provisions for physically handicapped candidates

The Chairperson of the Exam Board may allow a physically handicapped candidate to take a (partial) test fully or partially in a manner adapted to the possibilities that the physical condition of the candidate offers. In such case the Exam Board decides on the way in which the (partial) test will be taken, guided by the Dutch "Referentiemodel" of the Expertisecentrum Handicap en studie (2013).

Article 19. Exemptions

Section 19.01 The Exam Board, at the written request of a candidate and at the suggestion of the examiner concerned, may grant exemption from a (partial) test, mentioned in Article 8 of these Regulations, if one of the conditions occurs (to be mentioned below), related to the educational unit (module) concerned:

- (a) the (partial) test in contents and study load equals the (partial) test taken in an educational unit of another institution of higher education in the Netherlands;
- (b) the (partial) test in contents and study load equals the (partial) test taken in an educational unit other than higher education.

Section 19.02 If according to Section 19.01(a) of these Regulations an exemption is granted, the mark is fixed at 6.0.

Section 19.03 If according to Section 19.01(b) of these Regulations an exemption is granted, the mark is fixed at 6.0.

Section 19.04 In cases where exemption for a (partial) examination is given, as implied in Section 19.01 of these Regulations, under which the course administrators are not required to attribute a mark, according to the Education and Examination Guide and Module Guides, the term 'Pass' or 'Fail' will be used.

- (a) The period of validity of an exemption for a (partial) test is set by the Exam Board, and can be extended by the Exam Board.
- (b) If the Exam Board grants exemption as requested for a (partial) test, a "Proof of Exemption (Partial) Test" is sent to the requestor. This proof mentions the date

on which the exemption was granted, the name of the (partial) test, and the validity.

Section 19.05 Decisions as described in this article, are subject to 17 of these Regulations.

Article 20. Right of perusal

Section 20.01 Within a maximum of thirty days from the publication of the results of a written (partial) test, candidates, on their request, receive the right to inspect their assessed paper. They are also given, on their request, a copy of that paper at cost price, while the Exam Board may decide not to furnish any copies of test questions and assignments.

Section 20.02 During the period mentioned in Section 20.01 of these Regulations candidates can inspect questions and assignments of the (partial) test concerned and learn about the criteria which were the basis of the assessment.

Section 20.03 The Exam Board may rule, that the inspection or studying the criteria will be done in a certain place and on at least two fixed moments. If by personal circumstances (to be judged by the Exam Board) a candidate has not had an opportunity to peruse, the Exam Board and the candidate determine, for one more time, a new moment and place for perusal.

Article 21. Archives

Section 21.01 The Chairperson of the Exam Board sees to it that used (partial) test questions are kept for at least one year. The written (partial) test work and the reports on written and practical exercises will be kept for at least until the end of the period for appeal for that (part) examination.

Section 21.02 The Chairperson of the Exam Board sees to it that of each candidate the qualifications taken at the examination and the result will be kept in The Institute's archives at all times.

Article 22. Circumstances unforeseen

Section 22.01 In cases where these Regulations do not include any arrangement relating these circumstances, the Exam Board decides.

Section 22.02 In cases where these Regulations do not include any arrangement relating these circumstances and which require a prompt decision, the Board decides. The Board communicates this decision as soon as possible to the Exam Board and other parties involved.

Article 23. Final clauses

- Section 23.01** These Regulations are in force as of 31st August 2016.
- Section 23.02** These Regulations are subject to annual revision, in which, for the sake of control and possible adjustment of the study load, the amount of time resulting from this for the students will be measured. If Article 22 of these Regulations has been applied, this circumstance should also be measured.
- Section 23.03** These Regulations can exclusively be altered after written permission by the Board, respectively after determining the altered integral regulations.
- Section 23.04** These Regulations may be referred to as "Graduation and Examination Regulations of the Programmes of WITTENBORG".
- Section 23.05** The Board sees to the announcement of these Regulations to the candidates.
- Section 23.06** This version of the Graduation and Examination Regulations replaces all previous versions. These previous versions have all become void, unless the Chairperson of the Exam Board has agreed in writing to any other agreement.
- Section 23.07** Students have a right to complete their academic programmes under the degree requirements that existed at the time of their first registration, in as far as curriculum offerings allow. If programme changes are made that affect student programmes of study, every effort will be made to transition students into a new programme of study that meets the new graduation requirements. Students proceeding under revised academic policies must comply with all requirements under the changed programme.
- Section 23.08** Any articles or subsections, plus additional information as decided by the Exam Board, published in a separate document called "Wittenborg General Assessment Policy" (toetsbeleid) shall be deemed to be an extension of these regulations and part of all EEG.

GRADUATION AND FINAL PROJECT ASSIGNMENT HANDBOOK (MASTER)

1. INTRODUCTION

Introduction

This handbook is your official source of information about the graduation assignment. Its contents have been discussed and agreed at various meetings of Examination and Graduation Board with external members, tutors and administrative staff of Wittenborg as well as advice from external advisors. It is designed to provide you with general information and suggestions to help you complete your final graduation assignment successfully.

The Graduation Assignment provides you the opportunity to engage, in depth, with an area or issue of professional or intellectual interest. Writing the graduation assignment, a major piece of work, a Thesis, allows you to share that experience and to disseminate the results. Carrying out a graduation assignment provides an opportunity to read extensively, but with a clear purpose and focus, in order to develop fresh understanding of a specific question.

A Thesis must provide evidence of your ability to analyse complex data and to evaluate the implications of your results.

Your Thesis should include a reflection on the research process itself as well as providing a discussion of the problems and issues raised in the course of the study. You should also reflect on the limitations of your research study and suggest possibilities for the development of future work in this area, either in terms of more research, or practical implications deriving from this study.

A Thesis should be in a formal academic style, a style quite appropriate for many other reports in professional settings. It has certain conventions. The readers/viewers for your assignment will be other members of your particular academic community (students and tutors). It is not written for a non-expert audience, so you can, indeed should, use an academic style of writing and presenting.

Most research reports use roughly the same format. It doesn't matter whether you've done a customer satisfaction survey, an employee opinion survey, a health care survey, or a marketing research survey. All have the same basic structure and format. The important thing is that readers of research reports (i.e., decision makers, funders, etc.) will know exactly where to find the information they are looking

for, regardless of the individual report. Once you've learned the basic rules for research proposal and report writing, you can apply them to any discipline.

Aims and Objectives – Learning outcomes

One of the important purposes of Graduation Assignment is to introduce students to original research under the supervision of a personal Tutor. The main contribution of a Graduation Assignment is that instead of studying by way of a series of minor and highly-specified topics, the student is obligated to examine a sizeable topic for a much longer period of time and to learn to clearly define both the very question and the research findings. By the time a Graduation Assignment is completed the student can often claim to have mastered some aspect of knowledge and is much more aware of the processes of research.

In particular, you will gain experience with:

- formulating a research question and research objective
- making critical use of relevant literature,
- selecting and using appropriate research methods in your research design to conduct research
- analyzing and interpreting results and conclusions, and
- organizing and presenting material in a clear, logical, convincing way
- Learning Outcomes
- By the end of this module students will be able to:
- complete a relatively in-depth research project
- demonstrate a good knowledge of the subject area and the ability to interpret that information
- produce a coherent, well structured, analytical graduation assignment
- ability to define and plan a workable research project to meet given research objectives
- knowing how to carry out an adequate literature review as a major ingredient to one's Master level graduation research project and final thesis
- knowing how to design a research: defining feasible objectives, presenting a helpful conceptual model and describing the methodology that is to be used.
- ability to indicate the strength and weakness of a particular research design.
- ability to define a research as a manageable project whereby involving the relevant stakeholders and possible contributors
-

You will work with your Research Methods and Final Project module Lecturers and your Final Year Tutor to agree on a suitable graduation assignment topic. A general timetable for the work will be set out and a proposal will be submitted. This must be approved by the Research Methods and Final Project lecturer/ team as part of the module evaluation, as well as approved by the MBA Tutor and before you embark on the graduation assignment itself.

Learning Outcomes Linked to Final Qualifications MBA

Mapped with Programme Learning Outcomes: 7, 21, 22, 23, 24, 25 and 26 (see p. 10-11).

This is direct mapping of the final qualification for this module. A student will achieve the overall qualifications for this programme after successfully completing the final project / graduation assignment.

See the Education and Examination Guide (EEG) for further reference.

Prerequisite of the Graduation Assignment

Normally you will be admitted to the Graduation Assignment after having gained at least 40 study credits. However, a student must complete 60 credits to present the final graduation assignment. In addition, you have successfully completed the Research Methods and Final Project Module for which the learning outcome and/or final product includes a Research Proposal for Graduation Assignment (see details in the Research Methods Module Guide). You are expected to have demonstrated in your previous work the capacities necessary to successfully complete a graduation assignment and to show that your choice of topic is appropriate for such an assignment.

Submission of Graduation Assignment

A student is only allowed to submit a final version of their Graduation Assignment if the following conditions have been met:

- Student has obtained all EC Credits except for those of the Graduation Assignment
- All liabilities like library books and any other borrowed materials are returned by the student
- There are no financial dues to Wittenborg University by the student
- In order for your Graduation Assignment to be marked, you have to fill a clearance form and get an official approval from the concerned office(s) (filled in Clearance Form).

Study Load

The Graduation Assignment will be expected to include a substantial amount of original theoretical, analytic or empirical work and be 12,000 to 15,000 words in length excluding appendices. Precise details about the length of all types of Graduation Assignment are given below.

The Graduation Assignment module is worth of **30 EC credits**, which is equivalent to 840 hours of work. The Final Project research & editing time spans 1 full semester (term) which is ½ a year. This includes reading, research, field study, writing, review, and defence.

Methods and Instruments

Teaching and Learning Methods

You will work on your own for writing the Graduation Assignment. This will be supported by regular timetabled tutorial meetings with your MBA Tutor at which you will be expected to produce such work as the Tutor and you shall from time to time agree.

Assessment Instruments

You will be required to demonstrate that you have a good knowledge of the subject area and a clear plan for a Graduation Assignment by producing a Research Proposal and a Literature Review in the area on which you are conducting the research. You will be required to reach a Pass level in these parts of the assessment before you are allowed to proceed with the complete Graduation Assignment. The Graduation Assignment will be assessed for its demonstration of knowledge of the subject area, the ability to apply theory to practice, the range of material used, the originality of the material presented, the addition of new knowledge, solution(s) for any research issues/problems and the demonstration of research and presentational skills.

Graduation

In order to proceed for Graduation Assignment presentation and defense to successfully graduate, students have to submit completed clearance form mentioned in section 2.1.

On the following page is shown what the final qualifications are of the International Master of Business Administration, the achievement of which should be apparent on the completion of your Graduation Assignment, which is the last step towards your degree.

Compulsory and Recommended Reading

- Research Methods for business students, M. Saunders, P. Lewis, A. Thornhill. (ISBN 978-0-273-71686-0)
- Marketing Research by Burns and Bush. (ISBN 0-13-147732-3)
- Case Study Research: Design and Methods, [Robert K. Yin](#), Sage Publications, 2003, ISBN 076192552X, 9780761925521.

- Articles and literature provided in the Research Methods and Final Project module.
- Research Proposal (RP)

Preparing a research proposal is a very important part of the research process. The research proposal outlines your research topic, objectives, main research question, methods and so on. Your research proposal is part of your Research Methods Module and it requires approval from your MBA tutor before you start your actual research. In the next section you will find some guidelines for writing a research proposal.

Guidelines for Research Proposal

To be considered for registration for a final research project (Graduation Assignment), all students must submit a research proposal that outlines their intended research. You only can submit your research proposal if you have attended the Research Methods module as RP is the sole outcome/product of this module. Research proposals should be presented under headings that provide the title and summary of the study as well as addressing each of the points listed below. In addition you can use the research proposal templates.

Title of the study - The title can be a working title in that it can be changed at a later date. It should convey the essence of the proposed work.

Purpose of the study – a clearly focused statement of the overall purpose of the proposed research.

Relevant background literature – a section outlining key research that has already been carried out in the particular area.

Research questions or hypotheses – clearly focused research questions/hypotheses that are worth asking and capable of being answered.

Definitions of key terms – precise definitions of the key terms in the research question/s or hypotheses, enabling unequivocal observation, measurement and identification throughout the study.

Research methodology – an appropriate choice of research approach for the particular questions or problems under investigation, including a well-defined list of procedures to be followed in carrying out the research, as well as the method of data collection and analysis, and, if appropriate: a broad description of any particular theoretical framework to be used in the analysis and the reasons for its selection in the study; a brief statement describing how the study population will be selected for the study and the reason for the approach to selection.

Significance of the research – a statement that illustrates why the research question or hypothesis is worth asking.

Ethical considerations – consideration of ethical issues involved in carrying out the research such as whether informed consent needs to be obtained and, if so, how this will be done.

Timetable for the research – a proposed timetable is extremely important because it gives an indication as to the feasibility of the proposal.

Anticipated problems and limitations – a section that highlights any anticipated problems and limitations in the proposed study, including threats to reliability and validity and how these will be countered.

Bibliography – a list of references relating to the proposal.

Appendices – (if appropriate), which contain any material that will be used or adapted for the study, including any permission that might need to be obtained to use it.

The Graduation Assignment (Final Project)

The following highlights the commonalities associated with any type of Graduation Assignment:

A research project is a sustained investigation of an important topic, area or issue relevant to your programme of study. It will demonstrate an up-to-date understanding of developments concerning this topic, area or issue. If possible the concept should be original or you should investigate an issue using one of the methodologies/models contained in your programme.

A research project is not merely a collection of all the information that you can find concerning a particular topic. Instead:

- It seeks to explain how something works, or why something happens in the way that it does, and/or,
- It critically compares existing practices, knowledge and understandings, and where possible attempt to discover and conceptualise new information and knowledge.
- For your research project you should select an issue that you can pursue in depth; one which allows you to analyse existing ideas, theories and concepts, and through original research contribute to debates and knowledge relating to the subject in question.
- The topic should always be placed within the context of the disciplinary domains that you have developed in your study to date.

The graduation assignment is a substantial piece of work leading to the production of a thesis normally of between 15,000 to 25,000 words, excluding appendices (the word thesis here covers all written submissions which will vary in style content and size depending on which type of project is adopted).

Depending on the type of project selected some word counts may be less than 15,000 but this will be agreed between the MBA Tutor, and student.

Above all, the final project is an opportunity for you to explore an area or topic that you find interesting and important. It is much easier to keep your motivation high if you find your dissertation topic inspiring.

There are three main types of assignments: dissertation, applied business assignment, and a creative project, which can be developed in different ways.

The next sections 2.1 to 2.3 identify the key types of research assignments. You need to be clear at the beginning as to the type of assignment you will be undertaking as the guidelines and final output will be significantly different. It is important that you acknowledge which type of assignment you intend to pursue at the earliest opportunity, normally when you submit your Research Interest Form so advice and guidance can be offered by the Tutor and potential supervisors. Refer to Table below which identifies and summarises the key component parts of each type of project.

The Dissertation Assignment

This type of assignment will include a critical review of relevant literature plus independent primary research carried out by you:

- Wherever possible the literature review should be based upon academic books and manuscripts (normally not general textbooks), official statistics/reports, and if possible, articles in refereed academic journals. It should critically compare and evaluate relevant concepts, models and theories.
- The primary research should normally involve you in the design of an independent primary research project integrated with the subjects of your literature review. You will need to set its overall purpose, plus its aims and objectives, and to choose relevant research methods.
- The primary research itself can use one or more of a variety of methods, including quantitative sample surveys, and qualitative methods such as interviews, focus groups, and participant observation.
- If a sample survey is used, you will be expected to select and justify the sample population, discuss sampling frames, design your questionnaires, conduct pilot surveys, and analyse your findings.
- If qualitative methods are used, you will be expected to select and justify your qualitative methods (e.g. interviews, observations, focus groups, discourse analysis etc) and analyse your findings.
- If analysis of original archive data is involved, you will be expected to identify and justify relevant archive data, and critically analyse the data.

Applied Business Assignment

The applied business project has two types under this category: the business plan and a consultancy assignment.

Business Plan

This type of project is grounded in business problem solving and practices, but still needs to engage fully and critically with an accepted body of knowledge. This project will involve the identification, development, justification and presentation of a business concept or opportunity in a predominantly written format. The project will utilize secondary and primary research methods to investigate the theme, topic or issue upon which the concept or opportunity is grounded. The project must address the feasibility of and planning for the implementation of the concept or proposal and make clear recommendations for action. The project will utilize your entrepreneurial, research and management

skills and will require significant knowledge and application of underlying disciplinary domains that you have developed in your study to date.

The project must be grounded in an industry sector in which you have in depth knowledge and detailed understanding, so that you are able to combine theory and practice to solve problems and create new products. The output from this project will be a written report that includes all the data and narrative that would support a business plan suitable for potential investors or financiers; however it must also include a clear academically grounded discussion and justification for the concept or proposal in addition to the normal business orientated business and market research.

Consultancy Assignment

Consultancy is normally defined as an independent and objective advisory service provided by a qualified person(s) to a client (company and/or organisation) in order to help them identify and analyse problems and opportunities. A consultancy assignment also recommends solutions or suggests actions with respect to the identified issues and even provides help to the company and/or organisation in the implementation of solutions. Clients are not necessarily interested in the academic context that may underpin a consultancy assignment; they tend to be more interested in the data or market research collected and recommended strategies for a way forward. It is envisioned that while you may deliver a typical piece of consultancy to a client, you must submit a project to Wittenborg that demonstrates its academic underpinning. This may be something similar to a literature review that is included as part of a typical dissertation.

Students will be responsible for finding a commissioner/client who may wish to have a piece of consultancy undertaken (grounded in a related industry sector). The consultancy should be related to a subject in which you have in depth knowledge and detailed understanding, so that you are able to combine theory and practice to solve problems and suggest ways forward. This needs to be approved by the module teacher of Research Methodology and/or your tutor and company supervisor. A typical consultancy project would have a commissioner/client identifying the terms of reference and the student consultant submitting a proposal to identify how they would respond to the proposed project's overall purpose.

A proposal normally acts as a contract between the consultant and commissioner/client and identifies key deliverables such as agreed primary data collection and timings associated with interim draft and final reports. These deadlines must be coordinated with Wittenborg's due dates for Graduation Assignment. Once the commissioner/client and Wittenborg accept the proposal the student will work with the commissioner/client and under the supervision of a Final Year Tutor. The student shall submit

the final piece of consultancy to the client, which may or may not include the academic literature that underpinned the piece of research. At the same time, the student must submit the consultancy project to Wittenborg and which meets the typical contents as identified on p.229.

Research Assignment with Creative Output

This type of assignment will result in a significantly different output to what has been outlined above. You may wish to design a research project where the final output is a combination of a written thesis accompanied by some form of creative output. For example, a visual portfolio, simulation game design, an exhibition of photographs or a film generated by the student to underpin the theoretically informed written thesis. With such a project there may be a reduction in the word limit of the written thesis to take account of the accompanying creative output. The word count guidelines will vary according to the nature of the project undertaken and will form part of the proposal in discussion with the Final Year Tutor. However these must be in the ranges given in the table below. The Final Year Tutor, Field Specialist and student will agree the final guidelines on word count.

Advice on Commissioned Research

Whatever type of graduation assignment chosen, you may focus upon a problem or issue of interest to a particular organization, which may help you to complete it in various ways. In such cases it should be clear that:

- The research assignment will be assessed on the basis of the same criteria outlined in this document (Final Project Handbook)
- The copyright to your research and to any findings discovered during the course of your project research rests with the Wittenborg University.

In some cases, the research for your research assignment may be 'sponsored' by an external organisation. Such sponsorship can take a variety of forms, which may include:

- Privileged access to information.
- Help to conduct market research surveys etc. within the organisation.
- Payment of expenses relating to the research.
- Payment of a fee to you as a researcher.

In return for the sponsorship, the commissioner/client may expect their own copy of the research project, or a client report. This is entirely your own business, and does not affect in any way your requirement to submit two copies of your research assignment for assessment as part of your degree.

Our policy regarding this type of sponsored research is as follows:

If Wittenborg is contacted by a commissioner/client seeking a student researcher, or mostly commonly seeking an internship student with a research question accompanied, this opportunity will be advertised and commissioner/client will be expected to select a suitable person from amongst those who apply.

If you are approached directly by a commissioner/client, whilst you would be expected to discuss this with your Final Year Tutor, the sponsorship arrangement is your own business.

Client satisfaction or dissatisfaction with your research will not be taken into account in the assessment of your research project. Your research project should meet the rules and regulations laid down in this Handbook.

You must state on your acknowledgement page if your project was sponsored, and must state the name of the sponsoring organisation or individual, and the nature of the sponsorship. Also, you must identify how the results will or may be used by the sponsor.

Projects may, at the sponsor's request, be marked confidential – in that case the specific results deemed sensitive by the sponsor will be seen only by the assessors and copies of the report will not be made public.

The Style and Layout of the Graduation Assignment

The Written Style of a Graduation Assignment

Master level thesis should be presented in ways that serve the particular purpose of the research. All research results in the production of a graduation assignment, although the word limit may vary depending upon which type of project you undertake. Above all, the written thesis should be clear and concise, and written to inform rather than to entertain. Avoid too many numbered sub-headings in chapters as this affects discussion & integration (remember you are not writing a report). Be careful about the type of language that you use. Generally try to adopt the style of writing in a typical academic paper in your area of study.

While you are writing, you should always have the potential reader(s) in mind. You are not writing for members of the general public, but rather for the professional field where the research is based upon. Some advice on writing style is given below:

NORMALLY a thesis is written in the third person, i.e. 'it was discovered', 'the findings indicate', 'this thesis aims to'. The first person 'I' can be used if it is part of a quote from your primary or secondary research. However, you may choose to write the whole of your thesis in the first person but you must understand the intellectual rationale for doing so and be able to support your use of 'I' by drawing upon relevant literature. This needs to be done in consultation with your supervisor.

- Never use a metaphor or simile that you are used to seeing in print. In other words, avoid clichés like the plague!

- Never use a long word when a short one will do. If it is possible to cut a word out, always cut it out.
- Never use a foreign phrase, a scientific word or a jargon word if you can think of an everyday English equivalent (obviously you will tend to use some scientific and jargon words in a thesis, but always explain terminology and acronyms and avoid trying to show off).

Some general points:

From the very beginning establish an overall research aim (or set of aims) for the project that you can state in less than 25 words. Make sure that everything in the thesis is relevant to this aim, and that your research methods are appropriate for it. The aim should not normally be simply to describe something. Rather you should seek to improve the theoretical understanding or practical application of the phenomenon under investigation/research.

Your objectives should be chosen and designed to achieve your overall aim (or set of aims). They should have a clear logical structure and should be related to each other. If you have more than one aim then you should set objectives to meet each aim set. **The first objective** will normally relate to the general academic context in which your research is set e.g.: marketing, human resources, quality, logistics, motivation, commitment etc. **The last objective** will normally be an outcome objective, the so what? test.

Begin each section or chapter by setting it in the context of your aim(s) and/or objectives and state how it follows on from the previous section.

- End each chapter by summarizing key themes/arguments and by stating how it leads into the next chapter.
- Make sure your findings are laid out logically, step-by-step.
- In general, guide the reader through the thesis by telling her/him what you are doing.
- Use the Layout of a Typical Graduation Assignment

Let's go through each of these in a little more detail. Remember some of these sections below may not be necessarily included in your final submission depending upon the type of graduation assignment you chose to complete (refer to the table below to see summary of which sections may be relevant for your Graduation Assignment).

The Title Page

This should contain the title, which should be indicative of the subject matter (but not just a prosaic description of the subject matter). Have a look at other graduation assignment and/or research dissertations in your field of study for possible examples of appropriately worded titles. On each copy of your thesis the title page should also include your full name and student number, your course, institution, and the date. Nothing else should appear on the title page.

The Abstract

This is a short paragraph, which effectively summarises the main aims, methods used, findings, conclusions and recommendations. It should be no longer than 200 words and be written on one page maximum. Obviously the abstract would be one of the last parts to be written.

An Executive Summary

An executive summary is normally included for a consultancy/business plan. The summary should highlight key findings from any primary data collected and recommended strategies and/or solutions. The summary should be written in a way that brutally highlights the contents of the report, and can range from 1-3 pages.

Acknowledgements

It is traditional to acknowledge and thank those who have been of particular help to you in completing the project. It is equally traditional to acknowledge that any errors or omissions are your sole responsibility. You must also state in this section (at the bottom of the acknowledgements page) that..."I confirm that this project is my own work and no part of it has been previously published elsewhere or submitted as part of any other module assessment".

Also, the acknowledgements must include notes about sponsorship if indeed you received some help or financial aid from an organisation or individual.

One final criterion that must be identified at the bottom of the acknowledgements page is the word count. The word count for a standard research dissertation is 12,000 – 15,000 words. Where a thesis is accompanied by material other than written form the word count guidance will vary. If you are undertaking the assignment with creative output then a reduced word limit may be agreed with the tutor and the supervisor for the written aspect of the project. The Business Plan style submitted to Wittenborg should be within the 12,000 – 15,000 word range; however, the student may supply the commissioner a separate report that is outside of this range. Whatever the nature of the thesis, the agreed word count will be strictly adhered to. Any Graduation Assignment outside of the leeway will be penalized (up to 0.5 marks). The word count includes all text within the main body of the thesis, not including the abstract, acknowledgements, table of contents, references, tables and figures, and the

appendices. We will be able to check your word count, when you submit your Graduation Assignment online through Wittenborg-Online. The word count will be considered as part of the technical requirements for a submitted thesis. If you do not submit a completed graduation assignment meeting the technical requirements, a total of 0.5 marks will be taken off your final mark.

COUNTING THE WORDS: For example, you have a sentence like this in your project:

A number of studies (Anderson and Smith, 2011; Jones et al., 2009; Murphy and Johnson, 2010; Norris, 2009; Smith et al., 2011) have recently explored the socio-cultural impacts of event visitors at Mardi Gras in New Orleans.

...you do not include the authors in the brackets as part of the word count but you include the other words (a number of studies....have recently explored.....

All quotes are part of the word count whether as part of the literature review or primary data, thus a sentence like this:

According to Anderson and Smith (2011:34) the "social-cultural impacts of Mardi Gras are most keenly felt among residents in the French Quarter."

...the word count is everything in the sentence except for Anderson and Smith (2011:34), 18 words not 22.

The Table of Contents

This should be written on its own page(s) and should show chapter/major section headings and page numbers. The preliminary sections (Abstract, Contents list etc.) are numbered with small Roman numerals (i, ii, iii, etc.). Page numbering in Arabic numerals (1,2,3 etc.) usually begins with the thesis itself (i.e. the first page of the Introduction chapter etc.). The title page is not numbered. Tables and

figures should be numbered consecutively throughout the thesis. You may want to number tables/figures starting within each chapter (e.g. Table 2.1, 2.2, 3.1 etc).

Glossary

Sometimes used by students and not mandatory, a glossary is a list of technical terms, esoteric terms or acronyms and their meanings. If you include any of these, it is helpful to the reader to include a glossary either at the beginning of your thesis or at the end. (If required, may be included at the start of the thesis before the first page of your introduction chapter, and after the lists.)

The Introduction

This first chapter should contain:

An outline of the purpose of the assignment (what type of assignment you are undertaking). Where applicable you should also outline the rationale for your topic or concept, including reasons why you decided upon the area of your research. Include brief details of knowledge and concepts that have inspired your interest (and which will be discussed in detail in the next chapters). You may like to include brief details of your topic focus, for example profile/general information of a company, an organization, an industry, etc.

- The aims and where applicable objectives of the assignment (make sure you show how it hangs together: reveal its logic and structure).
- For the applied research where the commissioner or client is involved, please include the original terms of reference from the commissioner or client that demonstrates the overall purpose of the work.
- A brief introduction to your chosen methodology. For each aim/objective, have a method for achieving it.
- A very brief outline of the content of each chapter.

The Literature Review

This second chapter may comprise one or two chapters depending on your topic and it comprises the academic underpinning for your whole Graduation Assignment. It should demonstrate that you have conducted a thorough investigation of relevant secondary sources, understanding, outlining, comparing and discussing key ideas, explanations, concepts, models and theories. You are expected to demonstrate your understanding of the material, not merely describe what various authors have said. You should present these issues in a systematic, well-structured and logical sequence. Do not use too many sub-headings as these interrupt the flow of your work. You will be expected to use prominent and up-to-date academic books (normally not textbooks). In broad terms, the results of this secondary research should provide you with ideas as to what you might find when you conduct your primary

research. As such, you should make sure that the findings of your literature review are relevant for your planned primary research and vice-versa. For example, any questions asked must relate to the issues identified in your readings. You should be prepared, therefore, to critically compare and contrast your secondary findings with your primary research findings in the main analysis chapter. References to secondary sources should be given in the text, not just for quotations, but wherever ideas and information drawn from the work of others is used. If sources are not acknowledged this will be considered as plagiarism.

As previously stated, commissioner/clients may not necessarily be interested in the academic underpinning or theory that may contribute to a business startup/business plan project. However this literature must be included in your submission to Wittenborg. You need to carefully discuss with your commissioner/clients as to whether they want an academic 'literature review' included in the submission to them. This is not to be confused with non-academic sources, such as government statistics or market research reports, which would normally be included in consultancy work and would be referenced accordingly, and included in any submission to the commissioner/clients. Your concept for the Business Plan project must also be discussed within a wider academic context although investors may not normally be interested in this underpinning. However your Business Plan submission to Wittenborg must be contextualized within current contemporary theoretical debates by utilizing (if any) relevant models/theories from your general modules and especially the financial analysis should be completed for example using GAAP.

Research Methodology and Methods

The discussion of research methodology and methods can be a separate chapter or a section of the chapter in which you critically analyse your findings. However, whichever is selected it should clearly show how the methods chosen relate to the aims / objectives and to the literature review; your method(s) is(are) decided upon the basis of these. The section on methodology should include a *rationale* for the choice of methodologies for instance research approach, research strategy, data gathering and data analysis. In the rationale you should consider what alternative methodological tools might have been employed (particularly those which related studies have employed), together with their advantages and limitations for your research. For instance... Why did you choose to conduct a survey instead case study and vice versa, why qualitative or quantitative research approach.

Remember that your methods should critically relate to issues identified in your literature review. As part of your final write-up, you may want to provide an in depth reflection on the research methods chosen.

As discussed in the relevant lectures, it is also important to consider the issue of ethics in relation to the collection and use of your primary data. Ethical considerations are on-going throughout the graduation

assignment process in terms of being an aspect you must always bear in mind. For example, you will have to consider whether you need to keep the names of any people interviewed or surveyed anonymous and you must make it clear to interviewees or respondents how you will use the information they provide. How will you 'use' any visual data such as photographs or films? What ethical considerations might there be in the uses to which such data is put? If you have collected any data from a company or organisation, are you allowed to use the name of the company or the name of the individual(s) interviewed? Will any respondents that take part in the data collection be 'harmed' in any way? Many students discuss ethics generally in their methods section but then fail to discuss how ethical issues relating to their research were actually addressed during the primary research stage.

When working with a commissioner/client, a consultant (i.e. you, the student in this case) would normally seek feedback and approval for any primary research instruments that would be used as part of the research process. Creative Output Assignments may not have traditional research methods sections that discuss survey or interviews undertaken; however, they may include a discussion on methodological considerations such as your philosophical viewpoint with regard to how you positioned yourself within your project, or why you think discourse analysis was appropriate. Careful thought will be required as to whether these types of projects will include a methodology discussion and in what format and this will need to be discussed with your Final Year Tutor and/or module lecturer of Research

Methodology.

Your Primary Research Findings (Results Chapter)

This section reports on and discusses the findings of the study. The findings, their critical analysis and conceptualisation should be presented section by section in a systematic, well-synthesised and logical sequence. All your findings should, of course, be directly relevant to your aim/s and objectives. Consider the extent to which the reader can rely on your findings. Put any tables or graphs that you decide to use in a relevant part of the text, not in an appendix, and describe and discuss them there to provide as an evidence for your findings/conclusions.

The discussion of the results should be well argued in relation to each research question or hypothesis. Inferences, projections, and probable explanations of the results should also be included. If any, discuss the implications of patterns and trends, and include any secondary findings.

This section should be soberly argued, especially when you are dealing with controversial or complex issues or concepts. Whenever a claim is made, it should be backed with argument and evidence (whether from your own research or that of others). The result of this discussion will give you the main conclusions of your research (see below).

Consultancy project primary findings should be related to wider academic materials in the submission to the School; however, the separate submission to the client may not necessarily include this element.

Business Plan

Your plan should have a thorough analysis of the market and business environment appropriately related to your selected concept. This will be grounded in secondary sources such as market research reports, national, regional and/or local government statistics and reports, in addition to wider academic sources as mentioned previously. Your concept associated with the Business Plan should be a plan in the form of a mission statement, marketing plan, management team and roles, financial data and budget forecast, legal and insurance requirements, and the role of other key stakeholders in the proposal. It should also thoroughly discuss the feasibility of the concept.

Conclusions

This section should be a succinct critical synthesis of the main findings of your research. You need to demonstrate explicitly how and to what extent you have achieved your aim(s) and objectives. You may need to highlight and critically discuss any differences between your actual findings and what you expected to find at the outset. Indicate how your research has helped to move issues / debates forward or has helped to redefine existing knowledge and concepts. Your conclusions should follow logically from your findings and be supported by them. In particular, they should not contain anything new which was not in the findings.

Recommendations/Strategy (if any)

Where an MBA Graduation Assignment results in recommendations or a suggested strategy these should be appropriate, reasonable, and capable of being implemented. Some recommendations and strategies may have attached time lines and identify who is responsible for implementation. List them in logical order and ensure they follow from the evidence and conclusions of the findings. Not all assignments will have recommendations; some will produce concluding statements/analyses of the phenomenon under investigation, where appropriate identify areas for further research.

For consultancy project the recommendations will form a crucial part of the project. The commissioner/client is seeking your expert advice as to solutions or ways forward and will expect a series of recommendations, normally associated with a timeline as to when these need to be implemented in a logical order. Associated costing may be attached to each or some of the recommendations. Remember to keep recommendations feasible and grounded in your primary data. Business plans may also contain recommendations associated with timelines and costing, and who may be responsible for particular aspects.

Bibliography/References

The bibliography includes all references that were used in the research process. Any citation in the bibliography must be cited at least once somewhere within the Graduation Assignment. Do not 'pad out' the bibliography with sources never cited with the text – this is an important academic convention that must be adhered. References must be in the appropriate Harvard style. Details are included below.

Appendices

Education & Examination Guide
Wittenborg University of Applied Sciences
Graduation Assignment & Final Project Handbook (Bachelor)

You must include a copy of your original or modified proposal in your appendices. As the research process evolves throughout the project, some students may find that they need to amend, add or change some of their objectives. This maybe because issues they were not aware of have emerged during the in depth literature review stage. This is fine, as long as you keep your Tutor informed and obtain their approval for any changes made; major changes will be reviewed by the Research Methodology Module Lecturer as appropriate.

The Appendices can be used to present information which is too detailed to include in the main thesis and/or information that is interesting but not essential to the main thrust of the thesis, such as an original copy of a questionnaire, and transcripts of some qualitative interviews (although you do not have to transcribe all interviews and include them here). Each Appendix should be given a title, a letter (A, B, etc.) and the page numbering continues on from your bibliography. They should be included on the contents list. Normally, you should not include brochures, photocopies of articles, letters you have sent to interviewees and in general material that you have not written yourself.

Table 3.1 Guide to Typical Contents of a Graduation Assignment

Guide to typical contents of a thesis	Dissertation	Applied Business Project		Creative Project
		Enterprise Plan	Consultancy Project	
Title page and official front cover	X	X	X	X
Abstract	X			X

¹. The exact nature of your methodology will need to be discussed and agreed with your Tutor and Field specialist

Referencing Your Sources

References refer the reader to the source of specific information, ideas, quotes, figures, tables that you have used in your dissertation. All sources listed in your bibliography must be cited at least once somewhere in the main text of your dissertation, in other words do not 'pad' your bibliography with sources not clearly used. These **must** be included whenever you use anything drawn from other sources. It is looked upon very seriously if you do not reference your sources. Quoting a reference helps

to support the point you want to make. It indicates the basis for your opinions and clearly shows how you have reached these opinions. Useful phrases include: 'according to Smith (2007) many managers believe service quality.....', 'research has revealed the importance of..... (see Jones 1985; Peters 1997)', or 'many academics (Jones 1997; Smith 2007 Zikmund 2009) debate the influence of globalisation...'.

Wittenborg insists that students use the Harvard referencing system due to its simplicity and overall acceptance in academic writing.

The Harvard system

The authors' names are given in the text together with the year of the work to which you are referring and, where appropriate, the page numbers (always included for direct quotes).

For example:

Many academics (Cooper *et al.* 1993; Ryan 2004; Smith 1996) explain the benefits and costs that can be expected from tourism development. Ryan (2004) identified that tourism is an obvious source of foreign exchange and particularly useful for developing countries to earn hard currencies such as dollars, euros and sterling. Jones (2002: 323) identified that in Sri Lanka "tourism is a significant contributor to the overall economy, worth 17.6% of the GDP in 2001". Smith (2007: 42) emphasised the potential of tourism to earn foreign exchange:

Commodity trade, which is the principal foreign earner for most developing countries has not provided a revenue growth to match the increase in the imports bill. Import substitution and local processing can provide a means of saving or earning but many countries run the problem of limited domestic markets or restricted access to foreign markets...

Negative impacts of tourism can include:

- The emphasis on the economics of tourism, especially its benefits, reflect the widespread belief among agency personnel that tourism can yield rapid and considerable returns on investments and be a positive force in remedying economic problems (Jones 2002: 13).
- Jones (1979) as cited in Smith (1995: 88) mentioned tourism has many other benefits as well. The National Trust (2010) and IEG (2009) are two organisations that have compiled statistics on the economic impacts of tourism related to specific events. However, Johnson (2008: 34) stated the "National Trust is a primary example of an organization that systematically undervalues the economic spending of its visitors by 5-10%." Despite this, the National Trust is well aware of the importance of visitor spending (interview with Jane Smith of the National Trust, 2010).

Notes:

For direct quotes used, always cite the page number e.g. Smith (1995: 42).

References to personal communications/interviews that you have carried out appear parenthetically: . . . as detailed above e.g. (interview with the Minister of Tourism in 2010). NO further details are included in the bibliography as you are referring to your own primary research results, (underpinned by the discussion of your research methods).

Direct quotes of more than 40 words should be indented on a separate line from the main text (as in the examples above – notice the lack of “quotation marks”). Quotes of less than 40 words should be incorporated into the text differentiated by double “quotation” marks (as above with Johnson).

Web pages cited should only be the author/copyright of the article or web site (do not put in long web addresses within the text). Then in the bibliography, put in the full web address as part of the reference citation. Do not forget to mention the date on which it was retrieved/ accessed.

Bibliography examples (alphabetically ordered by surname or name of author (including organisations if not a person). Do not separate bibliography under ‘books’, then ‘journals’, then ‘newspapers’. All citations go under one long list, alphabetically ordered. When we say alphabetically ordered it does NOT mean you change the order of the names of the authors as written in the source (eg. Saunders, M., Lewis, P. and Thornhill, A. (2009) *Research Methods for Business Students. 5th edition*. Harlow: Prentice Hall – DOES NOT BECOME Lewis, P. Saunders, M..... or reference as Lewis et al 2009 in text, it is always Saunders et al because this is the way the book is cited). You can underline the title of the book or you can use *italics* but choose and pick one style and be consistent.

Books:

One author -

Smith, C. (1995). *Tourism and the Environment*. London: Pitman.

Two authors -

Smith, C. and Jones, A. (2003). *The Economic Benefits of Tourism*. Guildford: Open University Press.

Three or more authors, list all 3 authors but in text cite as Smith *et al.* (1996).

Edited text.

Collins, P. (ed.). (1994). *The Joy of Tourism*. New York: Smith Publishing Ltd.

Author from edited book (author and editor different) -

Fuller, R. (1970). 'Formula for a floating city', pp. 103-114, in Dunstan, M.J. and Smith, E. (eds.). (1970). *Worlds in the Making*. New Jersey: Prentice-Hall.

Unknown Author -

Tourism in Devon in the Early 20th Century. (1905). Exeter.

Journal -

Lundberg, M. (2008). 'The benefits of travelling abroad'. *Tourism Management*. Vol. 14, No. 2, pp. 16-24.

Note: Using Sources from another language -

This is completely acceptable however you must provide the reference in the foreign language and then in (brackets) indicate the English translation so that the reader can see what type of source has been used (journal, book etc).

Newspaper -

Smith, C. (2009). 'Tourists wreak havoc in Cornwall'. *The Guardian*. 24 February 2009, p. 5.

From an Interview -

References to personal communication appear parenthetically:(interview with the Minister of Tourism in 2008) within text if part of your primary research.

From the Internet

– try to see who is the author of the website, whether a person or a company or government agency – e.g. within text cite only IEG Inc. (2010) or National Trust (2010).

- IEG Inc. (2010). 'Sponsorship Monitor' [online]. Chicago. Available at: URL:<http://www.sponsorship.com/products/primer.html> [Accessed 6 January 2010].
- National Trust (2010). 'Nostell Priory Reopens its Doors' [online]. London. Available at: URL:<http://www.nationaltrust.org.uk/scripts/wapis.isa> [Accessed 1 March 2010].

An increasing amount of information is becoming available in a variety of electronic formats. If you cite a journal that is available online (but also on the shelf of the library for example) you do not need to cite any URL address, just cite the reference as if you picked it from the shelf. We do not care if you read it

online or from the shelf. Our view is that electronic references are not so very different from the hardcopy formats commonly used.

Books from Internet

- Bird, Isabella L. *A Lady's Life in the Rocky Mountains*. New York, 1881. *Victorian Women Writers Project*. Ed. Perry Willett. 27 May 1999. Indiana U. 4 Oct. 1999 <<http://www.indiana.edu/~letrs/vwwp/bird/rocky.html>>.
- Bryant, Peter J. "The Age of Mammals." *Biodiversity and Conservation*. 28 Aug. 1999. 4 Oct. 1999 <<http://darwin.bio.uci.edu/~sustain/bio65/leco2/b65leco2.htm>>.
- Harnack, Andrew, and Eugene Kleppinger. Preface. *Online! A Reference Guide to Using Internet Sources*. Boston: Bedford/St. Martin's, 2000. 5 Jan. 2000. <<http://www.bedfordstmartins.com/online>>.

Citing E-Journals and other electronic sources

Some materials now are only available online and not in printed forms in the library. Here you must cite the URL address as part of the reference within the bibliography. Example:

- Coyle, M. (1996). Attacking the cult-historicists. *Renaissance Forum* [online], 1(1). Available at: URL:<http://www.hull.ac.uk/renforum/vlnol/coycle.htm> [Accessed 16 June 1998].
- Albers, J. (1994). *Interaction of colour* [CD-ROM]. NewHaven: Yale University Press.

One common query about referencing concerns references to texts/authors from a second source. If you are quoting a source second-hand, that is, you have not read the author/text referred to yourself, but have come across the information in a text you did read then the following example shows you how to present the information in the text:-

"Smith (1998: 124) discusses the work of Patterson (1996) who argues many of the established theories on staff recruitment and development are very unsatisfactory because....".

The bibliography would include the original text you actually read but also the secondary text referred to, so when collecting references make sure you collect all references at the start. It is always good practice to try to read an original text and not rely on another later author paraphrasing their work, however this is not always possible. Retrieve the original citation for Patterson (1996) from the bibliography of Smith (1998) and cite this way to demonstrate you never read the original work:

Patterson, F. (1996). *Personnel Management*. London: Pearson, in Smith, S. (1998). *Recruitment Practices in the Retail Sector*. London: Jonesbooks.

Remember the golden rule however that you should always try to read the original source whenever possible.

Technical production regulations

When submitting the Graduation Assignment it is extremely important that you follow certain technical requirements. These must be adhered to otherwise a penalty may be enforced which can hinder your ability to pass the graduation assignment.

Two copies of your graduation assignment have to be submitted to Wittenborg Education Department Office before 12 am on the hand-in date; however you are allowed to submit earlier at your discretion. Both copies of the graduation assignment will be archived in the Wittenborg Library from date of submission. All assignments must also be submitted online to the correct upload area through Wittenborg Online, as well for plagiarism check. There will be instructions provided throughout the programme on how to submit your paper or documents on intranet submission area, on the Wittenborg-Online. This online submission can be used to check for other technical requirements such as the word count.

Your document should be spirally bound and produced on A4 size paper. Creative output projects that may include some visual artifact or portfolio will require only one submission of this element along with the bound two copies of the written Thesis.

It should be typed in a reasonably sized font (Geneva 10, or Times 12 are good examples) double-spaced (except for indented quotations and footnotes) on single sides of A4 white paper.

Lengthy quotations (exceeding 40 words) should be presented, indented, with clear spaces above and below the main text.

Margins should be as follows: left (binding edge) 40mm / 1.5", right, top & bottom 25mm / 1".

Your front / title page should include the title of your graduation assignment, your name and student number, the month and the year of examination, the title of your degree course and the name of your tutor. It should not include anything else.

Follow carefully what must be included in the acknowledgements page. Ensure that the WORD COUNT has been identified at the bottom of your acknowledgements page.

All costs associated with the assignment are borne by you, the student. If an organisation or individual does give you a lot of help then it would normally be a courtesy for you to send them a copy of your final project, or, at least an executive summary.

Official framework deadlines for 2014 - 15

Process and regulations.

NB: All work to be handed in by 1600 hours (4PM) on the due date

The process begins during semester 1, when the Research Methods and Final Project Module begins; from the beginning you need to start thinking about possible research topic areas that are appropriate for a Master level Graduation Assignment. Draft version of your research proposal is the required prerequisite for this Module (See Module guide for further details).

Your project is marked by your tutor and second–marked by another member of staff (2nd Marker). Finally, a sample of marked projects is sent to the External Examiners for their assessment as a matter of quality control and assurance. The final stage of the assessment process is the Examination Board.

Regulations for late submissions / extensions to the deadline

Late submission of your thesis should be avoided. However, circumstances can arise which make a late submission inevitable. These circumstances must be acceptable as reasons for a late submission. If they include illness or injury, a medical certificate will normally be required. Late submission will not be condoned for such as printer error, computer failure, late binding or poor time management. You should not be printing off your thesis during the week it is to be handed in. Try to print off draft copies as you go to avoid any problems. Note the penalty for late submission, p. 247.

Regulations concerning mitigating circumstances

As with all modules, the Final Project is covered by the general assessment regulations concerning mitigating circumstances. If you feel that your project performance is being affected by adverse circumstances (for example, prolonged, debilitating illness, or stress due to unavoidable personal circumstances) then you can apply for an extension. You should not be applying for an extension and submitting a mitigating circumstances form. Your mitigating circumstances are taken into account in determining whether you meet the requirements for an extension, and these should be indicated on the extension request form. You need to discuss with / report to your tutor any difficulties **AS EARLY AS POSSIBLE** with regard to the possibility of extensions. You should be able to foresee if you require an extension well in advance of the submission deadline (usually at least a week before). Normally you will be required to produce evidence that you have suffered from adverse circumstances. Note the penalty for late submission, p. 247.

Plagiarism

A formal session on plagiarism is held during Induction Week. Plagiarism is a serious academic offence. Whether intentional or unintentional, plagiarism is a form of cheating, as a result of which an individual gains or seeks to gain an unfair academic advantage. It includes the use of another author's words verbatim, summarising or paraphrasing another person's argument or line of thinking, or use of a particularly apt phrase without proper attribution. When working with ideas and concepts that are not familiar to you, the temptation for some students to lift words or sections of text from other sources is great. Write in your own words because using the words or ideas of others without a reference (either using quotation marks and/or sourcing the author(s)) will lead to accusations of plagiarism. Tutors are generally familiar with differences between the writing style of students and experienced authors. There is TurnItIn software available to the School, which can be used to detect suspected cases of plagiarism. The software compares the writing used within a thesis to other sources for example websites on the Internet, journal articles, books, and other student work from other universities.

If plagiarism is detected, the Examination and Graduation Board of the University will become involved, which may ultimately result in a penalty: a serious warning, downgrading, a fail with or without a

chance to resubmit, or even dismissal from the university. It is not a pleasurable experience for both the student and the university, and therefore best avoided.

Please remember that the generation of false primary data is also a serious academic offence. You should keep all examples of primary data derived from surveys and interviews (whether in paper, electronic or taped form) as this may be used as evidence in case your results are questioned. The School may run random checks among all students with regard to their primary data. All students will be required to run their project through the TurnItIn plagiarism software and this is considered as part of the formal submission requirements. Further details of the TurnItIn submission will be provided as part of the module workshop materials and clear instructions will be provided under the project module on Wittenborg Online as to how and when to submit your graduation assignment through TurnItIn.

Note that self-plagiarism (submitting the same assignment for different courses) is also a form of plagiarism. If – irrespective of the outcome of Turnitin - there are doubts about whether or not you are the original author of a piece of work, the university will insist on an oral presentation.

Graduation Assignment Lectures/workshops

Some seminars lectures will be designed to support your research efforts on the research process generally and on topics specifically intended to support the graduation assignment. For example:

- The concept of research and the research process
- Types of research project
- Inquiry paradigms
- Literature review and secondary data
- Developing and planning research proposals
- Setting research aims and objectives
- Characteristics and principles of qualitative research
- Characteristics and principles of quantitative research
- Data Analysis

- Writing Up the project

The official process and deadlines for Graduation

Graduation Planning Deadlines

Students/Tutors

Notes

The detailed schedule will be published during the first semester with precise dates and time for the final project deadlines.

Supervision of the Graduation Assignment

Supervisors are normally members of the academic staff within the Examination and Education board. They will be allocated according to various criteria including their familiarity with the propose topic, their knowledge of the relevant methodologies, their experience in conducting and supervising research projects and their workloads. Each student is entitled to support from their supervisor. Supervisors will normally be supervising a number of students, so the total time available should, as far as possible, be divided equally between their supervisees. Tutors are allocated a maximum of **12 hours per student** for supervision including marking so when you use your tutor's time, use it wisely. This does not necessarily mean that supervisors will support their supervisees in one-to-one tutorials: different tutors and students prefer different methods, and very often you will gain more from being part of a small tutorial group than from one-to-one support – especially in the early stages of your research. It is the responsibility of students to make mutually agreeable arrangements with their supervisor. Students can see other tutors for advice; however, this is at the discretion of the other tutors. Keep your supervisor up to date if you discuss aspects of your research with another tutor. We strongly advise you to see your supervisor regularly and to follow with her/him a structured and planned approach to the dissertation along the lines that we are suggesting in this document. Students who do poorly on the dissertation are usually the ones who have failed to meet regularly with their supervisor and who have not followed a systematic plan. Supervisors are advised to keep details of attendance for each supervisee. We strongly advise you to keep a similar record detailing what was discussed and the actions you need to take. The following highlights the standard level of supervision that students should receive from the school.

Tutor / Student Supervision

Students can expect the following level of supervision from their tutor:

- Supervisors will make themselves available for appropriate tutorial times in normal office hours during semester times (normally not during the Easter/ Summer break period for some supervisors who take annual leave at such times). Discuss supervisory arrangements within your supervisor at your first meeting.
- If you choose to complete your project at a distance (i.e. you are unable to come into the University for supervisory meetings) this can impact upon the effectiveness of the support and guidance that supervisors will be able to offer. If you are planning to be away from the campus and unable to attend face-to-face tutorials please liaise with your supervisor and agree on the support that they will be able to offer at a distance.
- Supervisors will normally review in depth one chapter of the thesis. This chapter can be the student's choice; however, the vast majority of students choose the literature review as this comes early on in the process and students generally want to receive some feedback at this stage. Students should submit a word processed full draft of their chosen chapter. Supervisors are normally expected to review the chosen chapter once, and should not be expected to keep reviewing re-submitted versions of the same chapter.
- Supervisors should normally review a draft chapter and return it to the student within a few working days (3-5 days) with an appropriate level of feedback.
- Supervisors will provide advice and guidance on appropriate research methodologies. It is expected that students will also attend relevant lectures to support their research as well as reviewing various research methods texts.
- Supervisors will notify students in advance of any leave they wish to take during semester time. At various times some supervisors may be out of the School for reasons such as attending conferences, placement visits and other University business. If this absence results in the supervisor being out of the office during term time for more than 5 working days, the supervisor should make appropriate cover for each student and should notify each student.
- Supervisors are allocated a total of 12 hours per year per student, which includes marking. Supervisors can expect the following from each of their students:
- Regular, punctual attendance at supervisory tutorial meetings. Try to avoid 'dropping in' to supervisor's offices and quickly asking for advice since the supervisor may need time to reflect on your questions.

- Students come fully prepared to supervisory tutorial meetings, which means that you have read around the subject area, and / or have drafts of material that need to be consulted.
- Students should advise supervisors with regard to their holiday plans and general availability throughout the research process.
- Students should keep supervisors up to date with any problems that may interfere with the deadline or the successful completion of the thesis.
- Students should openly communicate with their supervisor any other problems or fears with regard to their project.
- Students should develop a regular time line for their project research process.
- Students should not leave the project until the end of the academic year as this places unreasonable supervisory demands on tutors. Supervision is available at appointed times only and tutors cannot be expected to condense supervision into a couple of months, particularly as they may be on annual leave.

Assessment Criteria for the Final Project: MBA dissertation

Grade/Criteria	0 – 39%	40 – 49%	50 – 54%	55 – 59%
Design and conceptualisation of project	Unsatisfactory and very poorly thought out research redesign and conceptualisation, very weak / very limited engagement with theory. Weak / highly unsatisfactory attempt to expand, redefine and/ or contribute to existing knowledge/ practice. Aims and objectives are insufficiently grounded in the wider literature. Design and conceptualization of the research demonstrates a very poor level of understanding within the confines of the project’s aims and objectives	Unsatisfactory, poorly thought out research redesign and conceptualisation, very weak / limited engagement with theory. Weak / unsatisfactory attempt to expand, redefine and/ or contribute to existing knowledge/ practice. Aims and objectives are unsatisfactorily grounded in the wider literature. Design and conceptualization of the research demonstrates a very limited level of understanding within the confines of the project’s aims and objectives and in relation to the	Adequate but weak overall. All learning outcomes have been met but at least some barely exceed the 50% pass threshold Very basic and/or poorly thought out research redesign and conceptualisation, weak engagement with theory. Weak / limited attempt to expand, redefine and/ or contribute to existing knowledge/ practice. Aims and objectives are adequate but insufficiently grounded in the wider literature. Design and conceptualization of the research demonstrates a weak approach within the confines of the project’s aims and objectives and in	A standard but sound research redesign and conceptualisation, which engages with theory. Standard attempt to expand, redefine and/ or contribute to existing knowledge/ practice. Aims and objectives are grounded in the wider literature to a standard level. Design and conceptualization of the research demonstrates a standard critical approach within the confines of the

	and in relation to the expectations for the level of study.	expectations for the level of study.	relation to the expectations for the level of study.	project's aims and objectives.
Intellectual engagement, knowledge and understanding	Very limited, weak / poor understanding of and engagement with theory, frameworks and debates. Very limited recognition of seminal works, chronology and contested aspects of the wider literature, providing a highly unsatisfactory grounding for the aims, objectives, research approach and methods of the study. Several/ many significant inaccuracies and/or misunderstandings evident. Very weak / insufficient identification of gaps in knowledge.	Very limited understanding of and engagement with theory, frameworks and debates. Weak recognition of seminal works, chronology and contested aspects of the wider literature, providing an unsatisfactory grounding for the aims, objectives, research approach and methods of the study. Some significant inaccuracies and/or misunderstandings evident. Weak / insufficient identification of gaps in knowledge.	Adequate but limited understanding of and engagement with theory, frameworks and debates. Adequate but limited recognition of seminal works, chronology and contested aspects of the wider literature, providing a weak grounding for the aims, objectives, research approach and methods of the study. Weak / limited identification of gaps in knowledge.	Some good understanding of and engagement with theory, frameworks and debates. Clear and at times good recognition of seminal works, chronology and contested aspects of the wider literature, providing a standard grounding for the aims, objectives, research approach and methods of the study. Standard identification of gaps in knowledge.
Methodology and research methods	Very poorly thought out justification for and explanation of methods adopted with insufficient links made to the literature review and research	Poorly thought out justification for and explanation of methods adopted with insufficient links made to the literature review and research questions. Weak /	An adequate but weak justification for and explanation of methods adopted with limited links made to the literature review and research	A standard justification for and explanation of methods adopted with links made to the literature review and research questions. Conclusions and/ or recommendations are discussed to an exemplary level within the context of the outcomes / findings. Highly rigorous overt and informed recognition of limitations and areas for further enquiry.
Structure, organisation and presentation	Very good organisation, structure and presentation of the project. Very good quality written and/or visual communication. Very good compliance and adherence to established protocols for academic writing (e.g. Harvard referencing, bibliography). Few grammatical errors and isolated omissions in the references/bibliography.	Extremely good organisation, structure and presentation of the project. High quality written and/or visual communication. Full compliance and adherence to established protocols for academic writing (e.g. Harvard referencing, bibliography). No / limited apparent grammatical errors or omissions in the references/bibliography.	Exemplary organisation, structure and presentation of the project. High quality written and/or visual communication with clear narrative style and appropriate structure. Strict compliance and adherence to established protocols for academic writing (e.g. Harvard referencing, bibliography) No / few apparent grammatical errors or omissions in bibliography.

Graduation Assignment/ Final Project Planning

1. This GA/FP planning schedule is for full-time study in order to achieve 30 EC's. According to this planning, the students who are working full-time on their GA can complete it in-time. Students working part-time, or completing any other study requirements, should consider extra time and must discuss this clearly with their tutor.
2. Only those students who have started their work before the summer (from block 6) can graduate in Block 1.
3. Students should make sure that the submitted content is not a draft and/or final draft but the absolute final error-free version, before they press the submission button on the deadline for submitting any part and/or final version GA.
4. Students must develop their own planning for each chapter of the GA, data collection and/or analysis to write initial draft versions. These drafts should be used to develop final versions which should be uploaded before the submission deadlines.
5. Students must submit two properly bound copies of their dissertation at least 3 days before the presentation. You can hand them in to the Front Desk.
6. Block Weeks mentioned in this schedule are the standard 6 weeks of each block excluding any Introduction Weeks (IW), Study Weeks (SW) and Catch-up Weeks mentioned in any block in the year calendar. Please check the GA / FP module online area for the specific days and times for upload deadlines.
7. The Turnitin Upload area for GA Final Version of a block CLOSSES at 4PM CET (16:00 hours Dutch Time) on the Monday of Week 4 of a block. Once it's closed, it will become hidden to students and the upload area in the next block will open. If you miss the deadline you will need to submit in the next block's submission area.
8. Technical errors: Make sure that you attempt your upload well before the deadline. If there is an error you are obliged to contact the Front Desk immediately for help.

9. Graduation Ceremonies (2 per academic year) are planned in as follows:
- 2nd Week Friday of Retake Block 4
 - 2nd Week Friday of Retake Block 8

Graduation Opportunity 1, (Block 1)		
Day	Block Week	Deadlines
Block 6 (previous academic year)		
Monday	Block 6, Week 1	Make contact with Assigned tutor
Monday	Block 6, Week 2	Send Research proposal to tutor
Friday	Block 6, Week 4	Approval of passed Research Proposal by the Tutor for the official start of GA
Monday	Block 6, week 6	Possible Tutor meeting on Student Request if necessary
Block 7 (previous academic year)		
Monday	Block 7, Week 1	Deadline for submission of final version Ch. 1 & 2
Friday	Block 7, Week 4	Tutor Feedback on Ch. 1 & 2 + Meeting on Student Request if necessary
Monday	Block 7, Week 5	Submission of Research Instruments/Framework, Model /Ethical Issues etc. or Ch. 1- 4
Block 1		
Friday	Block 1, Week 1	2nd Feedback and/or Meeting on Student Request if necessary
	Block 1, Week 2	Student working on Final Version based on feedback

	Block 1, Week 3	Possible Tutor meeting on Student Request if necessary
Monday	Block 1, Week 4	Final Version Submission Deadline
Monday	Block 1, Week 6	Approval Examination Board (EB)
Tuesday	Block 1, Week 6	Results EB + Presentation Schedule announcement(See your online calendar)
Friday	Block 1, Week 6	Graduation Assignment / Final Project Presentation

Graduation Opportunity 2, (Block 2)

Day	Block Week	Deadlines
Block 7 (previous academic year)		
Monday	Block 7, Week 1	Make contact with Assigned tutor
Monday	Block 7, Week 2	Send Research proposal to tutor
Friday	Block 7, Week 4	Approval of passed Research Proposal by the Tutor for the official start of GA
Monday	Block 7, week 6	Possible Tutor meeting on Student Request if necessary
Block 1		
Monday	Block 1, Week 1	Deadline for submission of final version Ch. 1 & 2
Friday	Block 1, Week 4	Tutor Feedback on Ch. 1 & 2 + Meeting on Student Request if necessary
Monday	Block 1, Week 6	Submission of Research Instruments/Framework, Model /Ethical Issues etc. or Ch. 1- 4
Block 2		
Friday	Block 2, Week 1	2nd Feedback and/or Meeting on Student Request if necessary
	Block 2, Week 2	Student working on Final Version based on feedback
	Block 2, Week 3	Possible Tutor meeting on Student Request if necessary

Monday	Block 2, Week 4	Final Version Submission Deadline
Monday	Block 2, Week 6	Approval Examination Board (EB)
Tuesday	Block 2, Week 6	Results EB + Presentation Schedule announcement
Friday	Block 2, Week 6	Graduation Assignment / Final Project Presentation
Graduation Opportunity 3, (Block 3)		
Day	Block Week	Deadlines
Block 1		
Monday	Block 1, Week 1	Make contact with Assigned tutor
Monday	Block 1, Week 2	Send Research proposal to tutor
Friday	Block 1, Week 4	Approval of passed Research Proposal by the Tutor for the official start of GA
Monday	Block 1, week 6	Possible Tutor meeting on Student Request if necessary
Block 2		
Monday	Block 2, Week 1	Deadline for submission of final version Ch. 1 & 2
Friday	Block 2, Week 4	Tutor Feedback on Ch. 1 & 2 + Meeting on Student Request if necessary
Monday	Block 2, Week 5	Submission of Research Instruments/Framework, Model /Ethical Issues etc. or Ch. 1- 4
Block 3		
Friday	Block 3, Week 1	2nd Feedback and/or Meeting on Student Request if necessary
	Block 3, Week 2	Student working on Final Version based on feedback
	Block 3, Week 3	Possible Tutor meeting on Student Request if necessary
Monday	Block 3, Week 4	Final Version Submission Deadline
Monday	Block 3, Week 6	Approval Examination Board (EB)

Graduation Assignment / Final Project Presentation

Tutoring of the GA/FP

Tutors are normally members of the academic staff within the Examination and Education board. They will be allocated according to various criteria including their familiarity with the propose topic, their knowledge of the relevant methodologies, their experience in conducting and supervising research projects, and their workloads. Each student is entitled to support from their tutor. Tutors will normally be tutoring a number of students, so the total time available should, as far as possible, be divided equally between their students. Tutors are allocated a maximum of **12 hours per student** for supervision that includes marking; consequently, when you use your tutor's time, use it wisely. This does not necessarily mean that tutors will support their students in one-to-one tutorials; different tutors and students prefer different methods, and very often you will gain more from being part of a small tutorial group than from one-to-one support, especially in the early stages of your research. It is the responsibility of students to make mutually agreeable arrangements with their tutor. Students can see other tutors for advice; however, this is at the discretion of the other tutors.

Keep your tutor up to date if you discuss aspects of your research with another tutor. We strongly advise you to see your tutor regularly and together to follow a structured and planned approach to the dissertation along the lines that we are suggesting in this document. Students who do poorly on the dissertation are usually the ones who have failed to meet regularly with their tutor, and who have not followed a systematic plan. Tutors are advised to keep details of attendance for each student. We strongly advise you to keep a similar record detailing what was discussed and the actions you need to take. The following highlights the standard level of supervision that students should receive from the school.

Tutor / Student Supervision

Students can expect the following level of supervision from their tutor:

- Tutors will make themselves available for appropriate tutorial times in normal office hours during semester times (normally not during the Easter/ Summer break periods as some Tutors will take annual leave at such times). Discuss supervisory arrangements with your tutor at the first meeting.
- If you choose to complete your project at a distance (i.e. you are unable to come into the University for Supervisory Meetings) this can impact upon the effectiveness of the support and guidance that Tutors will be able to offer. If you are planning to be away from the campus and unable to attend face-to-face tutorials, please liaise with your tutor and agree on the support that they will be able to offer at a distance.

- Tutors will normally review in depth one chapter of the thesis. This chapter can be the student's choice; however, the vast majority of students choose the literature review as this comes early on in the process and students generally want to receive some feedback at this stage. Students should submit a word-processed full draft of their chosen chapter. Tutors are normally expected to review the chosen chapter once, and should not be expected to keep reviewing re-submitted versions of the same chapter.
- Tutors should normally review a draft chapter and return it to the student within a few working days (3-5 days) with an appropriate level of feedback.
- Supervisors will provide advice and guidance on appropriate research methodologies. It is expected that students will also attend relevant lectures to support their research as well as reviewing various research methods texts.
- Tutors will notify students in advance of any leave they wish to take during semester time. At various times, some Tutors may be out of the school for reasons such as attending conferences, placement visits and other University business. If this absence results in the Tutors being out of the office during term time for more than 5 working days, the Tutors should make appropriate cover arrangements, and notify each student.
- Tutors are allocated a total of 12 hours per year per student, which includes marking. Tutors can expect the following from each of their students:
 - Regular, punctual attendance at supervisory tutorial meetings. Try to avoid 'dropping in' to Tutor's offices and quickly asking for advice since the Tutors may need time to reflect on your questions.
 - Students must come fully prepared to supervisory tutorial meetings, which means that you have read around the subject area, and / or have drafts of material that need to be consulted.
 - Students should advise Tutors with regard to their holiday plans and general availability throughout the research process.
 - Students should keep Tutors up to date with any problems that may interfere with the deadline or the successful completion of the thesis.
 - Students should openly communicate with their Tutors on any other problems or fears with regard to their project.
 - Students should develop a regular time line for their project research process.

Students should not leave the project until the end of the academic year as this places unreasonable supervisory demands on tutors. Supervision is available at appointed times only and tutors cannot be expected to condense supervision into a couple of months, particularly as they may be on annual leave.

Extension to deadlines and mitigating circumstances

Mitigating Circumstances

During your University studies you may have certain times when circumstances prevent you performing to the best of your ability. This could be due to family problems, close personal bereavement or illness. In the first instance this should be discussed with the Tutor who will advise you.

8.2 Extension to Deadline

Normally, deadlines work must not be missed. If, due to exceptional circumstances, you are unable to meet the deadline you may request an extension using the appropriate form, available from the School Office. Supporting evidence will normally be required when applications for extensions are made, such as a medical certificate, doctor's letter, death certificate, etc. Exam Board is the only body who can authorize extensions. You may wish to make an appointment with your tutor who can also help you complete the application and ensure that you have relevant evidence.

Requests for extensions should normally be submitted in advance at least three full working days before the deadline date. You must take the application with your supporting evidence to your tutor.

Late Submission

Late submission is not normally condoned unless there are significant reasons ('mitigating circumstances') supported by written evidence. This includes absence from an assessment, failure to submit or undertake work, failure to submit work by the deadline, or poor performance.

The deadline date for submission of claims for mitigation is the last day Thursday of the Block. If you hand work in late (that is, after the deadline, or the extended deadline if one was granted), the assignment receives a 'zero' mark on the feedback sheet. However, for the student's information the tutor will write the actual mark the work *would have* received (had it not been late) on the Graduation Assignment mark sheet.

Appendixes to Final Project Handbook

Appendix 1 – pro-forma Research Proposal Form

- Research Proposal Form

Please word-process this pro-forma, following its exact layout

- Student:
- Student Number:
- Course:
- Research Interest outline:
- Please develop a 500 word narrative outlining your research interests and potential areas of investigation. Please identify the type of project (eg. dissertation, business plan, consultancy project, creative output)
- Please highlight a list of books, articles and other relevant sources that you have consulted so far. Please submit these sources using the Harvard referencing style.

Date:

To be completed by module lecturer – This will appear on the upload area as mark/comments:

Decision: Approved (Student may upload Graduation Assignment Proposal) / NO (Student can resubmit before resubmission deadline, plus feedback)

FEEDBACK DEADLINE: Same Block Friday Lesson Week 4

FINAL YEAR TUTOR:

Appendix 2 – Research Interests Resubmission Form

THE EEG - PART 9 'EUROPEAN DIPLOMA SUPPLEMENT'

(An Example)

31 August 2017

CONTENTS

European diploma supplement 3
 European Diploma Supplement of Wittenborg University **Error! Bookmark not defined.**

EUROPEAN DIPLOMA SUPPLEMENT (EXAMPLE)

This Diploma Supplement follows the model developed by the European Commission, Council of Europe and UNESCO/CEPES. The purpose of the supplement is to provide sufficient independent data to improve the international 'transparency' and fair academic and professional recognition of qualifications (diplomas, degrees, certificates etc.). It is designed to provide a description of the nature, level, context, content and status of the studies that were pursued and successfully completed by the individual named on the original qualification to which this supplement is appended. It should be free from any value judgements, equivalence statements or suggestions about recognition. Information in all eight sections should be provided. Where information is not provided, an explanation should give the reason why.

1. Information identifying the holder of the qualification

Last name(s)

First name(s)

1.1

1.2

Date of birth (dd/mm/yyyy)

Student identification number or code (if available)

1.3

--	--	--	--

1.4

2. Information identifying the qualification

Name of qualification and (if applicable) title conferred

Main field(s) of study for the qualification

2.1	Master in Business Administration / MBA	2.2	Either: General Management
Name and status of awarding institution (in original language)		or: Entrepreneurship and Innovation	
2.3		or: Hospitality Service Management	
Wittenborg University, private university of applied sciences recognised by the National Government, Ministerie van Onderwijs Nr: 25AY,		Name and status of institution (if different from 2.3) administering studies (in original language)	
Language(s) of instruction/examination		2.4	
2.5	Language of Instruction & Examination : English		
3. Information on the level of the qualification			
Level of qualification		Official length of programme	
3.1	Master degree awarded on completion of a programme of Higher Professional Education (HBO)	3.2	1.5 Years Full-time, 2.5 / 3 years Part-time, 90 ECs (European Credits)
Access requirements(s)			
3.3

Full-time

Part -time

Programme requirements

4.2

Entry Requirements for the MBA

Admission into programmes at Wittenborg is governed by the Graduation & Examination Board that empowers the Student Registrar to admit students based on pre-defined criteria. In cases where applicants have deviating admissions documents, such as Bachelor degrees that are not listed in Naric or recognised by NUFFIC, the Student Registrar is required to forward the application to the Exam Board for a decision.

☑ Master Students should have the appropriate education qualifications, validated by NUFFIC and NARIC

☑ a Bachelor degree or equivalent recognised qualification;

- Applicants are requested to provide an academic reference from their previous education institute;
- It is not necessary to have obtained a Bachelor degree from the domain of Business Administration, however in their degree students must have completed an academic piece of work (final project or dissertation) that shows a degree of academic writing and research experience.

☑ I-MBA students should have at least 3 years professional experience (after undergraduate degree);

- Applicants are requested to provide a reference from a company or organisation where they have worked;

☑ Master Students have attained a working level of the English Language equivalent to an IELTS 6.5 band, with

a minimum 6 for writing .i.e. "Has generally effective command of the language despite some inaccuracies, inappropriacies and misunderstandings. Can use and understand fairly complex language, particularly in familiar situations."

☑ Applicants must write a letter of motivation and submit their Curriculum Vitae and 2 letters of reference.

☑ Students are interviewed by Wittenborg for intention, motivation and aptitude. They must pass this admission interview, which can be carried out in person, or through IT communications, such as video phone.

☑ After students have passed the admission interview, and have been offered a place at Wittenborg, they are asked to sign a Wittenborg Study Agreement, which details the agreements made between Wittenborg about entry into the programme, and possible preparation courses that is required. The Wittenborg Study Agreement also states that students have read and understood the Education and Examination Guide (EEG)

☑ Wittenborg is signatory for the national Code of Conduct for international students in the Netherlands, where specifics regarding entry requirements are also re-iterated.

☑ The application procedure for international students is fully described on the Wittenborg website www.wittenborg.eu. All the required documents and information regarding the fee structure can be found there.

NB: Students entering Wittenborg University programmes and signing the Study Agreement are expected to have received and read the EEG (this document).

6. Additional information
Additional information

<p>6.1</p>	<p>"The MBA degree programme is aimed at providing graduates with the skills and competencies to fulfil management positions in the field of business administration, both in the public and private sector. These positions can include management or policy-making positions in large organisations, as well as positions of management in small to medium sized companies (SMEs). An aim is that students are able to critical analyse and evaluate various developments within an organisation so that they can form, create and instigate policies, visions and aims and solutions within that organisation. They should be in a position to analyse the strategic processes and vision of a company or organisation and using this analysis apply and implement tools to innovate, optimise and (re-)structure these processes using an integral approach. From an international perspective the students should learn to analyse the environment they find themselves in and adapt their behaviour and role according to the macro and micro environments they find themselves in."</p> <p>The qualification and competence goals of the MBA are in line with those of a Professional Master degree from a University of Applied Sciences in the Netherlands: through a combination of knowledge gained from text books, scientific research literature, exposure to business practice and the application of understanding and knowledge, students reach a stage at which they can start their (international) careers or continue their studies in the Netherlands or abroad.</p>	<p><i>Wittenborg Business Administration Graduates will show the following:</i></p> <ul style="list-style-type: none"> - ability to work independently; - ability to develop or generate new ideas and communicate these and be pro-active; - ability to think ahead and actively change processes to improve them; - develop an analytical capability based on experience; - quickly ascertain the effect of change within organisations; - ability to quickly prioritise; - ability to quickly gain an overview of an organisation; - ability to understand complex situations; - has a broad understanding of business as well as a deeper understanding of work field specific issues (specialist); - has good written and spoken presentation skills; - has the ability to work in autonomous teams and values the input of peers; - has developed a good understanding of the social – economic environment, and maintains this; - has the ability to socialise with fellow graduates and academics; - has the ability to take worthwhile decisions both long-term and short-term based on available facts and existing situations;
------------	--	--

- "holders of HBO Master's degrees have obtained the qualifications for the level of independent and/or management level professional practitioner in an occupation or spectrum of occupations, and have reached the level needed to work in a multi-disciplinary environment in which a HBO degree is either required or would be of use."

In line with the all-round domain specific qualification and competence goals of a Netherlands HBO degree,

Furthermore, an MBA graduate:

- has the ability to lead people and motivate teams;
- has the ability to communicate conclusions;
- is flexible and can cope with uncertain situations;
- shows creativeness and innovation through the ability to introduce new thoughts alongside normal theory;
- shows social competence, through self-reflection, cultural adaptability, and openness to other ways of thinking: is empathic;

The Final Qualifications of the International Master of Business Administration

1	are able to apply knowledge and theory in the correct international and intercultural context that will enable them to form an effective and efficient human resources policy within an organization
2	understand the development of business relationships, networks and chains and be able to enlarge and expand these, for themselves and their organisations, in order to support an effective human resource management policy
3	are able to conceive and develop marketing strategies and policies within an international context that reflect a realistic approach to the size and capacity of the organisation and the international environment in which the organisation is positioned
4	are able to make decisions on market research, product development, branding and market penetration and distinguish between an organization's longer-term strategic needs and its short-term operational needs
5	are able to develop a critical capacity to distinguish between formal strategic processes and quests to apply generalized insights into today's strategic challenges to concrete settings
6	have the ability to apply an understanding of management accounting principles and principles of corporate finance in the decision making processes of investment and financing, as well as decisions on profitability and dividends
7	are able to attract investment by presenting opportunities, justifying capital requirements, and demonstrating how risks can be minimised and critically analyse financial and economic reports, producing recommendations and action plans
8	are able to apply knowledge and understanding of the concepts of supply chain management within a local or international context, in a manner that will increase efficiency and increase competitiveness
9	understand the concept of total quality management processes and are able to instigate solutions that will improve the quality process beyond the benchmark

10	are able to judge competences and skills in others regarding the use of automation and office software, and make decisions on the implementation of IT investment and deployment
11	able to broadly understand the concept of corporate sustainability and what it implies for the management systems in the transformation processes towards sustainable enterprise
12	able to effectively position, defend and communicate a company's sustainability programme both to internal and external stakeholders
13	are able to instigate and execute strategic decisions regarding the positioning of the organisation within a local, national and international environment, based on local cultural requirements in a global setting
14	are aware of and able to analyse, describe and compare cultural differences based on their own experiences and that of their peers
15	are able to assess others' linguistic communication skills at all business and governmental levels, offering solutions for overcoming communication gaps
16	are able to manage small to medium sized businesses, companies in the non-profit sector and governmental organisations
17	are able to improve the existing external business environment in order to create new opportunities and diminish restrictions
18	are able to understand how to reorganise growing or stagnating organisations, from the entrepreneur to the established SME, depending on growth and environmental factors
19	understand the processes of business innovation in small, medium and large organisations, in an international context, and understands the process of idea generation within the constraints of internal and external influences
20	are able to critically analyse policies and structures and adapt and change these in order to improve effectiveness of business processes
21	are able to critically review and improve analytical reports within an international environment

22	have developed an ability to use various statistical techniques in business decision making;
23	have an ability to use and present (both in tables and graphs) descriptive statistical data and indicators within the context of business planning and business research
24	have an ability to design methodologically sound research proposals in the area of business research or similar research based on state-of-the-art conceptual models and quantitative and/or qualitative research methods
25	have reached the academic level of Master in line with the recognized European standards as described in the Dublin Descriptors
26	have developed those learning skills that are necessary for them to continue to undertake further study with a high degree of autonomy, for instance on a Doctorate programme;

Signature			Official stamp or seal		
7.3				7.4	

8. Information on the national higher education system

Introduction

The higher education system in the Netherlands is based on a three-cycle degree system consisting of Bachelor's, Master's and PhD degrees. The three-cycle system was officially introduced in the Netherlands at the beginning of the academic year 2002-2003. The Netherlands has a binary system of higher education, which means there are two types of programmes: research-oriented education (wetenschappelijk onderwijs, WO), traditionally offered by research universities, and higher professional education (hoger beroepsonderwijs, HBO), traditionally offered by hogescholen or universities of professional education. For a schematic overview of the education system please refer to the diagram at the end.

Secondary education

Secondary education, which begins at the age of 12 and is compulsory until the age of 16, is offered at several levels. The two programmes of general education that grant admission to higher education are HAVO (five years) and VWO (six years). Pupils are enrolled according to their ability and although VWO is more rigorous, both HAVO and VWO can be characterized as selective types of secondary education. The VWO curriculum prepares pupils for university and only the VWO diploma grants admission to WO. The HAVO diploma is the minimum requirement for admission to HBO. The last two years of HAVO and the last three years of VWO are referred to as the tweede fase or upper secondary education. During these years pupils focus on one of four subject clusters (profielen), each of which emphasizes a certain field of study in addition to satisfying general education requirements. Each cluster is designed to prepare pupils for programmes of study at the tertiary level. A pupil enrolled in VWO or HAVO can choose from the following subject clusters:

- Science and Technology (Natuur en Techniek)
- Science and Health (Natuur en Gezondheid)
- Economics and Society (Economie en Maatschappij)
- Culture and Society (Cultuur en Maatschappij)

Senior secondary vocational education and training

Senior secondary vocational education and training (middelbaar beroepsonderwijs, MBO) is offered in the areas of economics, technology, health, personal care, social welfare and agriculture. MBO programmes vary in length from one to four years as well as in level (1 to 4). Completion of MBO programmes at level 4 qualifies pupils for admission to HBO.

Higher education

Higher education in the Netherlands is offered at two types of institutions: research universities (universiteiten) and universities of professional education (hogescholen). The former include general universities, universities specializing in engineering and agriculture and the Open University. The latter include general institutions and institutions specializing in a specific field such as agriculture, fine and performing arts or teacher training.

Universities of professional education are primarily responsible for offering programmes of higher professional education (hoger beroepsonderwijs, HBO), which prepare students for specific professions. These tend to be more practically oriented than programmes offered by research universities. In addition to lectures, seminars, projects and independent study students are required to complete an internship or work placement (stage) which normally takes up part of the third year of study, as well as a final project or a major paper in the fourth year.

Since September 2002 the higher education system in the Netherlands has been organized around a three-cycle degree system consisting of Bachelor's, Master's and PhD degrees. At the same time the ECTS credit system was adopted as a way of quantifying periods of study. The higher education system continues to be a binary system however, with a distinction between research-oriented education and professional higher education. The focus of a degree programme determines both the number of credits required to complete the programme and the degree which is awarded.

8. Information on the national higher education system, Continued

A WO Bachelor's programme requires the completion of 180 credits (3 years) and graduates obtain the degree Bachelor of Arts or Bachelor of Science (BA/BSc), depending on the discipline. An HBO Bachelor's programme requires the completion of 240 credits (4 years) and graduates obtain a degree indicating the field of study, for example Bachelor of Engineering (BEng) or Bachelor of Nursing (BNursing). The old title (pre-2002) appropriate to the discipline in question (bc., ing.) may still be used.

WO Master's programmes mostly require the completion of 60 or 120 credits (1 or 2 years). Some programmes require 90 (1.5 years) or more than 120 credits. In engineering, agriculture and math and the natural sciences 120 credits are always required. Graduates obtain the degree of Master of Arts or Master of Science (MA/MSc). The old title (pre-2002) appropriate to the discipline in question (drs., mr., ir.) may still be used. HBO Master's programmes require the completion of 60 to 120 credits and graduates obtain a degree indicating the field of study, for example Master of Social Work (MSW).

The third cycle of higher education, leading to a doctor's degree, is offered only by research universities. All research universities in the Netherlands are entitled to award the country's highest academic degree, the doctoraat, which entitles a person to use the title doctor (dr.). The process by which a doctorate is obtained is referred to as the promotie. The doctorate is primarily a research degree, for which a dissertation based on original research must be written and publicly defended. The minimum amount of time required to complete a doctorate is four years.

Requirements for admission to higher education

To enrol in a WO Bachelor's programme a student is required to have a VWO diploma or to have completed the first year (60 credits) of an HBO programme. The minimum admission requirement for HBO is either a HAVO diploma or a level-4 MBO diploma. The VWO diploma also grants admission to HBO. For admission to both types of higher education pupils are required to have completed at least one of the subject clusters that fulfil the requirements for the higher education programme in question. A quota (numerus fixus) applies to admission to certain programmes, primarily in the health sector, and places are allocated using a weighted lottery. Potential students older than 21 years of age who do not possess one of the qualifications mentioned above can qualify for admission to higher education on the basis of an entrance examination and assessment. The only admission requirement for the Open University is that applicants be at least 18 years of age. For admission to all Master's programmes, a Bachelor's degree in one or more specified disciplines is required, in some cases in combination with other requirements. Graduates with an

HBO Bachelor's degree may have to complete additional requirements for admission to a WO Master's programme.

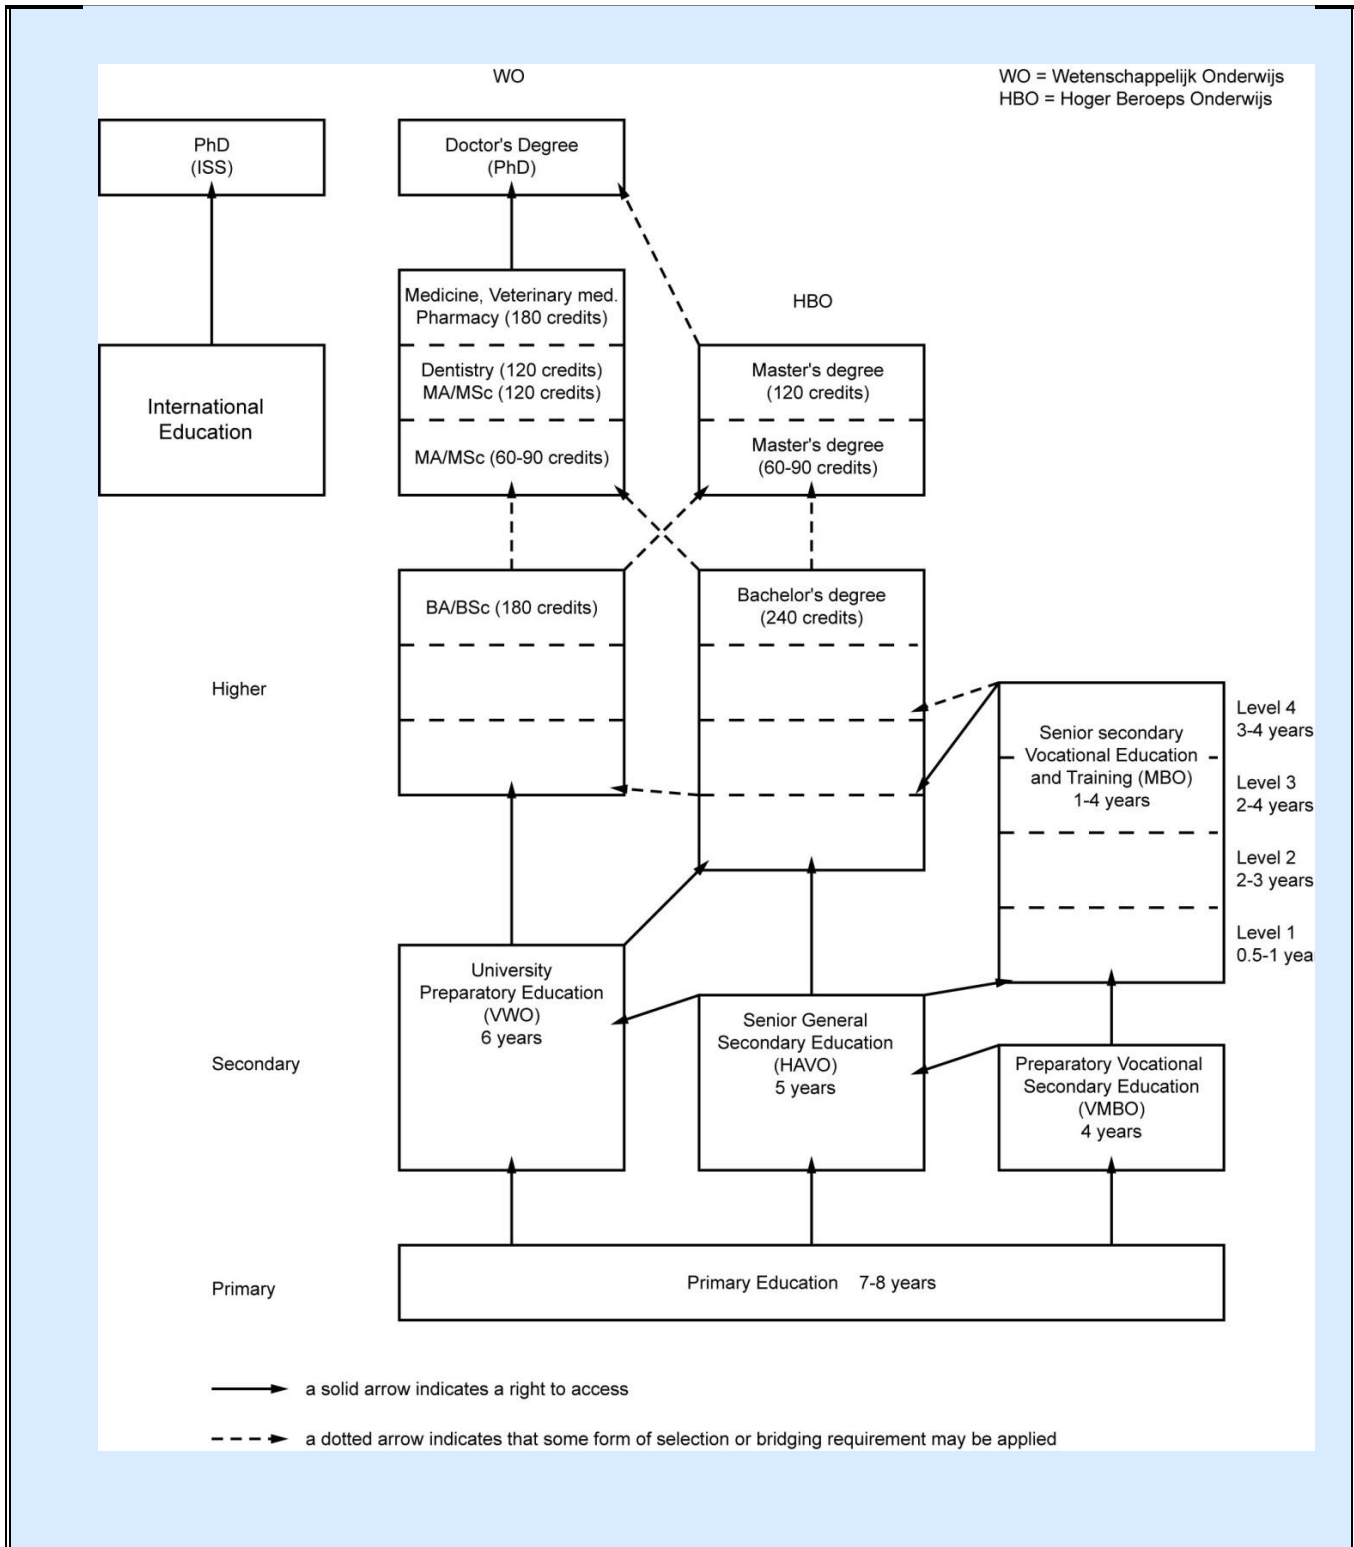

Credit system and grading

A student's workload (both contact hours and hours spent studying and preparing assignments) is measured in ECTS credits (studiepunten). According to Dutch law one credit represents 28 hours of work and 60 credits represents one year of full-time study. The grading system has remained the same for several decades: the scale is from 1 (very poor) to 10 (outstanding). The lowest passing grade is 5.5; 9s are seldom given and 10s are extremely rare. Sometimes decimal points are used (e.g. 7.8).

Accreditation and quality assurance

A guaranteed standard of higher education is maintained through a national system of legal regulation and quality assurance. The Ministry of Education, Culture and Science is responsible for legislation pertaining to education. As of 2002 responsibility for accreditation lies with the Netherlands-Flemish Accreditation Organization (NVAO). According to the section of the Dutch Higher Education Act that deals with the accreditation of higher education, degree programmes offered by research universities and universities of professional education will be evaluated according to established criteria and programmes that meet those criteria will be accredited, i.e. recognized for a period of six years. Only accredited programmes are eligible for government funding, students receive financial aid only when enrolled in an accredited programme and students will graduate with a recognized degree only after having completed an accredited degree programme. Accredited programmes are listed in the Central Register of Higher Education Study Programmes (CROHO) and the information is available to the public. Institutions are autonomous in their decision to offer non-accredited programmes, subject to internal quality assessment. These programmes do not receive government funding.

THE STUDENT CHARTER

WELCOME TO THE STUDENT CHARTER OF WITTENBORG UNIVERSITY OF APPLIED SCIENCES.

This document is part of the Wittenborg Student Agreement, General Terms and Conditions and Acceptance procedure. By signing the Student Agreement, you agree to have read and understood the mentioned documents and follow the rules and regulations accordingly.

We aim to provide you with a high quality education within a stimulating academic environment, and our aspirations are that you will have every opportunity to succeed in your chosen course of study.

Wittenborg is a small and compact organisation in which all staff contributes to a wide and diverse variety of services. Even small organisations require solid frameworks to achieve excellence and provide the kind of service to be proud of and make students proud of their association with the institution.

This Charter provides a framework for your expectations and responsibilities as a student, summarising the standards for your expectations of Wittenborg and for your responsibilities as a member of Wittenborg community.

Students studying on our courses are based not only at the main campuses but also in institutions or companies in other parts of the city, country and the world. For mainly practical reasons it is not possible to offer all parts of our services to all our students; if they are fulfilling placement or studies in other places than Apeldoorn, however, this Charter outlines the basis of service provided at the campus in Apeldoorn.

We look forward to receiving your feedback on any aspect of the Charter and, should you need any further information or advice in connection with the provisions of this Charter, please contact the appropriate person listed.

INTRODUCTION

Wittenborg University of Applied Sciences' Student Charter outlines expectations and responsibilities for students and staff and provides the framework for the learning experience of students.

This Students Charter is part of the Wittenborg University of Applied Sciences Study Agreement; an acceptance document issued to (international) Students, and is preceded by a learning agreement, together with the official acceptance letter. These should be all issued together. The Study agreement and the Official Acceptance letter are valid from the moment they are officially confirmed by Wittenborg, issued and sent by email to the student. By signing the Student Agreement, the student agrees and accepts the General conditions (This Student Charter) of the agreement and agrees to comply with his/her financial obligations to the university.

Linked closely to the Student Charter is the Complaints Procedure for Students, which allows students to bring matters of concern about their learning experience to the attention of Wittenborg, and enable investigation of those concerns with the aim of satisfactory resolution. The complaint procedure is explained in the Education Guide which you will receive at your course start. The procedure can also be downloaded at the Wittenborg website.

EQUAL OPPORTUNITIES POLICY

Wittenborg respects the dignity and diversity of all our students and staff, and therefore we are actively implementing our equal opportunities policies. We aim for a community that is free from intimidation and discrimination.

We aim to offer students:

- a culture in which behaviour reflects a high level of awareness of equal opportunities issues;
- equality of opportunity regardless of personal characteristics and differences; this commitment applies to all individuals and all aspects of Wittenborg life;
- clear information about processes and procedures;
- the knowledge that any complaint of unfair discrimination or harassment will be treated seriously and dealt with fairly and efficiently

We expect that students will:

- respect and treat with dignity all members of the Wittenborg community;
- comply with Wittenborg's policies on equal opportunities and harassment

EXPECTATIONS FOR BEHAVIOUR AND CONDUCT

All members of Wittenborg are expected to behave in a manner which is respectful of the rights and views of others.

We aim to offer students:

- clear guidelines outlining behavioural expectation to be made available;
- fair and consistent treatment in dealing with breaches of the Student Code of Behaviour

We expect that students will:

- be familiar with the Student Code of Behaviour and abide by it

ADMISSIONS

We aim to offer students:

- information about their course or programme of study, its teaching and assessment arrangements, and resources which they will need to have access to, or make use of; research degree students can also expect information on supervision arrangements;
- an interview for the course, either in person, or by telephone
- entrance tests if required
- liaison with agents and home schools (if applicable)

We expect that students will:

- familiarise themselves with the course documentation and relevant University policies, including the internet <http://www.wittenborg.eu> and intranet <http://www.wittenborg-online.com> sites, as well as student resources located on Office365 <http://office.wittenborg.eu> and Facebook pages.

JOINING THE UNIVERSITY

We aim to offer students:

- where appropriate, an induction and introduction programme which introduces you to life in the Netherlands (for international students), in Apeldoorn and at Wittenborg, It will include details of your course, clarify Wittenborg expectations and explain procedures; your induction programme will also outline key services and facilities;
- a programme of social activities and events organised by Wittenborg ;

We expect that students will:

- complete enrolment procedures and agree to pay fees and other charges as due;
- learn as much as they can about the course they are embarking on and the services and facilities available in the University;
- familiarise themselves with the various policies and procedures which students of Wittenborg are bound by;

- talk to tutors and administration office if any problems or concerns arise during these early days;
- consult their course leader and confirm in writing if they are intending to withdraw from or suspend their studies;
- keep administration office informed of any changes in address, legal status or other details

TEACHING

Wittenborg is committed to ensure high standards in its teaching and in supporting learning.

We aim to offer students:

- a learning and teaching strategy that is well planned, which uses different methods, and is designed to help them think and work for themselves;
- information about the arrangements and study requirements for the course;
- adjust the course material up to the standards and the exams requirements;
- regular and constructive critical feedback on their work

We expect that students will:

- prepare for and participate in scheduled learning activities in ways which support the teaching and learning of others as well as themselves;
- make themselves familiar with the course information provided;
- comply with the administrative arrangements of the course;
- give constructive critical feedback on their learning experience in the course

ATTENDANCE AND PARTICIPATION

While learning happens 'within' each individual, the majority of courses include activities designed to support learning which depend on participation and collaboration. Discussions, simulation exercises and workshops, for instance, depend for their value on participants' attendance and regard for the learning of others as well as for themselves. So, while each student has a responsibility for organising and managing aspects of their own learning, enrolment on a course also entails commitment to participation. The nature of participation, whether it is face to face or via the internet, and its scale, will differ between modules with courses, and within courses.

We wish to emphasise that students must plan and manage their study, learning and assessment activities, even during the difficult and distressing things which happen in life. Wittenborg will assist all students in doing this through our tutoring system.

We aim to offer students:

- full information about the time and location of teaching and assessment arrangements;
- information about each department's specific course attendance requirements;

- information on how to apply for consideration of circumstances which may have affected their performance in an assessment (mitigating circumstances) by the Graduation and Examination Board

We expect that students will:

- make sure they understand and comply with the attendance requirements for their modules and course;
- arrive on time for classes;
- see the relevant member of staff as soon as possible if any class, workshop, practical or laboratory session is missed;
- inform the appropriate person in their academic department if they are absent for any significant period of time;
- understand that any sustained period of unexplained or unauthorised absence or lack of participation will be investigated and, if appropriate, may be subject to disciplinary procedures and may be reported to the parents, guardians, sponsors or Netherlands immigration authorities ;
- familiarise themselves with the illness certification procedure through their GP / doctor

ASSESSMENT

Assessment has a major influence on learning. It is also the means through which Wittenborg determines whether an appropriate standard has been achieved for progression through stages to an award.

We aim to offer students:

- clarity in the purposes and methods of assessment;
- assessment strategies which employ a range of types of assessment;
- assessment criteria which are open, transparent and free from bias;
- specific feedback on assessments to aid their understanding and improvement;
- clearly communicated and, wherever possible, appropriately sequenced and distributed assessment dates;
- a return of feedback within a reasonable time frame;
- the assurance that known and substantiated mitigating circumstances will be taken into account in deciding student awards and progression;
- information concerning the retrieval of failures
- A clear examinations and evaluation regulation in which all criteria are contained for each module and course

We expect that students will:

- complete all assessment activities and adhere to the assessment timetable;
- notify tutors promptly if they are having difficulties which affect their performance;
- provide written evidence if they submit mitigating circumstances affecting their assessments;

- comply with normal academic conventions and acknowledge the work of others where appropriate;
- never engage in cheating, plagiarism or other designated academic irregularities (as set out in the academic irregularities code of practice and the course handbook)

STUDENT FEEDBACK ABOUT COURSES

Wittenborg believes in the value of student feedback because learning is a partnership between tutors and students. It is important to staff to know how you have found the course, not simply in order to improve things in the future, but in order to help establish and promote this wider idea of the educational partnership.

We aim to offer students:

- specific opportunities to provide feedback during the course, without fear or retribution;
- the opportunity to be represented on their course committee;
- reports on the outcomes of evaluation

We expect that students will:

- provide Wittenborg with feedback as requested;
- elect a student representative per class to appropriate committees and other groups working for the management and quality of their course

PLACEMENTS

The Bachelor degree programmes of study contain substantial work experience in the form of placements. While every effort is made to secure suitable placements, Wittenborg cannot offer an absolute guarantee of a particularly wished for or chosen placement for all students who are enrolled on such courses. However, Wittenborg will place all students who are required to fulfil a placement component in what is deemed a suitable placement venue.

We aim to offer students:

- information about the level of support available in the process of securing placements;
- a clear statement of the intended outcomes and appropriate assessment of the placement;
- contact with a departmental tutor during the placement;
- access to appropriate Wittenborg facilities and services whilst on placement where possible

We expect that students will:

- play their part in securing a suitable placement;
- maintain contact with tutors whilst on placement;
- conduct themselves in a responsible and professional manner;
- comply with appropriate employer regulations;
- undertake the assessment activities associated with the placement period

RESOURCES

Wittenborg believes that, as a student of Wittenborg, you should be part of a learning environment where open, shared access is provided to a wide range of learning resources. The regulations applicable to the use of learning resources are designed to help you make the most of the resources available.

LIBRARY FACILITIES

If you need additional literature for reference Wittenborg has a variety of books under various business topics and subjects in their library. Various books with relation to all business modules taught at Wittenborg are available for reference. Additionally, if you are interested in reading novels and books on various other topics, come visit our collection.

Library in Apeldoorn is known as "Bibliotheek Apeldoorn CODA" which is located at Vosselmanstraat 299, 7311 CL Apeldoorn or you can contact them via Tel: 055-5268400.

We aim to offer students:

- published information on access and opening times of libraries to be easily available;
- help and advice with making best use of the resources available;
- access to individual and group space consistent with their programme requirements

We expect that students will:

- comply with the published regulations and code of conduct for student users of learning resources and facilities

CENTRAL COMPUTING FACILITIES

We aim to offer students:

- a computer username that allows reasonable access to IT resources according to the published timetable
- a Wittenborg email address; Student_Number@student.wittenborg.eu
- published information on opening times of computer rooms and help services to be easily available;
- specific language learning and language use software
- access to modern licensed office package software and internet software

We expect that students will:

- Comply with the Wittenborg Code of Behaviour, as can be found in the Student Information Guide

STUDENT SUPPORT

Wittenborg is committed to ensuring that a comprehensive support system is available for all (international) students. This system aims to provide effective support and guidance arrangements within Wittenborg, complemented by a comprehensive network of specialist support services, provided by the Front Desk and Back Office. Student support facilities and services are reviewed on a regular basis and are developed in response to feedback from students. Some specialist services are only available to students in their first year at Wittenborg under the terms and conditions of their package fee payment.

ON-COURSE SUPPORT AND GUIDANCE

Wittenborg provides general on-course student support and guidance outlined in course handbooks, intranet recourses and the Education Guide.

We aim to offer students:

- explanation of the support and guidance operating within their course during induction and at other key points during the course;
- widely available information about specialist support services;
- the opportunity to discuss any emerging academic or personal difficulties with an appropriate member of staff within Wittenborg or their course;
- sensitive referral to appropriate specialist services

We expect that students will:

- familiarise themselves with any relevant information literature;
- take responsibility for consulting appropriate staff about any difficulties affecting their studies at the earliest opportunity;
- make appropriate use of any specialist support available

FINANCIAL ADVICE AND INFORMATION

We aim to provide up-to-date and accurate advice and information on relevant aspects of student finance. Although student funding policy is beyond the control of the University, and generally only applies to students from within the EU, we will try to ensure that no student is disadvantaged by lack of information and support in matters concerning student funding and financial support.

We aim to offer students:

- clear and accurate information about tuition fee, package fee for first year students, and other University charges, together with details of any payment arrangements that may be offered;
- assistance in dealing with Education Authorities, Scholarship providers and other funding providers;
- information and advice on sources of financial support;
- information and advice on budgeting, income maximisation and debt control

We expect that students will:

- pay University fees and charges in accordance with defined time-scales;
- pay the package fees and instalment fees as agreed in the Wittenborg-Student Agreement;
- notify Wittenborg of any change in details in connection with the payment of fees and charges;
- make appropriate use of available services if they are experiencing financial difficulties

STUDENT FINANCIAL SUPPORT

We are committed to providing appropriately targeted financial support within the framework of scholarship funding available. Where we are responsible for administering financial support arrangements under Scholarship agreements (e.g. Student Loans, Business Scholarships, national Scholarships, EU Scholarships).

We aim to offer students:

- clear guidelines outlining eligibility and application procedures;
- the assurance that applications will be dealt with promptly and sensitively;
- the opportunity to discuss their application with appropriate staff

We expect that students will:

- keep any appointments arranged in connection with enquiries about financial support;
- read the guidelines/information provided and respond within specified deadlines;
- provide accurate and complete information as requested;
- recognise that Wittenborg is required to advise financial assistance providers towards those in greatest need

DISABILITY SUPPORT

Wittenborg is committed to improving provision for students with disabilities.

We aim to offer students:

- clear and accessible information on request regarding the University's policy and service provision for students with disabilities, including charges applicable for specialist services and facilities;
- the opportunity to discuss specific requirements including appropriate presentation of course material, modes of examination and course assessment, prior to admission and throughout the course;
- advice about additional funding and assistance

We expect that students will:

- inform Wittenborg of any specific support requirements arising from a disability prior to admission so that proper consideration may be given;

- inform Wittenborg of any emerging requirements related to a disability;
- inform their course leader within the first six weeks following enrolment of any special requirements for assessments and examinations;
- pay charges for any specialist human support arranged

CAREERS GUIDANCE

Work placement is part of the research and the graduation assignment for the Final and MBA year students. For more information, please refer to the Wittenborg MBA Guide in the Education Guide. The Careers Advice and Employment Service is designed to help students devise and implement short and long term career plans, offer careers education programmes appropriate to the needs of a wide range of students and inform staff and students of developments and trends within graduate employment and study.

We aim to offer students:

- access to careers education and guidance, by one-to-one interviews, group workshops or 'drop-in' duty adviser sessions; focused on both a student's home and world-wide prospects
- comprehensive information on occupational areas, employers, employment opportunities, employment trends, further study and the changing nature of work; in relation to a students' legal right to work in the Netherlands (for international students)

We expect that students will:

- make themselves aware of the services and facilities available as early as possible and use them fully;
- provide as much notice as possible if they have to cancel an appointment;
- take responsibility for researching career opportunities and planning their career;
- advise the Careers Service of their employment or further study after completion of the course

COUNSELLING SUPPORT

We provide a confidential counselling service staffed by professionally trained counsellors.

We aim to offer students:

- an initial appointment for individual or group counselling normally within two weeks of enquiry;
- if they are in crisis, an appointment with a counsellor or a student support adviser, normally on the same day;
- a referral to another appropriate professional service or agency if it is an emergency situation and no counsellor is available

We expect that students will:

- keep any appointments offered by the service and provide as much notice as possible if they have to cancel an appointment;
- accept responsibility for their part in the counselling process;
- respect the confidentiality of the counselling arrangements for other students

RELIGIOUS AND CULTURAL ADVICE

Wittenborg endeavours to respect and support the pastoral and religious needs of students.

We aim to offer students:

- opportunities to talk freely and confidentially about faith and related issues with members of the chaplaincy team;
- bring students into contact with religious and cultural advisers if required
- space available for specific times of prayer

We expect that students will:

- respect the religious and spiritual beliefs of other members of the University

HEALTH CARE SERVICES

Independent practices provide health and dental care, offering a range of medical services to students who register with the Practice. The Centres are open from Monday to Friday for treatment and consultation. In the weekends students are able to phone a special number.

We aim to offer students:

- Adequate insurance cover under the terms of package fee for 1st year students, or advice on insurance for those arranging themselves, either privately or through Wittenborg
- An in-house Medical Advisor with practice time (2 hours per week) who will coordinate with the Wittenborg doctor / medical practice and dentist if required
- Coordination between doctor, dentist and students (making appointments, etc)
- A 24 hour hotline for emergencies

COMMUNICATION

Wittenborg has developed an excellent communication system through its Intranet. All current students of Wittenborg receive a login name and password and the right to login any time and place. to check their e-mail, course programme details, to make their exams or to chat with another Wittenborg student, teacher or staff member. All the students are kept informed about the current updates at Wittenborg and can place/post their questions on line.

We aim to offer students:

- a student website for exchanging views and news

- involvement in a range of community and voluntary projects in Apeldoorn and surrounding area
- a student union that organizes social and sports events

We expect that students will:

- take full advantage of the opportunities offered;
- represent their fellow students positively at all times;
- help to enhance the profile of international students within the wider community

STUDENT INVOLVEMENT

The Student Union board will be elected every term and comprises of elected Wittenborg students.

- Wittenborg aims to instigate and support the Student Union, and Wittenborg student Union board will represent students at meetings with Wittenborg board of directors regarding general Wittenborg policy and problem discussion (see below)

WITTENBORG PREMISES AND AFFILIATED CENTRES

Wittenborg regards the quality of its buildings to be a central feature of the student experience.

We aim to offer students:

- a pleasing and safe environment which meets with the needs of all Wittenborg students;
- enhanced learning and teaching facilities;
- appropriate sports and recreational possibilities provided in partnership with local sports organisations

We expect that students will:

- adhere to the published guidelines and regulations for use of all specific facilities, whether owned by Wittenborg or made use of by Wittenborg, and to use them in a responsible manner

SECURITY

Wittenborg endeavours to provide a safe and secure environment for students, staff, visitors and property.

We aim to offer students:

- guidance to all students in matters of personal security;
- a secure premises and building in which to study;
- appropriate security in Wittenborg housing accommodation
- access to a secure safe for personal valuables and money, on a short term basis;

- secure storage areas in housing accommodation;

We expect that students will:

- carry their University Student Card, as identification when on Wittenborg premises;
- share responsibility for making Wittenborg a safe place;
- report anything suspicious or potential dangers to the Central Office

HEALTH AND SAFETY

Wittenborg is working to create and maintain a safe environment.

We aim to offer students:

- a safe environment for study
- safety instructions in case of emergency

We expect that students will:

- eat, drink and smoke only in the specified areas; help maintain standards of health and safety in the interests of all students, staff and visitors to the University

NO-SMOKING POLICY

In the Netherlands a No-Smoking policy is applicable. It is not allowed to smoke in public buildings such as schools, offices, bars, restaurants etc. This policy also covers all Wittenborg premises.

We aim to offer students:

- information relating to the University's No-Smoking Policy;
- help and guidance on giving up smoking to be offered by the student health service, if they are registered

You are expected to:

- abide by the University's No-Smoking Policy

ENVIRONMENTAL POLICY

Wittenborg is committed to preserving and improving the environment and accept our responsibility to pursue practices and operate in such a way as to enhance the quality of the local, national and global environment, through recycling schemes and links with environmental agencies.

We aim to offer students:

- positive and responsible attitudes to the environment through the curriculum and within the estate strategy;

- greater awareness and understanding of environmental issues and extension of available knowledge through research and consultancy

We expect that students will:

- reduce the amount of resources used, particularly energy and paper;
- separate their waste for recycling and put the various items in the appropriate recycling containers

TEACHING ACCOMMODATION AND FACILITIES

Wittenborg is committed to the provision of teaching and learning accommodation that provides a safe, supportive environment that is appropriate for its purpose.

We aim to offer students:

- appropriate facilities and equipment, including audio-visual facilities where relevant
- internet and email facilities without extra charge
- accommodation that is not more than 1/2 hour travel distance from residence

We expect that students will:

- comply with Wittenborg regulations and act in a responsible manner
- respect Wittenborg property and the rights of others
- help to keep the Wittenborg accommodation tidy at all times

RESIDENTIAL ACCOMMODATION

Wittenborg is committed to introducing innovative schemes to help new students find the best possible accommodation available and to provide a flexible approach responsive to specific needs.

As part of the package fee and our commitment to visa applications, we guarantee to offer "1st year in Holland" students:

- appropriate furnished housing, with either own or shared room, including
 - bed
 - wardrobe
 - desk and chair with reading lamp
 - kitchen provided with washing machine,
 - refrigerator and a cooker;
 - vacuum cleaner;

We aim to offer all other students:

- information on the range of accommodation available in Apeldoorn, including accommodation let by the University;

- a fair system of allocation of places, in order of the date of the request arrives at the Student Administration Office; I.E. "first come, first served"

We expect that students will:

- new Students should notify the Administration Office at least five days in advance about their arrival using the forms issued by your contact person:
- pay all fees and rents as required;
- Sign the appropriate housing contract, and agree to its terms and conditions;
- comply with Wittenborg housing regulations and disciplinary rules;
- act in a responsible manner, being aware of their neighbours and not bringing Wittenborg into disrepute;
- respect Wittenborg property and the rights of others, ensuring that the environment is safe and attractive for students, staff and visitors

THE STUDENT CODE OF BEHAVIOUR

INTRODUCTION

Wittenborg Student Code of Behaviour policy has been written to help guide the behaviour of students as members of the University community. Wittenborg strives to promote international excellence. We make every effort to ensure:

1. The opportunity for students to learn and inquire freely;
2. The protection of intellectual freedom and the rights of professors to teach;
3. The advancement of knowledge through scholarly pursuits and relevant dialogue.

The University community is by nature pluralistic and diverse. Those who elect to participate in the Wittenborg community accept the responsibility of sharing in the effort to achieve the University's mission as an institution of higher learning. Each person is expected to respect the objectives of the University and the views expressed within the community. In so doing, all members of the University community, and their guests, are expected to conduct themselves in an appropriate and civil manner at all times. These behavioural expectations include behaviour both on- and off-campus as defined herein. Additional policies and practices or changes may evolve and the Student Charter and other policy may be amended, modified, or suspended at any time. Written notice of such changes will be distributed as soon as possible. Participants in this shared enterprise strive to be governed by what ought to be rather than what is. To accomplish its goals, members of the University community aspire to a standard that is higher than mere compliance with formalized University requirements and local, state, and European law. We endeavour to fulfil the following expectations:

- Statement of Ethics
- Student Rights
- Student Responsibilities
- Disciplinary Procedures
- Disciplinary Actions

STATEMENT OF ETHICS

To preserve academic honour and integrity by repudiating all forms of academic and intellectual dishonesty;

1. To treat others with respect and dignity;
2. To respect the rights and property of others;
3. To act with concern for the safety and well-being of all our associates.

Inquiry, discourse, and dissent, within the framework of an orderly academic environment, are essential elements of a university community. Members of the Wittenborg community recognize this and are consequently supportive of democratic and lawful procedures, and dedicated to rational approaches to solving problems. This assumes openness to change as well as commitment to historical values.

STUDENT RIGHTS

Wittenborg students are accorded the following rights to ensure positive educational results for each individual:

1. **Educational Environment:** Students have the right to an environment conducive to their educational pursuits. This environment should be free from harassment and discrimination and free from any other unreasonable interference with their educational experiences. Wittenborg University of Applied Sciences offers protection from discrimination or disturbance to students in their educational programs, activities, and employment on the basis of race, sex, sexual orientation, colour, creed, age, ethnic or national origin, or non-disqualifying handicap, as required by Dutch laws and legislation.
2. **Assembly and Expression:** Students have the right to assemble and express themselves freely in a lawful and orderly manner. (This right may be subject to the "Rallies, Demonstrations, and Public Assemblies" policy described herein.)
3. **Information:** Students have the right to information pertaining to academic standing, course requirements, and graduation requirements.
4. **Participation in University Governance:** Students have the right to participate in University governance through the Student Union/Representatives as set forth in University policy.
5. **Access to Disciplinary Procedures:** Students have the right to utilize disciplinary procedures, as set forth in University policies.
6. **Search and Seizure:** Students have the right to be secure from unreasonable search and seizure.
7. **Grievances:** Students have the right to make their concerns or grievances known through the appropriate administrative channels as prescribed under the policies of the University. The Board of Director or the Academic Dean serves in an advisory capacity for students seeking information about processes governing alleged violations of students' rights by others or by the University itself.

Wittenborg recognizes the rights of students to direct their own behaviour off-campus, consistent with their responsibilities as individuals. It is the University's aim to assist students in achieving healthy developmental outcomes.

STUDENT RESPONSIBILITIES

When enrolling at Wittenborg, a student assumes responsibilities to fellow students, to the University, and to himself or herself. Students are responsible for conducting themselves in a lawful, civil, and responsible manner and for observing all University rules, regulations, and policies. This policy is intended to address concerns regarding the behaviour of students who are members of the University community. These procedures are not intended to replace civil and/or criminal procedures. When necessary, the University will work with appropriate law enforcement officials to redress accusations of criminal activity.

For the purposes of the Student Code of Behaviour, a student is defined as someone who has accepted an offer of admission to the University with a monetary deposit and is in the process of enrolling (i.e., summer registration program), is enrolled, or was recently enrolled as a full-time, part-time or Dual-Study student. Student status remains in effect during any block in which a person is or has been enrolled (regardless of whether they dropped or withdrew from that block); during the periods between blocks of enrolment; and during the block/term immediately preceding and immediately following enrolment until a diploma is conferred, or official deregistration procedure is completed.

If the University becomes aware that a student or applicant is a convicted felon, or is required to register as a sex offender, the University reserves the right to immediately dismiss that student and/or prohibit that applicant from enrolling in future classes, or limit the access of that student to specific campus facilities, based upon a review of the crime committed by the student/applicant.

The following actions are defined by the University as unacceptable forms of behaviour and are subject to disciplinary response:

1. Dishonesty

Acts of dishonesty, including but not limited to the following:

- i. Cheating, plagiarism, or other forms of academic misconduct
- ii. Furnishing false information to any University official, faculty member, or office
- iii. Forgery, alteration, or misuse of any University document, record, or instrument of identification
- iv. Tampering with the election of any recognized University student organization
- v. Misappropriation of student activity and/or University funds
- vi. Falsification of work hours on a payroll timesheet
- vii. Providing false information on the admissions application and/or housing application.

2. Academic misconduct includes the following:

- i. Plagiarism
- ii. Self-plagiarism
- iii. Using unauthorised material
- iv. Collusion ('Group work' submitted as individually written)
- v. Fabricated, manipulated and/or dishonest data
- vi. Misrepresentation and ghost-writing
- vii. Any other forms of academic misconduct

For a detailed explanation of plagiarism, see Part 5 of the EEG.

3. Threatening, Abusive, or Harassing Behaviour

Physical abuse, verbal abuse, threats, intimidation, coercion, and/or other conduct that threatens or endangers the health or safety of any person (Sexual harassment and misconduct are governed by the Sexual Offense Policy described herein.)

Threatening or causing physical harm to another person. Physical abuse includes, but is not limited to: personal injury, physical restraint against a person's will, and holding or transporting an individual against his will.

4. Disruption or Obstruction

- i. Disruption or obstruction of teaching, research, administration, disciplinary proceedings, other University activities, including its public service functions on or off campus, or other authorized non-University activities, when the act occurs on University premises
- ii. Participation in campus demonstrations that disrupt the normal operations of the University and/or infringe on the rights of other members of the University community; leading or inciting others to disrupt scheduled and/or normal activities within any campus building or area; intentional obstruction that unreasonably interferes with freedom of movement, either pedestrian or vehicular, on campus, whether inside or outside

Students are free to assemble and express themselves publicly in a peaceful, orderly manner. Public rallies, demonstrations (either by individuals or groups), and assemblies held on campus should be registered 24 hours in advance with the Director or Dean's office indicating the desired date, time, place, expected attendance, and type of demonstration planned. Public demonstrations not registered may violate the disruption/obstruction policy.

5. Theft, Damage, or Unauthorized Use

Attempted or actual theft of unauthorized use of and/or damage to property of the University or property of a member of the University community or other personal or public property. This includes the intent to destroy or vandalize property.

6. Unauthorized Entry or Use of University Premises

Unauthorized possession, duplication, or use of keys and/or access codes to any University premises or unauthorized entry to or use of University premises. Trespassing upon, forcibly entering, or otherwise proceeding into unauthorized areas of University owned or leased facilities, their roofs, or the residential space of another without permission.

7. Compliance

Failure to comply with directions of University officials or law enforcement officers acting in performance of their duties and/or failure to provide proof of identity to these persons when requested to do so.

8. Drugs, Alcohol, Firearms, Gambling

Abuse of prescription and over-the-counter drugs.

Violation of any Dutch or European law including but not limited to:

- i. Use, possession, or distribution of narcotics or other controlled substances, except as expressly permitted by law
- ii. Use, possession, or distribution of alcoholic beverages, except as expressly permitted by the law and University policies, or public intoxication
- iii. Use or possession of drug-related paraphernalia in campus housing
- iv. Use or possession of firearms, fireworks, other explosives, other weapons, or dangerous chemicals on University premises not specifically authorized by the University
- v. Misuse of legal objects in a dangerous manner (e.g., laser pointing in someone's eyes)
- vi. Illegal gambling or wagering

9. Disorderly, Indecent Conduct

Conduct that is deemed disorderly, lewd, or indecent; breach of peace; or aiding, abetting, or procuring another person to breach the peace on University premises or at functions sponsored by, or participated in by, the University.

10. Theft or Other Abuse of Computer Time

Theft or other abuse of computing resources and network access, including but not limited to:

- i. Unauthorized entry into a file, to use, read, or change the contents, or for any other purpose
- ii. Unauthorized transfer of a file

- iii. Unauthorized use of another individual's identification and password
- iv. Use of computing facilities to interfere with the work of another student, faculty member, or University official
- v. Use of computing facilities to send, display, or print obscene or abusive messages
- vi. Use of computing facilities to interfere with normal operation of the University computing system
- vii. Knowingly causing a computer virus to become installed in a computer system or file
- viii. Knowingly using the campus computer network to disseminate "spam" messages (i.e., unsolicited bulk e-mail messages that are unrelated to the mission of the University).
- ix. Knowingly using the campus network to send any threatening, or otherwise inappropriate message.
- x. Illegal download of copyrighted software or other works (e.g., music files).

11. Hazing

Hazing, defined as an act that endangers the mental or physical health or safety of a student, or that destroys or removes public or private property, for the purpose of initiation, admission into, affiliation with, or as a condition for continued membership in, a group or organization.

12. Abuse of Fire Safety Standards

Any activity involving tampering with fire alarms or firefighting equipment, unauthorized use of such equipment, failure to evacuate during a fire alarm, hindering the evacuation of other occupants, or hindering authorized emergency personnel.

13. Abuse of the Judicial System

Abuse of the judicial system, including but not limited to:

- i. Failure to obey the summons of a judicial body or University official
- ii. Falsification, distortion, or misrepresentation of information before a judicial body
- iii. Disruption or interference with the orderly conduct of a judicial body prior to, and/or during the course of, the judicial proceeding
- iv. Initiating a judicial proceeding without justification
- v. Attempting to discourage an individual's proper participation in, or use of, the judicial system

- vi. Attempting to influence the impartiality of a member of a judicial body prior to, and/or during the course of, the judicial proceeding
- vii. Harassment (verbal or physical) and/or intimidation of a member of a judicial body, participant, and/or witness prior to, during, and/or after a judicial proceeding
- viii. Failure to comply with the sanction(s) imposed under the Students' Rights and Responsibilities policy
- ix. Influencing or attempting to influence another person to commit an abuse of the judicial system

14. Other Offenses Against the University Community

- i. Violations of other published University policies, rules, or regulations. Such policies, rule, or regulations may include the Wittenborg Student Housing Rules Regulations specific departmental policies, and the contracts and leases for campus housing.
- ii. Selling, or solicitation, on campus without the written authorization from the Director or his/her designee.
- iii. Creating a fire, safety, or health hazard.

15. Criminal Conduct and/or Civil Offenses

A violation of any Dutch or European criminal law, or engaging in behaviour that is a civil offense may be considered a violation of the Wittenborg Student Code of Behaviour even if the specific criminal conduct/civil offense is not specifically listed in this Student Responsibility section. The criminal conduct/civil offense may be considered as a violation of the Wittenborg Student Code of Behaviour irrespective of whether the criminal violation/civil offense is prosecuted in a court of law. The University may inform law enforcement agencies of perceived criminal violations and may elect to defer internal action until prosecution of the criminal violation has been completed. Exoneration from criminal charges will not result in immunity from civil action or University proceedings.

Off-Campus Behaviour

Off-campus behaviour that is detrimental to the University or its students, faculty, or staff in their roles as members of the campus community is governed by this code. Wittenborg reserves the right to take actions that address the violations through educational intervention or sanctions.

Admissions Applications

Wittenborg reserves the right to deny admission based on non-academic reasons when it is believed to be in the best interests of the university. A disciplinary violation or criminal conviction may affect admission, enrolment, or course of study, whether occurring prior to the time of application, while the application is under review, or after the admission decision has been made.

DISCIPLINARY AND JUDICIAL PROCEDURES

Because Wittenborg is an educational institution, judicial procedures and disciplinary responses to student behaviour are designed as much for guidance and correction of behaviour as for invoking fair and appropriate sanction. This code and these procedures are designed to determine whether students' alleged behaviours violate the standards and expectations of the University educational community. These expectations and procedures should, in no way, be construed to replace civil or criminal expectations or proceedings. Where necessary and appropriate, the University will work in concert with legal enforcement officers to address alleged illegal behaviour. These procedures are used to address the seriousness of the offense and the record of conduct of a given student; however, specific responses are not rigidly predetermined. The university recognizes that inappropriate behaviour may be the result of the student's inability to solve a problem or manage a situation appropriately. Ultimately, the student must accept responsibility for his or her behaviour and the consequences that result. However, the University also recognizes that judicial responses may include providing students with educational alternatives that assist the student in learning how to handle certain situations. The fundamental hope is that the student can learn and grow from the incident and sanctions imposed in response to that behaviour, and that he or she can make the necessary changes in his or her behaviour to become a constructive member of the educational community.

1. University Rights and Responsibilities

Regarding Campus Disruption or Obstruction: In cases of alleged campus and/or classroom disruption or obstruction of the academic mission of the institution, immediate action may be initiated by a faculty member and/or administrator to restore order and/or to prevent further disruption. Behaviour occurring within the academic arena, including but not limited to classroom disruption or obstruction of teaching, is within the jurisdiction of Academic Affairs. Faculty members have the right to address the immediacy of a situation as they deem appropriate (e.g., temporary removal of a student from a class when inappropriate, disruptive behaviour occurs). Faculty response is forwarded to the academic dean for review (see Academic Dean's Review below), and if necessary, further action. Further action might include permanent removal from the course. When necessary and appropriate, Public Safety and/or the **Aventus** Security division may be contacted to assist with restoring peace and order.

Search and Seizure: In cases of alleged behaviour that violates campus policy, or when there is confirmed suspicion that students may represent harm to themselves or others students, their campus residences may be subject to an administrative search. In such cases, students will be provided with notification of areas to be searched and nature of items sought prior to the search for and seizure of personal items that may be in violation of campus policies.

2. The Rights of the Student Charged

The student being charged has the right to testify on his or her own behalf, and the right to bring witnesses on his or her own behalf. Accused students may submit questions in advance to the hearing officer that they wish to have asked of those bearing witness against them. During the hearing, questions should be directed to the hearing officer, not to the witness. The use of these questions is at the discretion of the hearing officer. In cases of alleged sexual assault, special measures may be invoked to protect the rights of the victim as well as the accused. In the event accused students choose not to testify, decisions may still be rendered in the absence of their testimony.

3. Reporting a Violation

Reports of alleged violations of University rules or regulations are made to the Director (or the Academic Dean in cases of academic misconduct), or his or her designee, herein referred to as the Director.

- i. The Director informs the student in writing that an alleged violation of the Code of behaviour has been reported about him or her. The Director commences an investigation of the incident by reviewing the incident with the student. The student may be asked to provide a written statement to the Director within 48 hours of this preliminary discussion. The Director also may request written testimony from the person(s) who brought forward the information or charges and any other persons the Director believes may provide pertinent information.
- ii. The Director may appoint a designee from the Student Affairs staff to act in his or her place for any disciplinary procedure. For cases involving more than one student or a student group, the Director decides whether separate or group meetings are appropriate and proceeds to gather pertinent information regarding the case.

4. Confidentiality

All disciplinary and judicial procedures are closed and confidential. Final disciplinary decisions are communicated to the student charged and relevant school officials. If the student charged signs a release, the final disciplinary decisions are also communicated to the charging party. In cases alleging violent behaviour, the final disciplinary decisions are automatically communicated to the charging party. A copy of the written description of the sanction is placed in the Director's disciplinary file in the Legal Department.

Types of Proceedings

1. Mediation:

This procedure is implemented by the Director or his or her delegate and is generally reserved for first and less serious violators. It is employed when a violation arises out of a dispute between a charged student and another party or parties. The goal is to design a mechanism to resolve the dispute and to prevent it from recurring. A signed record of the mediation efforts, and the agreed-upon resolution, will

be retained by the Administration Office. If the participants in mediation fail to live up to the agreed-upon settlement, a charge(s) may be processed under the appropriate procedures cited below.

2. Administrative Proceeding:

The University recognizes that not every dispute or violation of individual rights or University rules and regulations should be handled by a University Management Board. Many disputes or infractions can be handled within the context of an administrative hearing. The administrative proceedings are conducted by the Director (or his or her designee), the Programme Coordinator or Operations Manager (when the offense occurs in on-campus residences), or the Academic Dean (when the offense occurs within an academic setting).

Such hearings are appropriate under any of the following conditions:

- i. When there is no record of disciplinary action in the recent past or a record of only minor violation;
- ii. When sanctions called for are less severe than suspension or expulsion from the University;
 - a. When both the student charged and the party making the charge (e.g., a University official or another student) agree to the facts in an incident and the charged party admits fault. In this case both parties agree to implementation of a disciplinary decision by the Director, or his or her designate, or, in the case of an infraction in an on-campus residential property, the Operations Manager. This agreement is made in the form of a written joint memorandum. The student's right of appeal remains unchanged;
or
 - b. When the student charged does not admit fault, but chooses an administrative hearing as an alternative to a hearing before the University Board. In such a case, the student signs a memorandum of consent for such a hearing;
- iii. When a student has been temporarily suspended due to violence or the threat of violence.

If the student is found in violation of a stated policy by the Director, sanctions are assigned. The decision is written as soon as is reasonably practicable after the hearing and forwarded to the student and, if a release is signed, to the person who made the charge. In cases with multiple students involved, written decisions may be delayed until all hearings have taken place.

3. Academic Dean's Review

This procedure is implemented by the Academic Dean (or his or her designee) and is intended to review the status of the student in a faculty member's course. This review may include a mediation between the student and the faculty member or it may be an administrative proceeding to determine whether a student should be allowed to remain in the given course. Because of the necessity for swiftness, this review should take place as soon as possible following the incident and is not subject to the

requirement of three days advanced, written notice to the student. After consulting with the student and the faculty member, together and/or separately (and any necessary witnesses), the Director shall render a decision. The student's right of appeal is to the University Board. In cases of academic dishonesty, a faculty member or university designee may request an Academic Dean's review for possible referral to the Examination & Graduation Board for a hearing on potential suspension or dismissal.

4. Procedural Guidelines for Administrative and Judicial Hearings

Hearing Officer shall conduct hearings so as to assure the basic concept of procedural fairness. The following procedures shall be adhered to:

- i. The Director or his or her designate is responsible for setting the hearing time, notifying all parties who are to testify, and forwarding all pertinent data to the appropriate board.
- ii. The Director shall give appropriate advance notice, in writing, of the charges against the student and copies of available evidence, to ensure that he or she may adequately prepare for such a hearing. The notice clearly indicates the date, time, and place of the hearing. The notification should be received by the student at least three calendar days prior to the hearing.
- iii. The hearing shall not be considered to be a legalistic trial. Rather, the Hearing Officer shall examine all relevant facts and circumstances at the hearing, shall ensure the relevancy of witnesses' statements, and shall, using a standard of "more likely than not," determine whether the charged student should be held responsible for a violation of the Code of behaviour.
- iv. Hearings are confidential and closed to all but the principals of the case. At the discretion of the Hearing Officer, a transcript may be kept in audio taped or written form. The tape and transcript are the property of the Director's Office. Students are not permitted to tape or otherwise record the proceedings. Transcripts will be kept by the Director's Office and may be reviewed but not copied or removed from the Director's Office
- v. All parties have the right to be assisted in their presentation by an advisor of their choice. The advisor may be, but is not limited to, a friend, a fellow student, or faculty member. The advisor may speak privately to the student charged during the proceedings with permission of the presiding Hearing Officer. At no time during the hearing, however, will such advisor be permitted to speak for the advisee. Each party may request a brief recess to consult with his or her advisor. The presiding officer rules on questions of procedure and is responsible for moving the proceedings along in a timely and orderly manner. Students are responsible for providing copies of all documents to their advisors.
- vi. Prior to the hearing (at least 24 hours), the student being charged should submit to the Director a list of any witnesses he or she wishes to present and the nature of the testimony they may offer. This student should also submit a list of questions he or she wishes to have asked of the charging party.

- vii. At the hearing, the student being charged and the charging party shall have ample opportunity to explain the circumstances surrounding the incident and are encouraged to present pertinent evidence and the testimony of witnesses in person. In addition, both parties shall be afforded the opportunity to comment on any written statements and other evidence presented, and to respond to questions.
- viii. The Hearing Officer should not be either a witness for or against the student or a person previously engaged in formulating the charge or in presenting the material relating to the case. Alternate member(s) will be appointed in cases in which Board members have a perceived conflict of interest with the principals of the case.
- ix. The presiding officer rules on all objections, questions, and procedural points, subject to being overruled by majority vote of the Board. He or she also determines the sequence of testimony, including the option of having all principal parties meet together in the hearing. All those who participate in the hearing are obligated to conduct themselves in an orderly manner and to obey and abide by the presiding officer's rulings. The Director attends all hearings to serve as an advisor in the process.
- x. Once all testimony is heard or read, the student being charged and the charging party are asked to make a final statement and the Hearing Officer or Board members are given a final opportunity to ask questions. All persons other than Board members and the Director are then excused and the Board meets to render a decision. The Director does not vote.
- xi. The Hearing Officer or Board decides whether there was a violation of policy using a standard of "more likely than not." They also determine whether the charged student should be held responsible for that violation. If so, sanctions are also imposed on the responsible student. Each decision must have been reached by a majority of the Board. Once a decision is reached, the student being charged is informed orally of the decision by the Director. Both parties receive the decision in writing from the Director as soon thereafter as is practicable (the charging party is informed only if the student charged signs a release form or if the case involves a violent act).

Appeals

i. Grounds for appeals:

- Procedural error
- New evidence
- Excessive sanction

ii. Limits of appeal and sequence of appeal:

A student found in violation of a stated policy may appeal a disciplinary decision only once, based on one or more of the criteria cited above. The appeal may take place in one of the following stages:

iii. Appeal of a decision by / Appeal to:

- Programme Coordinator or Operations Manager or an Associate of Director
- Director, Academic Dean (or designee)
- Any member of the Wittenborg Management board

iv. Appeal procedure:

- i. The act of filing an appeal usually postpones the action required by the initial decision until the appeal process is completed, unless the Director (in consultation with any Director) determines that postponement of the sanction may result in a serious threat to the University community.
- ii. The student must file the appeal through the Front Desk/tutor within 10 calendar days of receiving written notification of the decision. (An extension of this deadline may be requested in writing to the Director to accommodate periods of University recess or for other extenuating circumstances.) The Director then forwards the request to the appropriate Hearing Officer.
- iii. The individual seeking the appeal must indicate, in writing, the specific bases or reasons for his or her appeal. The appeal statement should include the following: Student's name, ID#, local address, phone number, reason for appeal (see 7 a. above), and appropriate information regarding why the appeal should be granted. The letter should be of sufficient detail to stand on its own without accompanying testimony to permit the evaluation of the merit of the grounds for appeal. For example, if there were procedural errors, the errors should be identified and it should be noted what effect those errors had on the outcome of the case. If there is new evidence, the nature of that evidence and the potential effect on the outcome of the case should be noted. If the student believes the sanction was excessive, the student should take great care to note why they believe the sanction was excessive and should suggest a more reasonable sanction.
- iv. The appropriate Hearing Officer or an appeals committee of the University Board will consider the written statement of appeal and recommend action to be taken: denial of appeal or a new hearing. The individuals involved will receive written notification of the decision from the Director.
- v. If the result of the appeal is an order for a rehearing, the hearing procedures described above shall apply. A new panel of Board members would rehear the case.

DISCIPLINARY ACTIONS

Disciplinary actions are proscribed by the Hearing Officer. Students are obligated to carry out all directives of the Hearing Officer or body. Failure to do so may result in further sanctions. It is the prerogative of the Management Board to assign sanctions it deems fitting in response to the actions of

the student found in violation. The University Legal Office has responsibility for monitoring compliance with all sanctions.

Temporary Suspension

Students may be placed on temporary suspension by the University Legal Office (in consultation with a Director) in the following circumstances: If the student is reasonably likely to present a threat to him or herself, to the University community, or to any of its members; or if the student poses a definite threat of disruption of, or interference with, the normal operations of the University, the alleged violator may be placed on temporary suspension. The student will be afforded an Administrative Hearing as soon as is practically possible to determine if, when, and which University privileges may be reinstated; however, the student will remain on suspension until the proceedings are complete. The opportunity for appeal to the University Board remains intact. During the temporary suspension, the student shall be denied access to University facilities and/or all other University activities or privileges for which the student might otherwise be eligible as deemed appropriate by the Director.

Disciplinary Sanctions Levels

The primary functions of any hearing body or officer are to determine whether or not there was a violation of policy and, if so, to recommend an appropriate sanction. The following are guidelines for sanctions, though ultimate determination of appropriate sanction lies with the Hearing Officer or hearing body.

Typically, for a first-time offender, a Level 1 sanction will be recommended. A Level 2 sanction may be recommended if the violation was a serious first offense or if the referred party was a repeat offender. Level 3 sanctions are usually reserved for serious first-time offender(s) or for repeat offenders. The following are examples of disciplinary sanctions. These may be used in combination at the discretion of the ruling party.

Level 1

- Letter of Warning
- University Disciplinary Warning
- Educational Sanction
- Financial Restitution
- Parental Notification of Violation and Imposed Sanctions
- Administrative Withdrawal from a Course
- Administrative Hold on University Account

Level 2

- Letter of Warning
- University Disciplinary Warning
- Educational Sanction
- Financial Restitution
- Parental Notification of Violation and Imposed Sanctions
- Administrative Withdrawal from a Course
- Administrative Hold on University Account

Level 3

- Disciplinary Suspension
- Disciplinary Dismissal

Descriptions of Disciplinary Sanctions

Letter of Warning: A warning letter issued by a hearing body or officer. The letter is placed in the Dean's Judicial File and will be made available to any hearing body or officer should the student become a repeat offender.

Administrative Withdrawal: The withdrawal of a student from a specific course, major, or academic department may be invoked in cases where the student violates the expectations of the academic arena (e.g., classroom incivility, disruption, harassment of faculty members).

Parental Notification of Violation and Imposed Sanctions: Under most circumstances, University administrators will not release information to parents without the consent of the student regarding the charges, proceedings, or sanctions imposed in a hearing. Exceptions include violations of the alcohol and drug policy (for students under the age of 18) and sanctions that include probation.

Administrative Hold on University Account: This action is most frequently taken when students do not complete assigned sanctions within the required timeframe, when students fail to answer charges, and when students must complete specific actions prior to being readmitted following suspension. This action prevents students from registering for classes, obtaining transcripts, diplomas, etc. Wittenborg University of Applied Sciences reserves the right to withhold transcripts or a diploma pending the resolution of all outstanding charges and the successful completion of any sanctions issued as a result of those charges.

Disciplinary Probation: A more stringent warning used in response to a more serious violation or frequent violations of University regulations. Further violations would require consideration of Disciplinary Suspension. This action prevents students from being able to study abroad during the

probationary period. This status may also be communicated to other schools to which a student may transfer (or has transferred).

University Housing Probation: A status that places the student on probation for a stated period of time. This is in response to violations of University regulations in the residence halls, University-owned houses, or other campus residences. This sanction may be given in addition to a Letter of Warning or Disciplinary Probation. This status is meant to notify a student that his or her housing privileges may be revoked.

Removal from University Housing: The removal of the student from on-campus housing on either a permanent basis or for a stated period of time. This is a more stringent action taken in response to serious or repeated violations of University regulations.

Disciplinary Suspension: Action that separates the student from the University for a stated minimum period of time. At the end of the period, the student must apply to the Director for reinstatement.

Disciplinary Dismissal: This status permanently separates the student from the University.

Other Disciplinary Actions

Restitution, Fines, and Refunds: In cases that involve damage to personal, University, or private property, full restitution is typically required. Fines may result when the Hearing Officer believes they are appropriate. Restitution and/or fines should be paid by check or money order. In cases of suspension or expulsion, there is no refund of University fees. Tuition and room and board charges may be refunded consistent with University refund policies.

Educational Sanction: A proscribed activity designed to assist the student in understanding how his or her actions affect the community and/or to contribute to the betterment of the community. Such action is available at any level to supplement or replace any other action.

Behavioural Contract: These contracts are written to provide very clear expectations regarding a student's behaviour within given circumstances. Probation is typically part of the contract.

Residential or Campus Restriction: Students may be restricted from access to residential facilities or other campus facilities, activities, or services. A student may also be barred from the entire campus if past behaviour threatens the health, safety, or well-being of any member (including self) of the University community.

GENERAL TERMS & CONDITIONS

WITTENBORG UNIVERSITY OF APPLIED SCIENCES

Wittenborg University of Applied Sciences is a non-funded institution; it is recognized and appointed by the Dutch Ministry of Higher Education as written in the Dutch Higher Education Law. Wittenborg University of Applied Sciences is registered at the CFI under BRIN number 25AY (www.cfi.nl).

OVERALL TERMS AND CONDITIONS

Wittenborg University of Applied Sciences is a member of the Dutch Council of Training and Education (NRTO) and is obliged to adopt the General Terms and Conditions of that Council (NRTO). These Terms and Conditions are applicable to all students registered at Wittenborg University of Applied Sciences and can be found here: <http://www.nрто.nl/wp-content/uploads/2016/02/NRTO-terms-and-conditions-consumers.pdf>.

In addition to the above, Wittenborg University of Applied Sciences has its own Terms and Conditions that are complimentary to those of the NRTO.

Dutch Law applies to these Terms and Conditions.

APPLICATION AND REGISTRATION

Application has to be done by signing and sending the application form to Wittenborg University of Applied Sciences. A study agreement will be made by means of the application form. These General Terms and Conditions are a part of the Study Agreement. By signing the Study Agreement the student declares to agree with the General Terms and Conditions and the Additional Terms and Conditions and has been informed about the Tuition Fees. After signing the Study Agreement the registration will be definite. Wittenborg University of Applied Sciences provides the opportunity to start its programmes 6 times a year. Application can be done during the whole year. The student has to hand in all the documents which are listed in the Admission Procedure/ Application Form and has to be able to identify himself/herself by a valid Identification Card.

TUITION AND FEES

Wittenborg University of Applied Sciences is entitled to change the tuition fees annually. The tuition fees do NOT include books, study material and excursions. Students are allowed to fulfill their tuition fees in installments by automatic collection. Payment by automatic collection is only possible after signing the authorization form for automatic collection. The amount of every installment will be raised with €12,50 administration costs. The collection of every installment will take place around the 28th of each month. Please check www.wittenborg.eu for the current fees.

PAYMENTS AND OBLIGATIONS

Not attending classes will not lead to reduction of the tuition fee or any other fee. When a delay in payment of more than one month occurs, Wittenborg University of Applied Sciences is entitled to collect

the total amount at once. Continuous delay in payment can lead to direct annulment of the contract by Wittenborg University of Applied Sciences, however under no circumstances will direct annulment of the contract lead to financial compensation. All due payments are still owed to Wittenborg University of Applied Sciences, and the University will take all necessary measures to retrieve due payments. If reminders and payment demands have to be sent due to delay in payment, administration costs of €25,- will be charged for every demand, from the second demand on. The student or his/her legal guardian will be held responsible for all judicial and extrajudicial costs, like interest, collection costs and administration costs.

COMPLIANCE WITH INTERNATIONAL SANCTION REGULATIONS

In compliance with International sanction regulations imposed by the EU, the UN and the US, WUAS must conduct appropriate due diligence and screening against applicable financial sanctions target lists; such as the HMT Consolidated List, financial sanctions target lists, and the OFAC list. This screening can always be performed both prior and after a student's admission at the institute. WUAS cannot be involved in any financial transactions with any person or entity, or relation of, who is registered on these lists.

CANCELLATION BY STUDENT

Cancellation of registration by the student has to be done by sending a letter by registered post to the management team. Students that have not yet started studying in the programme are allowed to cancel by email. Date of cancellation will be the date of receipt at Wittenborg University of Applied Sciences. If not agreed differently in the Study Agreement, registration is always for a period of one year. Registration for the next academic year will be confirmed after payment of the (first installment of the) tuition fee for the concerning academic year. Early termination of the study programme during the college year does not lead to refund or remission of the tuition fee. Only in case the student has to terminate his/her study due to unforeseen special circumstances, a written request with reasons and proof has to be submitted to the management team. Sickness or family circumstances can be examples of special circumstances. After approval of the management team, deregistration will take place from the second month following the month the student has announced his/her deregistration request to the management team. Example: request has been submitted in December, student will be entitled for refund and deregistration of the remaining tuition fee as from 1 February. Students have no right to retrieve the already paid tuition fee. Refund of Student Deposit can only be paid after the formal deregistration procedure has been fully completed according to the regulations.

CHANGES IN STUDY PROGRAMME

If there are less than 5 students registered to take a chosen specialization module, the specialization module will not be offered in that academic year and another specialization module has to be chosen. Wittenborg University of Applied Sciences reserves the right to change the content, timetabling, and delivery methods of curriculum and study programmes. Lecturers, lesson times and location can also be changed. A change of study mode into part-time, dual learning, or distance learning variants is allowed if agreed by tutor and programme coordinator. Student is obliged to pay the same tuition fees as already

agreed, unless the Director makes an exception. Students who choose to study part of their programme at a Wittenborg University of Applied Sciences' partner institute, under the terms of agreements made between Wittenborg and that institute must pay their full fee to Wittenborg for that year. Any fees to be paid to the partner institute are either to be paid additionally, or can be compensated by Wittenborg, depending on the arrangements Wittenborg has made with the partner institute.

CANCELLATION OF STUDY PROGRAMME (DEREGISTRATION) BY WITTENBORG UNIVERSITY OF APPLIED SCIENCES

Wittenborg University of Applied Sciences is entitled to deregister students who misbehave according to the "code of behavior" in the Student Charter. In this case no refund will be given. In case of fraud, Wittenborg University of Applied Sciences is entitled to deregister students without refund of fees. The Graduation and Examination Board has the right to give a student a negative study advice. In this case the student will bear all financial and legal consequences. The mutual rights and obligations that apply to this agreement will be terminated as soon as the agreement has been cancelled. Obligations which were applicable prior to the cancellation remain in force. With the deregistration of the student the right for study grant and OV public transportation card will end. Wittenborg University of Applied Sciences has the obligation to inform the DUO annually about the registration periods of all the students. It is the student's responsibility to inform the DUO/IB-group on time about changes in his/her personal situation or details. Wittenborg University of Applied Sciences cannot accept responsibility or liability for possible financial loss suffered by the student as a consequence of for instance, too much received study grant and/or loans. The student has to inform the Student Administration in writing about the change of address within 14 days after moving. The student is responsible for possible losses as a consequence of not informing in time or not informing the Student Administration.

EDUCATION AND EXAMINATION GUIDE (EEG)

The content and design of the programmes is described in the Education and Examination Guide. (EEG) This is available from the Education Administration (Student Registrar), and made available to all students on Wittenborg-online. This document is part of the EEG.

INSURANCE

Wittenborg University of Applied Sciences cannot accept responsibility or liability for loss and/or damage to private possessions, nor can it accept responsibility or liability for injury or any other damage suffered by the student. It's the student's responsibility to arrange his/her insurance. During the work placement, the student has to be insured through the liability insurance of the work placement company. Insurance at AON for a period of time linked to the first study registration period will be arranged for Non-EU students upon their arrival, it is the student's responsibility to extend this insurance. It is possible to arrange this through the Student Support Office.

BOOKS, STUDY MATERIALS, TIME TABLES, STUDENT CHARTER, EDUCATION GUIDE

Obtaining study materials such as books, time tables and the Education Guides is described in the Education Guide. This guide, together with the Student Charter will be given to the students before the start of the programme. Wittenborg University of Applied Sciences reserves the right to change the time tables and lesson programmes.

LIABILITY DUE TO CHANGES MADE BY EXTERNAL ORGANISATIONS

Wittenborg University of Applied Sciences is not liable for any consequences due to changes in law or policy made by national and local government. Wittenborg University of Applied Sciences is not liable for any changed information that is given in the EEG relating to external organizations such as DUO, Tax office, Ministry of Education, NVAO, FIBAA, etc.

DATA PROTECTION ACT AND PORTRAIT RIGHTS

The Data Protection Act (in Dutch: 'Wet Bescherming Persoonsgegevens') applies to all the information which is provided to Wittenborg University of Applied Sciences by the student. Wittenborg University of Applied Sciences will treat all information with the utmost care. Each student is entitled to object to the use of his/her data by Wittenborg University of Applied Sciences. The objection has to be done by a written request to the Student Administration. Wittenborg University of Applied Sciences has the right to use possible images of (educational) activities on which the student is visible, for various marketing purposes for Wittenborg University of Applied Sciences. Each student is entitled to object to the use of his/her data by Wittenborg University of Applied Sciences. The objection has to be done by a written request to the Student Administration.

COMPLAINTS

Wittenborg University of Applied Sciences will do its very best to make your study period as comfortable as possible. In case of complaints, please read the internal complaints procedure, which can be found in the Education Guides. If the complaint, despite our efforts to handle it, persists, a further complaint letter can be formulated which can be sent to the Disputes Committee (Geschillencommissie Particuliere Onderwijsinstellingen, Bordewijklaan 46, Postbus 90600, 2509 LP Den Haag, www.degeschillencommissie.nl).

THE EEG - PART 14

HOUSING CONDITIONS & IMMIGRATION RULES & REGULATIONS FOR NON-EU STUDENTS

31 August 2017

STUDENT AGREEMENT

STUDENT ACCOMMODATION CONDITIONS AND IMMIGRATION REGULATIONS FOR NON-EU STUDENTS

1. I understand the condition of Student Accommodation of Wittenborg University of Applied Sciences (Wittenborg) is very SIMPLE and BASIC with standard facilities that is mentioned on the website of Wittenborg. If planned to stay in Wittenborg accommodation, I am obliged to email the completed "Arrival Notification Form" (will be sent by the Administration) to Studenthousing@wittenborg.eu, santosh@wittenborg.eu and tineke@wittenborg.eu at least 10 working days prior to my arrival date. I'm also aware that arrival without notification will result in a four-months student accommodation contract with Wittenborg, instead of a normal five-months student accommodation contract to cover extra costs caused by my not conversant arrival. Any extra costs caused due to my non-conversant arrival, will be not be paid by Wittenborg.
2. As a Non-EU/EEA student, I'm aware that a refundable deposit of €900 will be held by Wittenborg, which will ONLY be refunded by meeting the complete Check-out Procedure of Wittenborg Accommodation AND (legal) Deregistration Procedure.
3. According to the Dutch regulations for Non-EU/EEA students, they are allowed to work 10 hours per week during the study period or choose to work full time during the summer holiday period. Non-EU/EEA students need to go through a lengthy process (3-6 months), in order to collect all the required documents to be able to work legally. Due to the deficiency of Dutch linguistic skills, Non-EU/EEA students face difficulties finding a well-paid high-quality job. The average income from part time job during the study period is approximately €200 per month, and is based on the Dutch minimum wage requirement. I am aware that the income from the part time job can never cover the cost of study, neither of living.
4. As Non-EU/EEA student, during my stay in the Netherlands, I understand the legal requirement of showing proper evidence of adequate financial support to live in the Netherlands to Dutch authorities on demand: i.e. *Higher education: €867,68* per month* (*amount can be subjected to change by the Dutch Authorities; the latest information can be found on www.nuffic.nl or www.ind.nl).
5. Herewith I, the undersigned, authorize the Administration of Wittenborg to:
 - a. Apply for my residence permit and continue further contact with the Immigration and Naturalization Service (IND) concerning my application.
 - b. Provide my personal details and information to the IND, Foreign Police and Town Hall when requested.

- c. Inform the IND, Foreign Police and Town Hall of my registration and attendance at Wittenborg, of my recent accommodation and my legal status in the Netherlands.
- d. Cancel my residence permit at IND:
 - i. after I have completed the Wittenborg deregistration procedure;
 - ii. after the first registration period if I do not continue my study;
 - iii. during my registration period if I have been absent from my lessons more than 80% without reason or I have left my accommodation before my contract ended without providing a new address.
6. In case of cancellation of my residence permit without completing the deregistration procedure, the Administration Office of Wittenborg, will inform me by sending at least one email. I am aware of the fact that by signing this document I give up my right to appeal to the Law of Personal Data Protection (which is into force since 1 September 2001).
7. I am aware and agree on the requirement of gaining minimum 30 ECs on a yearly basis, during my study at Wittenborg. Failure of achievement will terminate my registration at Wittenborg and this information will be forwarded to IND (www.ind.nl), resulting my residence permit to be revoked.
